Long March To Power:

From People's War to People's Rule Timothy J. Lomperis, 2000-11-09 Timothy Lomperis persuasively argues the ironic point that the lessons of American involvement in Vietnam are not to be found in any analysis of the war by itself. Rather, he proposes a comparison of the Vietnam experience with seven other cases of Western intervention in communist insurgencies during the Cold War era: China, Indochina, Greece, the Philippines, Malaya, Cambodia, and Laos. Lomperis maintains that popular insurgencies are manifestations of crises in political legitimacy which occur as a result of the societal stresses caused by modernization. Therefore, he argues, any intervention in a people's war will succeed or fail depending on how it affects this crisis. The unifying theme in the cases Lomperis discusses is the power of land reform and electoral democracy to cement political legitimacy and therefore deflect revolutionary movements. Applying this theory to the ongoing Sendero Luminoso insurgency in Peru, Lomperis makes a qualified prediction of that conflict's outcome. He concludes that a global trend toward democratization has produced a new era of people's rule.

Invisible Armies Max Boot, 2013-01-10 New York Times Bestseller. A Washington Post Notable Book, Nonfiction. Named one of the Best Books of the Year by Foreign Policy. A New York Times Book Review Editors' Choice Selection. Destined to be the classic account of what may be the oldest, hardest form of war. John Nagl, Wall Street Journal. Invisible Armies presents an entirely original narrative of warfare which demonstrates that far from the exception, loosely organized partisan or guerrilla warfare has been the dominant form of military conflict throughout history. New York Times best-selling author and military historian Max Boot traces guerrilla warfare and terrorism from antiquity to the present, narrating nearly thirty centuries of unconventional military conflicts. Filled with dramatic analysis of strategy and tactics as well as many memorable characters from Italian nationalist Giuseppe Garibaldi to the Quiet American Edward Lansdale, Invisible Armies is as readable as a novel. Michael Korda, Daily Beast, and a timely reminder to politicians and generals of the hard-earned lessons of history. Economist.

Politics and Purges in China Frederick C. Teiwes, 1993. Drawing upon released documents, memoirs, and party history, works the process and impact of the political campaigns in China between 1950 and 1965. Is documented. Complete with extensive interviews with Chinese scholars and former officials, the book reviews the findings of the first edition.

Space, Politics, and Cultural Representation in Modern China Enhua Zhang, 2016-12-08. Regarding revolution as a spatial practice, this book explores modes of spatial construction in modern China through a panoramic overview of major Chinese revolutionary events and nuanced analysis of cultural representations. Examining the relationship between revolution, space, and culture in modern China, the author takes five spatially significant revolutionary events as case studies: the territorial dispute between Russia and the Qing dynasty in 1892, the Land Reform in the 1920s, the Long March 1934-36, the mainland-Taiwan split in 1949, and the Cultural Revolution 1966-76, and analyses how revolution constructs, conceives, and transforms space. Using materials associated with these events, including primarily literature as well as maps, political treatises, historiography, plays, film, and art, the book argues that

in addition to redirecting the flow of Chinese history revolutionary movements operate in and on space in three main ways maintaining territorial sovereignty redefining social relations and governing an imaginary realm Arguing for reconsideration of revolution as a reorganization of space as much as time this book will appeal to students and scholars of Chinese culture society history and literature **Women and Gender in Chinese Studies** Nicola Spakowski, Cecilia Nathansen
