Long Time Gone Unabridged Format Audio:

Library Journal Melvil Dewey, Richard Rogers Bowker, L. Pylodet, Charles Ammi Cutter, Bertine Emma Weston, Karl Brown, Helen E. Wessells, 2005 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **Library Journal**, 2005 **Audiobooks, Literature, and Sound Studies** Matthew Rubery, 2011-05-09 This is the first scholarly work to examine the cultural significance of the talking book since the invention of the phonograph in 1877 the earliest machine to enable the reproduction of the human voice Recent advances in sound technology make this an opportune moment to reflect on the evolution of our reading practices since this remarkable invention Some questions addressed by the collection include How does auditory literature adapt printed texts What skills in close listening are necessary for its reception What are the social consequences of new listening technologies In sum the essays gathered together by this collection explore the extent to which the audiobook enables us not just to hear literature but to hear it in new ways Bringing together a set of reflections on the enrichments and impoverishments of the reading experience brought about by developments in sound technology this collection spans the earliest adaptations of printed texts into sound by Charles Dickens Thomas Hardy and other novelists from the late nineteenth century to recordings by contemporary figures such as Toni Morrison and Barack Obama at the turn of the twenty first century As the voices gathered here suggest it is time to give a hearing to one of the most talked about new media of the past century **The Publishers Weekly**, 2005 **The Untold Story of the Talking Book** Matthew Rubery, 2023-01-18 A history of audiobooks from entertainment rehabilitation for blinded World War I soldiers to a twenty first century competitive industry Histories of the book often move straight from the codex to the digital screen Left out of that familiar account are nearly 150 years of audio recordings Recounting the fascinating history of audio recorded literature Matthew Rubery traces the path of innovation from Edison s recitation of Mary Had a Little Lamb for his tinfoil phonograph in 1877 to the first novel length talking books made for blinded World War I veterans to today s billion dollar audiobook industry The Untold Story of the Talking Book focuses on the social impact of audiobooks not just the technological history in telling a story of surprising and impassioned conflicts from controversies over which books the Library of Congress selected to become talking books yes to Kipling no to Flaubert to debates about what defines a reader Delving into the vexed relationship between spoken and printed texts Rubery argues that storytelling can be just as engaging with the ears as with the eyes and that audiobooks deserve to be taken seriously They are not mere derivatives of printed books but their own form of entertainment We have come a long way from the era of sound recorded on wax cylinders when people imagined one day hearing entire novels on mini phonographs tucked inside their hats Rubery tells the untold story of this incredible evolution and in doing so breaks from convention by treating audiobooks as a distinctively modern art form that has profoundly influenced the way we read Praise for The Untold Story of the Talking Book If audiobooks are relatively new to your world

you might wonder where they came from and where they're going. And for general fans of the intersection of culture and technology. *The Untold Story of the Talking Book* is a fascinating read. Neil Steinberg, Chicago Sun Times. Rubery explores 150 years of the audio format with an imminently accessible style touching upon a wide range of interconnected topics. Through careful investigation of the co-development of formats within the publishing industry, Rubery shines a light on overlooked pioneers of audio. Rubery's work succeeds in providing evidence to move beyond the reductive debate on whether audiobooks really count as reading and establishes the format's rightful place in the literary family. Mary Burkey Booklist starred review.

Inside Book Publishing Angus Phillips, Giles Clark, 2025-02-28. Now fully revised and updated for its seventh edition. *Inside Book Publishing* is the classic introduction to the book publishing industry. The book provides excellent overviews of the main aspects of the publishing process: commissioning authors, product development, design and production, marketing and sales. Angus Phillips and Giles Clark offer authoritative and up-to-date coverage of all sectors of the industry, from commercial fiction to educational publishing and academic journals. They reveal how publishers continue to adapt to a fast-changing and highly interconnected world in which printed books have proved resilient alongside ebooks and the growth in audio. The topics explored include AI, social media in marketing, sustainable book production, open access for research and diversity, equity and inclusion. International case studies from industry experts give perspectives on, for example, comic books, children's picture books, women in Indian publishing and the Korean literary wave. As a manual for those in the profession and a guide for the publishers of the future, this book remains a seminal work for anyone with an interest in the industry. It will also be of interest to authors seeking an insider's view of this exciting industry. The book is supported by online resources including a glossary, a further reading list and links to a range of online resources available at www.routledge.com.
