Crime Adolf Loos, 2019-05-30 Revolutionary essays on design aesthetics and materialism from one of the great masters of modern architecture Adolf Loos the great Viennese pioneer of modern architecture was a hater of the fake the fussy and the lavishly decorated and a lover of stripped down clean simplicity He was also a writer of effervescent caustic wit as shown in this selection of essays on all aspects of design and aesthetics from cities to glassware furniture to footwear architectural training to why the lack of ornament is a sign of intellectual power Translated by Shaun Whiteside With an epilogue by Joseph Masheck **Adolf Loos** Joseph Masheck, 2013-03-21 Widely regarded as one of the most significant prophets of modern architecture Adolf Loos was a celebrity in his own day His work was emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the

twentieth His essay Ornament and Crime equated superfluous ornament and decorative arts with tattooing in an attempt to tell modern Europeans that they should know better But the negation of ornament was supposed to reveal not negate good style and an incorrigible ironist has been taken too literally in denying architecture as a fine art Without normalizing his edgy radicality Masheck argues that Loos masterful astylistic architecture was an appreciation of tradition and utility and not as most architectural historians have argued a mere repudiation of the florid style of the Vienna Secession Masheck reads Loos as a witty ironic rhetorician who has all too often been taken at face value Far from being the anti architect of the modern era Masheck s Loos is an unruly yet integrally canonical artist architect He believed in culture comfort intimacy and privacy and advocated the evolution of artful architecture This is a brilliantly written revisionist reading of a perennially popular architect

Adolf Loos August Sarnitz,2016 With his passion for smooth surfaces fine lines and spatial plans Adolf Loos was a prophet of 20th century architecture This essential introduction explores his rejection of ornamental forms and his radical pursuit of stark bold and beautiful design

Fashioning Vienna Janet Stewart,2013-06-17 This book seeks through an examination of the form and content of his texts to extend our understanding of Adolf Loos and his role in the struggle to define the nature of modernity in Vienna at the turn of the nineteenth century It makes extensive use of primary sources including archive material and newspaper reports which serve to shed new light on the way in which Loos s writings are embedded in their socio cultural context Drawing on insights from German and Austrian studies sociology and cultural history this book offers a genuinely interdisciplinary approach to a figure who himself operated in an interdisciplinary fashion

Adolf Loos Alessandra Coppa,2013 Isolated from the architectural climate of his day and at odds with the principles of the Vienna Secession Austrian born Adolf Loos with his Neo Rationalist constructions and the reform of architectural language which opposed the ornament in favour of pure utility laid the very foundations for the Modern Movement And yet for Loos the architect s trade was none other than a revival of the skills of both the craftsman and the mason supported by a profound sensitivity for chromatic and spatial aspects in the belief that the rooms in a house stimulated states of mind in the person who inhabited them This was Loos theory of Raumstimmungen which he developed in his writings It is hardly surprising that his most famous project which remained an unrealised icon repropose the image of an immense black granite Doric column presented in 1922 for the competition for the Chicago Tribune newspaper headquarters By transforming a column into a habitable building Loos project broke away from the form of the skyscraper of modern American history and suggested the idea of architecture inspired by Antiquity A new Antiquity that would make way for an unstoppable tendency from the curved line to geometry from form to function and all based on the awareness that the true modern style must represent the end of all styles and the rebellion against ornament i e houses wearing a wig and bloomers

Adolf Loos Roberto Schezen,Kenneth Frampton,Joseph Rosa,2009-06-16 Adolf Loos not only was part of the first wave of modern architecture but also served as an important source of inspiration for all architects who followed He is emblematic of

the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth Loos's masterful astyle architecture is captured in this volume by the esteemed photographer Roberto Schenzer in over one hundred exceptional photographs Starting with the refurbishment of his own apartment in 1903 twenty of Loos's most significant buildings are beautifully displayed Villa Karma the Kärntner Bar the Goldman his commentary on architecture's position between art and function plus subtle recollections of both the classic and the vernacular All these plays were to subvert typical architectural expectations Joseph Rosa's accompanying descriptions comprehensively discuss each building from the circumstances surrounding the realization of the projects to the use of Loos's architectural conventions
