Male Bonding:

Homosexuality and Male Bonding in Pre-Nazi Germany Hubert Kennedy, 2013-09-13 This is a landmark publication featuring English translations of selections from the early gay German journal *Der Eigene*. This collection previously scattered and difficult to read in the original German allows readers direct access to primary source material on the early gay movement. Neglected for years, these articles provide insight into the early gay movement particularly in its relation to the various political currents in pre World War II Germany. Simultaneously, the essays are relevant to current discussions and debates in contemporary gay men's and youth movements. Masterly introductory and concluding essays add additional insight by placing the articles in their historical context, discussing their past and current significance, and drawing lessons for the future. Readers of all levels of sophistication will find this anthology a fascinating look at homosexuality in early years.

Male Friendship in Ming China Martin Huang, 2007-04-01 This is the first interdisciplinary effort to study friendship in late imperial China from the perspective of gender history. Friendship was valorized with unprecedented enthusiasm in Ming China 1368-1644. Some Ming literati even proposed that friendship was the most fundamental relationship among the so-called five cardinal human relationships. Why the cult of friendship in Ming China? How was male friendship theorized, practiced, and represented during that period? These are some of the questions the current volume deals with. Coming from different disciplines—history, musicology, and literary studies—the contributors thoroughly explore the complexities and the gendered nature of friendship in Ming China. This volume has also been published as a special theme issue of Brill's journal *NAN N Men Women and Gender in China*.

The Matter of Difference Valerie Wayne, 1991 This lively volume investigates Shakespeare's plays in terms of the relations between material conditions of Renaissance culture and differences of gender, class, race, and erotic practice.

Men in Groups Lionel Tiger, 2017-07-12 When *Men in Groups* was first published in 1969, the *New York Times* daily critic titled his review "The Disturbing Rediscovery of the Obvious." What was so obvious was male bonding, a phrase that entered the language. The links between males in groups, Tiger describes, extend through many other primate species through our evolution as hunters, gatherers, and cross-culturally. Male bonding characterizes human groups as varied as the Vatican Council, the New York Yankees, the Elks, and Masons, the secret societies of Sierra Leone and Kenya. The power of Tiger's book is its identification of the powerful links between men and the impact of females and families on essentially male groups. While the world has changed much, the argument of the book and its new introduction by the author suggest that a species-specific pattern of male bonding continues to be part of the human default system. Perhaps one day concrete evidence of its location will emerge from the startling work on the human genome, just as the elaborate and consequential sex differences to which *Men in Groups* drew such pioneering attention have already become part of the common wisdom. Meanwhile, *Men in Groups* remains a measured and responsible but intrepid inspection of a major aspect of human social organization and personal behavior. The book was controversial when it first appeared and often foolishly and

unduly scorned But it has remained a fundamental contribution to the emerging synthesis between the social and natural sciences

Masculine Interests Robert Lang, 2002 In the 1930s a band of smart and able young men some still in their twenties helped Franklin D Roosevelt transform an American nation in crisis They were the junior officers of the New Deal Thomas G Corcoran Benjamin V Cohen William O Douglas Abe Fortas and James Rowe helped FDR build the modern Democratic Party into a progressive coalition whose command over power and ideas during the next three decades seemed politically invincible This is the first book about this group of Rooseveltians and their linkage to Lyndon Johnson's Great Society and the Vietnam War debacle Michael Janeway grew up inside this world His father Eliot Janeway business editor of Time and a star writer for Fortune and Life magazines was part of this circle strategizing and practicing politics as well as reporting on these men Drawing on his intimate knowledge of events and previously unavailable private letters and other documents Janeway crafts a riveting account of the exercise of power during the New Deal and its aftermath He shows how these men were at the nexus of reform impulses at the electoral level with reform thinking in the social sciences and the law and explains how this potent fusion helped build the contemporary American state Since that time efforts to reinvent government by brains trust have largely failed in the U S In the last quarter of the twentieth century American politics ceased to function as a blend of broad coalition building and reform agenda setting rooted in a consensus of belief in the efficacy of modern government Can a progressive coalition of ideas and power come together again The Fall of the House of Roosevelt makes such a prospect both alluring and daunting

"Material and Visual Cultures Beyond Male Bonding, 1870-1914" John Potvin, 2017-07-05 Material and Visual Cultures Beyond Male Bonding 1870-1914 presents the first cross disciplinary analysis of the visual and material representations and spaces of male same sex culture in turn of the century Britain which positions intimacy as its central object Through both historical and theoretical lenses this groundbreaking study considers photographs interior design decorative art architecture and illustrations from the popular press to reveal the interwoven narratives of intimacy aesthetics and identity The author sustains close readings to expose the challenges the representations of men together posed not only for the men of the time but also for the contemporary viewer and scholar

Primate Males Peter M. Kappeler, 2000-05-04 The size and composition of primate groups varies tremendously across species within species and within groups over time The most variable quantity is the number of adult males In some groups single males can monopolize access to several females whereas reproduction is shared among several males in other groups This variation lies at the heart of understanding

Goldstein,2003-07-17 Gender roles are nowhere more prominent than in war Yet contentious debates and the scattering of scholarship across academic disciplines have obscured understanding of how gender affects war and vice versa In this authoritative and lively review of our state of knowledge Joshua Goldstein assesses the possible explanations for the near total exclusion of women from combat forces through history and across cultures Topics covered include the history of women who did fight and fought well the complex role of testosterone in men s social behaviours and the construction of masculinity and femininity in the shadow of war Goldstein concludes that killing in war does not come naturally for either gender and that gender norms often shape men women and children to the needs of the war system Illustrated with photographs drawings and graphics and drawing from scholarship spanning six academic disciplines this book provides a unique study of a fascinating issue Male Bonds in Nineteenth-Century Art Thijs

Dekeukeleire, Henk de Smaele, Marjan Sterckx, 2022-01-10 Masculinities in nineteenth century art through the lens of gender and queer history Male bonds were omnipresent in nineteenth century European artistic scenes impacting the creation presentation and reception of art in decisive ways Men's lives and careers bore the marks of their relations with other men Yet such male bonds are seldom acknowledged for what they are gendered and historically determined social constructs This volume shines a critical light on male homosociality in the arts of the long nineteenth century by combining art history with the insights of gender and queer history From this interdisciplinary perspective the contributing authors present case studies of men's relationships in a variety of contexts which range from the Hungarian Reform Age to the Belgian fin de siècle As a whole the book offers a historicizing survey of the male bonds that underpinned nineteenth century art and a thought provoking reflection on its theoretical and methodological implications

Women Without Men Donald J. Greiner, 1993 Donald J Greiner's provocative new study evaluates the fiction of ten contemporary female novelists to ask questions about gender relations in American fiction Looking closely at the reaction of female writers to what Greiner describes as a central paradigm of American literature men bonding in the wilderness in an attempt to escape women and the social restrictions they represent Greiner contends that female novelists have not only adopted the venerable model but also adapted it so that women venture into the wilderness while excluding men from the quest Greiner first shows how such contemporary white male novelists as Frederick Busch John Irving and Larry Woiwode modify the literary model established by Cooper Melville and Twain to include women in the bonding process He then argues that recent female novelists are not so eager to allow males into the wilderness or to bond with them Rather than facilitate a closing of the gender gap many contemporary female writers insist on separating the sexes Greiner frames his analysis with discussions of prominent feminist literary theorists and feminist psychologists including Carolyn Heilbrun Rachel Brownstein Nancy Chodorow Janice Raymond and Judith Kegan Gardiner From close readings of recent novels by Gloria Naylor Marianne Wiggins Joan Didion Diane Johnson Marilynne Robinson Mona Simpson Hilma Wolitzer Meg Wolitzer Joan Chase and Lisa Alther Greiner finds three significant differences in the way contemporary female novelists employ the quest plot the patriarchal text is not repudiated but revised to accommodate female characters who readily accept the traditional masculine call to the quest once outside the bounds of society female bonds do not always hold males are excluded from the bonding process To contrast the gender exclusivity favored by contemporary female writers Greiner ends his study with a discussion of bonding as portrayed by contemporary male novelist Douglas Ungar
