Linscott,1947 **A Human Creation** W.R. Frederick,2019-02-01 A Human Creation challenges god belief under several disciplines History shows that humanity s need for the supernatural is rooted in the ancient past and that subsequent religious scriptures are poor proof of any god s existence wrought with myth fabrication and textual error Evolution is supported by the evidence not a divine intervention or design The brain your mind can make you a believer and society culture and power politics can enforce belief The physics of the universe show that there is no need for a god to arrive at today s reality while life s existence was a natural certainty All of this means that humans fabricated their gods to satisfy their needs and fears *Cumulative Paperback Index, 1939-1959* R. Reginald,2009-12-01 This was the first bibliography and guide to the American mass market paperback book and it remains one of the most definitive The major index is by author and lists author title publisher book number year of publication and cover price The title index lists titles and authors only The publisher index provides a history of that imprint with addresses number ranges and general physical description of the books issued This is the place that all study of the American paperback must begin **Engineering and the Liberal Arts** Samuel C. Florman,2024-09-04 From the author who inspired inaugural poet Richard Blanco Engineering and the Liberal Arts remains a fresh and provocative book using the familiar world of technology to guide a new generation of engineers through the stimulating world of the liberal arts Beginning with a penetrating and enlightening discussion of how exposure to the arts can enrich and reward nearly every aspect of an engineer s life Samuel Florman himself a decorated engineer with over fifty years experience in the field boldly explores the natural relationship between liberal arts and technology Sweeping away traditional barriers separating the two fields Florman establishes a rich and vital communication of ideas between scientist and artist By linking the history of technology to world history the truth of science to philosophy utility of form to painting and sculpture and the world of view of the engineer to literature Florman builds a series of bridges connecting science to art A complete survey of the arts in and of itself this impressive volume constitutes an introduction to the infinite variety of pleasures afforded through study of the liberal arts paving the way to a richer fuller life for the engineer *Sense, Sensibility and Sensation: the Marvelous Miniatures and Perfect Pastels of Laura Coombs Hills* Diane Elizabeth Kelleher,2023-05-10 Innovative and yet traditional Laura Coombs Hills 1859 1952 was renowned for both her miniatures on
