Oral Poetics in Middle English Poetry Mark C. Amodio, 2019-06-26 Originally published in 1994. *Oral Tradition in Middle English* is an edited collection providing a multidisciplinary look at the importance and nature of oral tradition in Middle English literature. The book offers a discussion of the gradual problematization of orality and literacy in works of verbal art from this period. It shows how early typographies proved too exclusive to explain the heterogeneity of relevant texts, bringing to bear the new and potentially productive concepts of vocality and developing literacy. This book establishes a new interpretive paradigm for Middle English poetry.

Medieval English Lyrics Reginald Thorne Davies, 1964. Contains over 180 poems, songs and carols of medieval England in Middle English with extensive linguistic and critical notes.

The Making of Middle English, 1765-1910 David Matthews, 1999. Before the 1760s, with the major exception of Chaucer, nearly all of Middle English literature lay undiscovered and ignored. Because established scholars regarded later medieval literature as primitive and barbaric, the study of this rich literary heritage was relegated to antiquarians and dilettantes. In *The Making of Middle English 1765-1910*, David Matthews chronicles the gradual rediscovery of this literature and the formation of Middle English as a scholarly pursuit. Matthews details how the careers, class positions and ambitions of only a few men gave shape and direction to the discipline. Mostly from the lower middle class, they worked in the church or in law and hoped to exploit medieval literature for financial success and social advancement. Where Middle English was concerned, Matthews notes, these scholars were self-taught and their amateurism came at the price of inaccurately edited and often deliberately improved texts intended for a general public that sought appealing rather than authentic reading material. This study emphasizes the material history of the discipline, examining individual books and analyzing introductions, notes, glossaries, promotional materials, lists of subscribers and owners, annotations to assess the changing methodological approaches of the scholars and the shifts in readership. Matthews explores the influence of aristocratic patronage and the societies formed to further the editing and publication of texts. And he examines the ideological uses of Middle English and the often contentious debates between these scholars and organizations about the definition of Englishness itself. A thorough work of scholarship, *The Making of Middle English* presents for the first time a detailed account of the formative phase of Middle English studies and provides new perspectives on the emergence of medieval studies, canon formation, the politics of editing and the history of the book.

Middle English Poetry Alastair J. Minnis, 2001. Material on the production and transmission of medieval literature and the early formation of the canon of English poetry. A wide range of poets is covered: Chaucer, Gower, Hoccleve, the Gawain poet, Langland and Lydgate, along with the translator of Claudian's *De Consulatu Stilichonis*, *The Turnament of*
