

"A meticulous and highly literate account,
written by a gifted storyteller. . . .

A book difficult to lay aside
until its final sentence
has been reached."

My Year *Of*

RECOVERING LIFE AFTER A STROKE
ROBERT MCCRUM

My Year Off Recovering Life After A Stroke

Ian Pickup

My Year Off Recovering Life After A Stroke:

My Year Off Robert McCrum, 1998 *My Year Off* is a story of hope written with the sort of candor and detail that has been missing in the literature of strokes up to this time. It is as well a grown up love story of the most realistic and hence inspiring kind. *My Year Off* Robert McCrum, 1998-09 A frank and moving memoir of the stroke that felled the author at his peak of vigor and achievement. *May Day: Recovering Humor from a Stroke* Anna Marie Porter, 2015-09-11 Less than two months past her fifty third birthday Anna Marie Porter suffered a stroke caused by the rupture of a cerebral cavernous malformation. She was suddenly paralyzed on her right side unable to use any of her appendages save three fingers. In the wake of such a life altering event and faced with months of rehab she found comfort in poking fun at her situation humor became her survival mechanism. What's so funny about having a stroke? Not much unless you have a healthy sense of humor or even an unhealthy one. And if you're going to take a death defying leap into the world of serious illness. What good is sitting alone in your room? So she didn't. She invited her friends family and colleagues in to her virtual hospital room through an online blog. That blog became the basis for this book. *May Day Recovering Humor From a Stroke* is sometimes poignant often funny and always an enlightening look into the world of recovering from a serious setback. *My Year Off* Robert McCrum, 2011-11-30 A Publishers Weekly Best Book of 1998. To all concerned this book is meant to send a ghostly signal across the dark universe of ill health that says you are not alone. Robert McCrum On July 29 1995 Robert McCrum 42 married only ten weeks suffered a paralyzing stroke. Overnight his life shifted irrevocably. But this admired novelist and former editorial director of the London publishing house Faber and Faber decided to chronicle what became a remarkable journey into that mysterious unexplored territory the neighbourly world of the unwell as well as a deeply moving love story. *The Stroke Book* June Biermann, Barbara Toohey, 2005-03-03 An indispensable sensitive guide for stroke sufferers and those who care for them. According to the U S Centers for Disease Control an American suffers a stroke every forty five seconds. More than 700 000 Americans each year find themselves struggling to recover from this affliction and many hundreds of thousands more are there to help them mend. June Biermann a stroke survivor and her coauthor and caregiver Barbara Toohey authors of the bestselling *Diabetic's Total Health and Happiness Book* offer this essential source for those recovering from a stroke and those providing them with support. *The Stroke Book* offers readers Clear explanations of the science of this often misunderstood condition. Information on what to expect at the hospital and in rehabilitation. Analyses of encouraging new developments in stroke therapy including basic and alternative therapies and traditional and cutting edge medications. Advice on coping with complex rehabilitation needs including adjustments for nutrition mobility and everyday living and on understanding after stroke emotional and cognitive changes. Suggestions for preventing future strokes. Information on how people recovering from a stroke can reclaim their independence and quality of life and how caregivers can manage their own stresses and sorrows. Heartening words on keeping hope alive with patience and fortitude and the curative power of humor.

Inspiring stories of the stroke and recovery experiences of well known individuals With stroke now the leading cause of serious long term disability in the United States Biermann and Toohey s optimistic user friendly guide to living well after an attack is a vital tool for recovery *Psychotherapy for Families after Brain Injury* Pamela S. Klonoff,2014-04-18 Whether caused by illness accident or incident brain injury requires multi tiered resources for the patient and considerable external care and support When recovery is sidelined by depression anger grief or turmoil family members and the support network have critical roles to play and need their own guidance and compassionate therapeutic interventions Psychotherapy for Families after Brain Injury offers theoretical frameworks and eclectic techniques for working effectively with adult patients and their families at the initial active and post treatment phases of rehabilitation This practical reference clarifies roles and relationships of the support network in interfacing with the loved one and addresses the understandably devastating and sometimes derailing emotions and psychosocial adversities The content promotes psychoeducation and guided exercises delineates helpful hints and coping tools and proffers multimedia resources to overcome hurdles Constructs of awareness acceptance and realism for all parties are woven throughout along with ideas to enhance the support network s commitment adjustment positivity hope and longevity Case excerpts instructive quotes from caregivers and nuggets of clinical advice assist in analyzing these and other topics in salient detail The impact of brain injury on different family members Treatment themes in early family sessions Family therapy for moderate to severe brain injury concussion and postconcussion syndrome Family therapy after organic brain injury stroke anoxia tumor seizure disorders Family group treatment during active rehabilitation End of life and existential considerations and positive aspects of care giving Aftercare group therapy for long term needs The hands on approach demonstrated in Psychotherapy for Families after Brain Injury will enhance the demanding work of a range of professionals including neuropsychologists clinical psychologists rehabilitation psychologists family therapists marriage and family counselors psychiatrists behavioral mental health counselors clinical social workers rehabilitation specialists such as speech language pathologists physical and occupational therapists and graduate students in the helping professions **You Can Cope with Peripheral Neuropathy** Mims Cushing,2010-05-07 Peripheral neuropathy is one of the most common diseases most people never heard of and yet upwards of 20 million Americans have it It is estimated that 60 to 70 percent of people with diabetes have mild to severe neuropathy That fact alone is staggering Other causes include vitamin deficiencies autoimmune diseases kidney liver or thyroid disorders cancer and a variety of other medical conditions According to the Neuropathy Association the extent and importance of peripheral neuropathy has not yet been adequately recognized The disease is apt to be misdiagnosed or thought to be merely a side effect of another disease However people from all walks of life live with this neurological illness that has been described by those who have it as a tingling or burning sensation in their limbs pins and needles and numbness *You Can Cope with Peripheral Neuropathy* 365 Tips for Living a Full Life was written by both a patient expert and doctor and is a welcome addition to the information on

this subject It covers such diverse topics as What to ask at doctor appointments Making the house easier to navigate with neuropathy Where to find a support group Using vitamins and herbs for treatment Tips for traveling And much much more You Can Cope With Peripheral Neuropathy is a compendium of tips techniques and life task shortcuts that will help everyone who lives with this painful condition It will also serve as a useful resource for their families caregivers and health care providers

Writing Out the Storm Barbara Abercrombie,2025-09-23 This powerful and deeply inspirational handbook is for anyone coping with serious illness or injury be it theirs or that of a loved one who wants and needs to help themselves through the healing process Offering her own experience with breast cancer as well as stories from other authors who have suffered from illnesses or severe injuries from Stephen King to Lance Armstrong Abercrombie encourages readers to write what is in their hearts and to benefit from the power of shared experience Using writing as therapy Writing Out the Storm is a book about healing the soul

A Life by Misadventure Colin M. Barron,2017-10-16 When Colin Barron and Vivien Thompson first met it was love at first sight Both were forty two had attended Glasgow University and shared many interests In 2002 the couple married Colin had a dream job as a self employed hypnotherapist while Vivien worked as a learning support teacher They had a blissful marriage based on mutual respect and intellectual parity Then in May 2011 Vivien collapsed at home with a massive stroke caused by a heart tumour that the NHS had failed to diagnose Though her life was saved by a brilliant cardiac surgeon Vivien was left with severe disabilities little speech and partial blindness Her husband realized that the tragedy had been caused by inadequate investigation and helped Vivien claim compensation Just after the case was settled in 2015 Colin himself had a massive heart attack and nearly died three times Miraculously he survived *A Life by Misadventure* is a story of two peoples struggle against impossible odds It is also a great love story a tale of a love between two people which would not die Instead of dying the love actually got stronger

When Your Spouse Has a Stroke Sara Palmer,Jeffrey B. Palmer,2011-04-15 A stroke can alter two people s lives in an instant For the person who has had a stroke simple tasks suddenly become difficult or impossible For that person s partner life seems to revolve mostly around the stroke survivor s needs Such a drastic change naturally requires making many sometimes taxing adjustments In this book two experts in stroke recovery help couples deal with the impact of stroke on their lives and their relationship Drs Sara and Jeffrey Palmer explain how to overcome three major challenges providing quality care for your partner maintaining or rebuilding your relationship caring for yourself as an individual The book invites you into the lives of real couples who are themselves coping with these challenges Their experiences model how you can improve essential aspects of your relationship including communication roles and responsibilities and sexuality A list of practical tips summarizes each chapter providing a handy reference guide to meeting each day s challenges More than just a discussion of the medical and practical aspects of stroke and stroke recovery this book focuses on the emotional psychological and social consequences of stroke and the deeply personal side of caregiving When Your Spouse Has a Stroke will relieve your burden and strengthen your partnership

Narrative-Based Practice in Speech-Language Pathology Jacqueline H. Hinckley,2007-07-02 **A Dented Image**

Alison Wertheimer,2008-07-02 Every year 8 500 people in the UK will have a subarachnoid haemorrhage of whom about 50 per cent will survive this traumatic brain injury which often occurs without warning Survivors can make a good neurological recovery but the psychosocial impact can be longer lasting Drawing from her own experience of surviving a subarachnoid haemorrhage together with other people s journeys of recovery and recent research findings Alison Wertheimer covers themes of recovery leaving neurocare and early days of recovery looking for help physical sensory and cognitive effects the emotional impact of subarachnoid haemorrhage the survivor s relationship with family and friends returning to work what helped the survivors with their recovery subarachnoid haemorrhage as a life changing event A Dented Image will be of interest to a wide ranging audience survivors and their families and friends health professionals working with people recovering from acute brain injury in hospital and community based services including doctors nurses psychologists physiotherapists occupational therapists and other members of rehabilitation teams It may also be of interest to people recovering from other traumatic illnesses or injuries Conceptual Foundations of Occupational Therapy Practice Gary Kielhofner,2009-06-19 PREPARE YOUR OT STUDENTS TO BECOME OT THINKERS Thoroughly revised and updated the 4th Edition of this groundbreaking text traces the historical development of the foundations of modern occupational therapy theory examines its status today and looks to its future Dr Kielhofner compares and contrasts eight well known models using diagrams to illustrate their practical applications and to highlight their similarities and differences Well organized chapters are supported by extensive references Stroke Survivor Andy McCann,2006-01-18 The practical book explores a broad range of issues experienced by stroke survivors from managing financial security and understanding medical approaches and terminology to the more personal challenges of coming to terms with new vulnerability and dealing with the attitudes of friends and family *Stroke Recovery and Rehabilitation, 2nd Edition* Richard D. Zorowitz,2014-09-18 The definitive core text in its field Stroke Recovery and Rehabilitation is a comprehensive reference covering all aspects of stroke rehabilitation from neurophysiology of stroke through the latest treatments and interventions for functional recovery and restoration of mobility This second edition is completely updated to reflect recent advances in scientific understanding of neural recovery and growing evidence for new clinical therapies The second edition which includes free e book access with every print purchase continues to provide in depth information on the assessment and management of all acute and long term stroke related impairments and complications including cognitive dysfunctions musculoskeletal pain and psychological issues It examines risk factors epidemiology prevention and neurophysiology as well as complementary and alternative therapies functional assessments care systems ethical issues and community and psychosocial reintegration With contributions from over 100 acknowledged leaders from every branch of the stroke recovery field this edition features expanded coverage of key issues such as the role of robotics and virtual reality in rehabilitation New chapters have been incorporated to cover fields of

recent exploration including transcranial magnetic stimulation biomarkers and genetics of recovery as well as essentials like the use of medication and the survivor's perspective. The up to date presentation of scientific underpinnings and multi specialty clinical perspectives from physical medicine and rehabilitation, neurology, physical therapy, occupational therapy, speech and language pathology and nursing ensures that *Stroke Recovery and Rehabilitation* will continue to serve as an invaluable reference for every health care professional working to restore function and help stroke survivors achieve their maximum potential. New to *Stroke Recovery and Rehabilitation Second Edition*: All chapters are thoroughly revised and updated to reflect advances in scientific understanding of neural recovery and clinical progress. Five completely new chapters and expanded coverage of key issues that drive the field forward. New contributions from leading stroke specialists from all involved disciplines. Includes access to the fully searchable downloadable ebook. [Forgetfulness](#) Francis

O'Gorman, 2017-10-05 Examines the history and the consequences of living in the contemporary culture of forgetfulness

The Man who Lost His Language Sheila Hale, 2007 When Sir John Hale suffered a stroke that left him unable to walk, write or speak, his wife Shelia followed every available medical trail seeking knowledge of his condition and how he might be restored to health. This book is a unique exploration of aphasia, losing the ability to use or comprehend words, as well as of the resilience of love. *The Bloomsbury Companion to Stylistics* Violeta Sotirova, 2015-11-19 This Bloomsbury Companion

provides an overview of stylistics with a detailed outline of the scope and history of the discipline as well as its key areas of research. The main research methods and approaches within the field are presented with a detailed overview and then illustrated with a chapter of unique new research by a leading scholar in the field. The Companion also features in depth explorations of current research areas in stylistics in the form of new studies by established researchers in the field. The broad interdisciplinary scope of stylistics is reflected in the wide array of approaches taken to the linguistic study of texts, drawing on traditions from linguistics, literary theory, literary criticism, critical theory and narratology, and in the diverse group of internationally recognised contributors. **A Different Perspective After Brain Injury** Christopher

Yeoh, 2017-07-14 Whilst preparing for his travel adventures into a world he had yet to explore, Christopher Yeoh was involved in a road traffic accident and experienced something few others would be privileged to witness. Eight days in a coma, more than a year in and out of hospital, and a gradual re-introduction to the world of work. *A Different Perspective After Brain Injury: A Tilted Point of View* is written entirely by the survivor, providing an unusually introspective and critical personal account of life following a serious blow to the head. It charts the initial insult, early rehabilitation, development of understanding, the return of emotion, moments of triumph and regression into depression, the exercise of reframing how a brain injury is perceived, and a return to work. It also describes the mental adjustments of awareness and acceptance alongside the physical recovery process. Readily accessible to the general public, this book will also be of particular interest to professionals involved in the care of people who have had significant brain injuries, brain injury survivors, their families and

friends and also those who fund and organise health and social care This unique author account will provide a degree of understanding of what living with a hidden disability is really like *The Strands of Speech and Language Therapy* Katy James, 2020-09-16 This book is written by a team of speech and language therapists from The Wolfson Neurorehabilitation Centre It is intended for practitioners working with patients who have acquired communication disorders resulting from brain injury aphasia cognitive communication disorder dysarthria apraxia The authors believe that a therapeutic programme should have its foundations in the linguistic non verbal neurological and neuropsychological perspective of the patient's difficulties The approach the team has developed consists of several different strands of therapy with each strand representing an element of the rehabilitation process assessment goal planning specific individualised treatment education friends and family and psychosocial adjustment This book describes these strands illustrates in a user friendly way how each one relates to therapy and gives some practical ideas of how practitioners might work within them Each chapter begins with the guiding principles and evidence bases that underlie the rationale for one particular strand of therapy They then follow examples of practice and case studies of a real life example of each strand This book describes a speech and language therapy service that aims to be responsive to patients needs and develops tailor made intervention programmes that are unique to each individual It includes downloadable resources containing assessments and practical tools
