Political Passions

JA Banks

Political Passions:

Political Passions Rachel Judith Weil, 1999 Ideas about marriage gender and the family were central to political debate in late Stuart England Newly available in paperback this book shows how political argument became an arena in which the proper relations between men and women parents and children public and private were defined and contested Using sources that range from high political theory to scurrilous lampoons she considers public debates about succession resistance and divorce Weil examines the allegedly fraudulent birth of the Prince of Wales in 1688 the uses to which Williamite propagandists put the image of the paradoxically sovereign but obedient Mary II anxieties about the influence of bedchamber women on Queen Anne the political self image of the notorious Duchess of Marlborough the relationship of feminism and Tory ideology in the polemical writings of Mary Astell and the scandal novels of Delariviere Manley Solidly grounded in current historical scholarship but written in an engaging manner accessible to non specialists this book will interest students of literature gender studies political culture and political theory as well as historians

Passions and Politics Paul Ginsborg, Sergio Labate, 2019-01-18 The dominant model of democratic politics emphasizes reason at the expense of the passions Passions have been treated as dangerous the opposite of reason and the enemy of virtue Paul Ginsborg and Sergio Labate challenge this model and put forward a very different view developing an account of modern democratic politics in which both passions and reason play a crucial role To do justice to the role of passions in politics we must pay close attention to the way in which they circulate among us then we must develop a suitable language to describe them an alphabet of the passions that enables us to understand how they combine with one another and connect with certain states of mind in order to shape political outcomes Adopting this approach enables the authors to shed new light on one of the major phenomena of our time the triumph of neoliberalism on a world scale Neoliberalism has worked so well because it has incorporated its own romantic and individualist version of the passions into its worldview seducing both individuals and families with the allure of consumption By developing a new model of democratic politics based on the interplay of passions and reason Ginsborg and Labate provide a much needed framework for understanding the crucial role that passions play in the unfolding of political life At a time when populist leaders are on the ascendancy and political processes are shaped as much by anger resentment and fear as they are by reason and argument this refocusing of political analysis on the role of the passions could not be more timely

Agonistic Democracy and Political Practice Fuat Gürsözlü, 2022-08-29 This book explores the implications of agonistic democratic theory for political practice Fuat Gürsözlü argues that at a time when political parties exacerbate political division political protesters are characterized as looters and terrorists and extreme partisanship and authoritarian tendencies are on the rise the agonistic approach offers a much needed rethinking of political practice to critically understand challenges to democracy and envision more democratic inclusive and peaceful alternatives Inspired by Chantal Mouffe's agonistic theory and drawing on insights of other prominent agonistic scholars Gürsözlü offers a distinctive approach that

develops the connections between the agonistic approach and political practice His main claim is that approaching democratic politics from an agonistic perspective changes the way we understand the nature of democratic society the place of political protest in democracy the nature of adversarial engagement and the democratic function of political parties The book also advances an account of agonistic peace that is best fitted to the pluralistic and inherently conflictual nature of democratic societies This book should be of interest to anyone working in the field of contemporary political theory political philosophy peace studies and philosophy of peace *The Spectrum of Political Engagement* David L. Schalk, 2015-03-08

Why do artists poets philosophers writers and others who are usually classified as intellectuals leave the ivory tower to dirty their hands in the political arena In an effort to illuminate the intellectual s struggle to come to grips with the issues raised by political involvement David Schalk examines the life and thought of five intellectuals engaged in France during the period between 1920 and 1945 From communist to fascist these figures Paul Nizan Jean Paul Sartre Emmanuel Mounier Julien Benda and Robert Brasillach cover the full political spectrum and Professor Schalk studies their diverse reactions to the social political and economic tensions of the interwar period Broadly defining engagement as political involvement that is voluntary conscious and freely chosen usually by intellectuals the author poses the intellectual s dilemma in the following terms When we are engaged he writes we fear that we are debasing our highest values when we are not we worry that we have become in Paul Nizan s trenchant phrase mere chiens de garde watchdogs He then investigates the origins and the popularization of the concept of engagement in the early 1930s the arguments used to denounce it and to defend it its different manifestations and finally its effects on the socio political actuality of the world Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Selected Letters on Politics and Society** Alexis de Tocqueville, 1985-01-01 Correspondence by the eminent nineteenth century French historian documents his political views his careers as a writer and politician and his complex personality *Cuba and the Politics of Passion* Damián J. Fernández, 2010-01-01 Cuban politics has long been remarkable for its passionate intensity and yet few scholars have explored the effect of emotions on political attitudes and action in Cuba or elsewhere This book thus offers an important new approach by bringing feelings back into the study of politics and showing how the politics of passion and affection have interacted to shape Cuban history throughout the twentieth century Damián Fernández characterizes the politics of passion as the pursuit of a moral absolute for the nation as a whole While such a pursuit rallied the Cuban people around charismatic leaders such as Fidel Castro Fernández finds that it also set the stage for disaffection and disconnection when the grand goal never fully materialized At the same time he reveals

how the politics of affection taking care of family and friends outside the formal structures of government has paradoxically both undermined state regimes and helped them remain in power by creating an informal survival network that provides what the state cannot or will not

Tocqueville's Political Economy Richard Swedberg, 2018-02-27 Alexis de Tocqueville 1805-59 has long been recognized as a major political and social thinker as well as historian but his writings also contain a wealth of little known insights into economic life and its connection to the rest of society In *Tocqueville's Political Economy* Richard Swedberg shows that Tocqueville had a highly original and suggestive approach to economics one that still has much to teach us today Through careful readings of Tocqueville's two major books and many of his other writings Swedberg lays bare Tocqueville's ingenious way of thinking about major economic phenomena At the center of *Democracy in America* Tocqueville produced a magnificent analysis of the emerging entrepreneurial economy that he found during his 1831-32 visit to the United States More than two decades later in *The Old Regime and the Revolution* Tocqueville made the complementary argument that it was France's blocked economy and society that led to the Revolution of 1789 In between the publication of these great works Tocqueville also produced many lesser known writings on such topics as property consumption and moral factors in economic life When examined together Swedberg argues these books and other writings constitute an interesting alternative model of economic thinking as well as a major contribution to political economy that deserves a place in contemporary discussions about the social effects of economics

The Treason of the Intellectuals Julien Benda, 1928 *Politics and History* Louis Althusser, 2020-05-05 In the first two essays of this book Louis Althusser analyses the work of two of the greatest thinkers of the Enlightenment Montesquieu and Rousseau He shows that although they made considerable advances towards establishing a science of politics particularly in comparison with the theorists of natural law they nevertheless remained the victims of the ideologies of their day and class Montesquieu accepted as given the political notions current in French absolutism Rousseau attempted to impose by moral conversion an already outdated mode of production The third essay examines Marx's relationship to Hegel and elaborates on the discussions of this theme in Althusser's earlier books *For Marx* and *Lenin and Philosophy* Althusser argues that Marx was able to establish a theory of historical materialism and the possibility of a Marxist philosophy of dialectical materialism not simply by turning his back on Hegel but by extracting and converting certain categories from Hegel's *Logic* and applying them to English political economy and French socialist political theory

Emotions in International Politics Yohan Ariffin, Jean-Marc Coicaud, Vesselin Popovski, 2016-01-11 This book investigates collective emotions in international politics with examples from 9/11 and World War II to the Rwandan genocide

Law and the Public Sphere in Africa Jean Godefroy Bidima,2013-12-11 A pioneering collection of essays that casts an invigorating light on law politics public language and social practice in modern Africa Africa Jean Godefroy Bidima s La Palabre examines the traditional African institution of palaver as a way to create dialogue and open exchange in an effort to resolve conflict and promote democracy In the wake of South Africa s Truth and Reconciliation Commissions and the gacaca courts in Rwanda Bidima offers a compelling model of how to develop an African public space where dialogue can combat misunderstanding This volume which includes other essays on legal processes cultural diversity memory and the internet in Africa offers English speaking readers the opportunity to become acquainted with a highly original and important postcolonial thinker Bidima has done a very important work here which deserves the critical attention of philosophers political theorists legal scholars as well the general public Journal of Modern African Studies Opens promising vistas for legal and political discourse Its multidisciplinary orientation and the erudition of the author make for a text that has crossover appeal Ol f mi T w Cornell University Presents a valuable philosophical argument that will most certainly be of interest to those working on the topics of postconflict justice peacebuilding and democratization in Africa African Conflict and Peacebuilding Review

Public Intellectuals and Their Discontents Yadullah Shahibzadeh,2020-09-30 This book addresses the ways in which the figure of the intellectuals and their relationship to the public has been theorized through the conceptualizations of bureaucracy democracy and communism as universal

processes from the 19th century to the present Starting with Hegel and Marx the author looks at the rise of the figure of the universal intellectual in various forms before turning to what is presented as a transformation of the figure of the intellectual into the public intellectual advanced by the New Philosophies and the critical response offered by Edward Said The study presents two comparative case studies the Iranian Revolution and the public intellectuals in Europe specifically in Norway before concluding with a focus on the decay of the figure of the intellectuals and highlighting Ranciere s critique of the intellectual masses distinction

Democracy Against Liberalism Aviezer Tucker,2020-08-04 It should not surprise anyone that democracies can become dangerously illiberal indeed it was one of the classical critiques of ancient democracies Is the contemporary backlash against liberal democracy merely the same old story or are we witnessing something unprecedented In this witty and engaging book Aviezer Tucker argues that the contemporary revival of authoritarian populism combines the historically familiar with new technologies to produce a highly unstable and contagious new synthesis that threatens basic liberal norms from freedom of the press to independent judiciaries He examines how the economic crisis blocked social mobility and thereby awakened the dark dormant political passions exploited by demagogues such as Orban and Trump He argues that this slide towards neo illiberal democracy can be countered if we hard headedly restore a liberalism without nostalgia which institutes policies that can dampen down populist passions and strengthen liberal institutional barriers against them Readers interested in current affairs social science history and political and social theory will find Aviezer Tucker s original theoretical and historical analysis incisive innovative and entertaining

American Politics Samuel P. Huntington,1981 Huntington examines the persistent gap between the promise of American ideals and the performance of American politics He shows how Americans have always been united by the democratic creed of liberty equality and hostility to authority but how these ideals have been frustrated through institutions and hierarchies needed to govern a democracy
