**Parties, Candidates, and**

**Constituency Campaigns in Canadian Elections** Anthony Sayers, 2011-11-01 Political scientists have traditionally examined the democratic process at the macro level. With its unique micro level focus, *Parties, Candidates and Constituency Campaigns in Canadian Elections* provides the first systematic analysis of the local constituency campaigns that are the basis of elections and democracy in Canada. By taking a detailed look at campaigns in seven B.C. ridings during the 1988 free trade election, the last under the old three party system, Anthony Sayers develops a typology of candidates and campaigns. The dynamics of local associations, nominations and campaigns, including those of former prime minister Kim Campbell and New Democrat Svend Robinson, as well as key strategic events and the role of the media, are reconstructed from interviews with candidates, campaign managers, party strategists, volunteers and journalists. The 1993 and 1997 elections are then invoked to show that the insights drawn about the nature of constituency politics remain relevant to the new party system. This important contribution to the study of Canadian elections forcefully argues that knowledge of the dynamics at the local level is essential to a full understanding of Canadian politics, its underlying social basis and the factors that determine successful election campaigns. As such, *Parties, Candidates and Constituency Campaigns in Canadian Elections* will intrigue not only political scientists and students of Canadian politics but also election candidates and party strategists. **Pro-Family Politics and Fringe Parties in Canada** Chris MacKenzie, 2014-05-14 *Pro Family Politics and Fringe Parties in Canada* explores the organizational and ideological nature of political parties that are initially formed to do the work of social movements. Specifically, it examines the development of the Family Coalition Party of British Columbia (FCP) from its origins as a group of alienated Social Credit Party members to its rebirth as the Unity Party of British Columbia and through its struggles as a marginal political entity along the way. While addressing the FCP's relationship to the larger North American pro family movement, Chris MacKenzie also deftly demonstrates how the party can be seen as organizationally congruent with its ideological antithesis, the Green Party. Basing his findings on seven years of field research, he identifies the obstacles that political parties involved in social

movement work must overcome in order for them to achieve their goals He concludes that despite their invaluable contribution to democracy such party movements have limited political institutionalization Consequently their only realistic goal may be to merge their ideals with those of another larger political body This book makes a substantial contribution to our understanding of the genesis development and impact of political party movements in Canada Moreover it provides useful insight into the dynamics and issues that make up the current pro family movements in Canada and the United States     Handbook of Research on Transnational Higher Education Mukerji, Siran, 2013-08-31 The integration of new technology and global collaboration has undoubtedly transformed learning in higher education from the traditional classroom setting into a domain of support services academic programs and educational products which are made available to learners The Handbook of Research on Transnational Higher Education is a unique compilation of the most recent research done by higher education professionals in the areas of policy governance technology marketing and leadership development This publication succeeds in highlighting the most important strategies and policies for professionals policymakers administrators and researchers interested in higher education management     *Occupational Health Law* Diana Kloss, 2020-04-09 Comprehensive accessible and grounded in case law Occupational Health Law has been an established authority in the field for over thirty years and continues to provide practical coverage of occupational health incorporating changes in the legal framework to reflect the very latest developments The sixth edition of this indispensable reference work includes substantial new information on European law the legal and ethical duties of occupational health professionals medical records and confidentiality data protection compensation for work related injury the gig economy the Equality Act and disability discrimination and much more Covers the provision of occupational health services the legal liability of occupational health professionals confidentiality health surveillance compensation and equal opportunity legislation Includes extensively revised content which aligns with current legislation and case law Contains new chapter summaries and highlighted key information boxes throughout Occupational Health Law Sixth Edition is the definitive resource for occupational health and safety professionals from nurses physicians and safety officers to HR managers policy makers risk managers and employment lawyers     **Jobs with Inequality** John Peters, 2022-06-29 Income inequality has skyrocketed in Canada over the past few decades The rich have become richer while the average household income has deteriorated and job quality has plummeted Common explanations for these trends point to globalization technology or other forces largely beyond our control But as Jobs with Inequality shows there is nothing inevitable about inequality Rather runaway inequality is the result of politics and policies what governments have done to aid the rich and boost finance and what they have not done to uphold the interests of workers Drawing on new tax and income data John Peters tells the story of how inequality is unfolding in Canada today by examining post democracy financialization and labour market deregulation Timely and novel Jobs with Inequality explains how and why business and government have rewritten the rules of the

economy to the advantage of the few and considers why progressive efforts to reverse these trends have so regularly run aground **Big Worlds** Jared J. Wesley,2016-01-01 **Memoirs of a Child Holocaust Survivor** A. M. Fox,2025-05-30 A Holocaust survivor recounts his memories from pre war Poland to liberation honoring lost family and culture These are the memories of a man who had been a young Jewish boy in Central Poland His 9th birthday came in mid July 1939 Less than two months later they are his memories of the Nazi era from the very beginning of WW11 until he was liberated by the Russians on the 8th May 1945 This age of death when Nazis attempted the absolute annihilation of all Jews in Europe regardless of age character or gender is now referred to as the Holocaust These memories include those of his vibrant family life in Poland before the war They are his homage and his memorial to his parents his little sister and numerous uncles aunts and cousins who were wiped out by the Nazis along with centuries of their culture Arriving in the UK on 14th August 1945 he was in the first group of Concentration Camp child survivors brought into England at the invitation of King George VI The story of these children s arrival and initial rehabilitation in the Lake District is told in the 2020 BBC film *The Windermere Children* His memories conclude with some glimpses of his life immediately after liberation and later when he was settled in the UK From dozens of known relatives he and his elder brother thought for a long time that they were the only family members to have survived from their town Later they discovered there was a third survivor an even younger cousin The author married the Holocaust survivor of this memoir He wanted the tale of how they met to be told and the book begins with this All the material concerning life in Poland life during the war and vignettes of post war life have simply been written down by the author Everything was read and re read by the survivor who felt that these recollections were true to what he remembered
