

NEW YORK TIMES BESTSELLER

"An acute analysis of what goes on inside the administration . . . [Frum has] given us a look at Bush different from any we've ever seen. Remarkably candid."  
—*The American Times Book Review*

# THE RIGHT MAN

AN INSIDE ACCOUNT OF  
THE BUSH WHITE HOUSE

Updated for President  
Bush's second term

DAVID FRUM  
WITH A NEW AFTERWORD BY THE AUTHOR

# Right Man An Inside Account Of The Bush White House

**Joacim Rocklöv**

## **Right Man An Inside Account Of The Bush White House:**

*The Right Man* David Frum, 2003-01-07 *The Right Man* is the first inside account of a historic year in the Bush White House by the presidential speechwriter credited with the phrase axis of evil David Frum helped make international headlines when President George W Bush's 2002 State of the Union address linked international terrorists to Iran Iraq and North Korea But that was only one moment during a crucial time in American history when a president an administration and a country were transformed Frum worked with President Bush in the Oval Office traveled with him aboard Air Force One and studied him closely at meetings and events He describes how Bush thinks what this conservative president believes about religion race the environment Jews Muslims and America's future Frum takes us behind the scenes of one of the most secretive administrations in recent history with revealing portraits of Karl Rove Karen Hughes Condoleezza Rice and many others Most significant he tells the story of the transformation of George W Bush how a president whose administration began in uncertainty became one of the most decisive successful and popular leaders of our time Before becoming a White House speechwriter David Frum was a highly regarded author of books and political commentary and an influential voice on the pages of *The Wall Street Journal* and *The Weekly Standard* His commentary has been described by William F Buckley as the most refreshing ideological experience in a generation Now in *The Right Man* we see Frum as a front row observer and participant Not since Peggy Noonan's account of her time in the Reagan White House has an insider portrayed a sitting president with such precision verve honest admiration and insight *The Right Man* will command international attention for its thoughtful account of George W Bush in the midst of his greatest challenge It will be an essential reference for anyone seeking to understand who our president really is and how he is likely to lead us in the future

*The Second Term of George W. Bush* R. Maranto, D. Brattebo, T. Lansford, 2006-06-10 Second term presidencies are distinctive not least as the president no longer has to run for re-election Placing the second term of George W Bush in comparative perspective this fascinating book explores the political institutional and policy implications of a second term Combining topicality with analytical richness this is an important resource for scholars and students

*Cosmopolitan Theology* Namsoon Kang, 2013-11-15 In *Cosmopolitan Theology* author Namsoon Kang proposes a theology that embraces and at the same time moves beyond collective identity position and group based allegiances It crosses borders of gender race nationality religion ethnicity sexuality and ability Kang offers a vision of a global community of radical inclusion solidarity and deep compassion and justice for others Blending theology with philosophy she crosses borders of academism and activism and the discursive borders of modernism postmodernism feminism and postcolonialism *Cosmopolitan Theology* sheds a new light both in academia and the community of Christian believers by providing a public relevance of Jesus teaching of neighbor love hospitality and solidarity in our world today

**American Culture Transformed** B. Tucker, P. Walton, 2012-07-31 The bombing of the Twin Towers in New York on September 11 2001 marked a major turning point in modern American culture

Authors Bruce Tucker and Priscilla L Walton examine critical moments in the aftermath of 9 11 arguing that commentators abandoned complexity seeking to reduce events to their simplest signification

**The Shawinigan Fox: How Jean Chrétien Defied the Elites and Reshaped Canada** Bob Plamondon, 2017-10-18 Jean Chrétien's critics have said he was a man with no vision and a short attention span a small town hick who stumbled his way to become Canada's 20th prime minister Whatever credit the Chrétien government deserved was often given to Paul Martin the heir apparent who was touted to be the brains behind the operation But while Chretien was the subject of ridicule he was quietly giving his competitors both inside and outside of the Liberal party a master class in politics leadership and nation building His decisions which often ran counter to elite opinion fundamentally reshaped and strengthened Canada as it entered the 21st century Chrétien restored sanity to government finances kept Canada out of the Iraq war turned a brain drain into a brain gain and established clarity over national unity Relying on new evidence detailed analysis and exclusive interviews with former cabinet ministers provincial premiers political staff strategists and high ranking bureaucrats many of them speaking publicly for the first time bestselling author and historian Bob Plamondon tells the surprising inside story of the Chretien years including what Chretien would have done if the 1995 referendum had ended in a vote for separation why Paul Martin secretly threatened to resign in 1995 seven years before he actually quit who tried to convince Chretien to join the Iraq war and why he could not be intimidated into joining the US led coalition why a lifelong Liberal was the most conservative prime minister in Canadian history the shocking details of the Chretien Martin feud and the only time an elected Canadian prime minister has been overthrown Until now the story of Chretien's time as prime minister has been largely misunderstood Plamondon sets the record straight and provides compelling lessons about political leadership and problem solving from a critical chapter in Canadian history

**Evil and International Relations** R. Jeffery, 2007-12-25 This book seeks to determine what is meant by evil when used to describe actors and events in international politics Focusing on the history of evil in western secular and religious thought it reintroduces a classical understanding of evil as the means to which we seek to understand otherwise meaningless human suffering

**Road to Iraq** Muhammad Idrees Ahmad, 2014-06-30 The Iraq war its causes agency and execution has been shrouded in an ideological mist Now Muhammad Idrees Ahmad dispels the myths surrounding the war taking a sociological approach to establish the war's causes identify its agents and describe how it was sold Ahmad presents a social history of the war's leading agents the neoconservatives and shows how this ideologically coherent group of determined political agents used the contingency of 9 11 to overwhelm a sceptical foreign policy establishment military brass and intelligence apparatus propelling the US into a war that a significant portion of the public opposed The book includes an historical exploration of American militarism and of the increased post WWII US role in the Middle East as well as a reconsideration of the debates that John Mearsheimer and Stephen Walt sparked after the publication of *The Israel lobby and US Foreign Policy*

*Explaining the Iraq War* Frank P. Harvey, 2011-10-20 The almost

universally accepted explanation for the Iraq War is very clear and consistent the US decision to attack Saddam Hussein's regime on March 19 2003 was a product of the ideological agenda misguided priorities intentional deceptions and grand strategies of President George W Bush and prominent neoconservatives and unilateralists on his national security team Despite the widespread appeal of this version of history Frank P Harvey argues that it remains an unsubstantiated assertion and an underdeveloped argument without a logical foundation His book aims to provide a historically grounded account of the events and strategies which pushed the US UK coalition towards war The analysis is based on both factual and counterfactual evidence combines causal mechanisms derived from multiple levels of analysis and ultimately confirms the role of path dependence and momentum as a much stronger explanation for the sequence of decisions that led to war

**The Choice of War** Albert L. Weeks, 2009-11-25 A longtime scholar of the Cold War deftly weaves together the tradition of just war and an examination of current events to show how the time honored concepts of *jus ad bellum* justice of war and *jus in bello* justice in war apply to the U S military involvement in Iraq This timely analysis of President George W Bush's foreign policy deals with the cornerstone of his administrations the war on terror as implemented in Afghanistan Iraq Guantanamo Bay and at Abu Ghraib prison The Choice of War The Iraq War and the Just War Tradition discusses NSS 2002 the national security statement that became the blueprint for the Bush Doctrine It explains the differences and similarities between preventive and preemptive war and explores the administration's justification of the necessity of the March 2003 invasion Finally it analyzes the conduct of the war the occupation and the post occupation phases of the conflict In evaluating the Bush Doctrine both as declared strategy and as implemented Albert L Weeks asks whether going it virtually alone in the global struggle against 21st century terrorism should be incorporated permanently into American political and military policy Answering no he suggests an alternative to a doctrine that has isolated the United States and left the world divided

*America's Fiscal Constitution* Bill White, 2014-04-01 What would Washington Jefferson Madison Lincoln the Roosevelts Truman and Eisenhower have done about today's federal debt crisis America's Fiscal Constitution tells the remarkable story of fiscal heroes who imposed clear limits on the use of federal debt limits that for two centuries were part of an unwritten constitution Those national leaders borrowed only for extraordinary purposes and relied on well defined budget practices to balance federal spending and revenues That traditional fiscal constitution collapsed in 2001 Afterward for the first time in history federal elected officials cut taxes during war funded permanent new programs entirely with debt grew dependent on foreign creditors and claimed that the economy could not thrive without routine federal borrowing For most of the nation's history conservatives fought to restrain the growth of government by insisting that new programs be paid for with taxation while progressives sought to preserve opportunities for people on the way up by balancing budgets Virtually all mainstream politicians recognized that excessive debt could jeopardize private investment and national independence With original scholarship and the benefit of experience in finance and public service Bill White dispels common budget myths and distills

practical lessons from the nation's five previous spikes in debt America's Fiscal Constitution offers an objective and hopeful guide for people trying to make sense of the nation's current most severe debt crisis and its impact on their lives and our future

*Crimes of Power & States of Impunity* Michael Welch, 2009-01-07 Since 9/11 a new configuration of power situated at the core of the executive branch of the U.S. government has taken hold In *Crimes of Power States of Impunity* Michael Welch takes a close look at the key historical political and economic forces shaping the country's response to terror Welch continues the work he began in *Scapegoats of September 11th* and argues that current U.S. policies many enacted after the attacks undermine basic human rights and violate domestic and international law He recounts these offenses and analyzes the system that sanctions them offering fresh insight into the complex relationship between power and state crime Welch critically examines the unlawful enemy combatant designation Guantanamo Bay recent torture cases and collateral damage relating to the war in Iraq This book transcends important legal arguments as Welch strives for a broader sociological interpretation of what transpired early this century analyzing the abuses of power that jeopardize our safety and security

**Global Race War** Alexander D. Barder, 2021-07-19 International Relations theory assumes that the struggle for power is not only ahistorical but that international politics is necessarily the realm of a perpetual struggle for power between states However by looking beyond the state the study of global politics may itself reveal the importance of alternative imaginaries just as historically salient as that of the state system In particular this book argues that a specific racial imaginary has over the past two centuries cut across politically defined state boundaries to legitimate practices of genocidal violence against so called enemy races In *Global Race War* Alexander D Barder shows how the very idea of global order was based on racial hierarchy and difference Barder traces the emergence of this global racial hierarchy from the early 19th century to the present to explain how a historical racial global order unraveled over the first half of the 20th century continued during the Cold War and reemerged during the Global War on Terror As Barder shows imperial racial and geopolitical orders intersected over time in ways that violently tore apart the imperial and sovereign state system and continue to haunt politics today Examining global politics in terms of race and racial violence reveals a different spatial topology across domestic and global politics Moreover global histories of racial hierarchy and violence have important implications for understanding the continued salience of race within Western politics *Global Race War* revisits two centuries of international history to show the important consequences of a global racial imaginary that continues to reverberate across time and space

**The State of the Parties** John Clifford Green, Daniel J. Coffey, 2007 Every four years *The State of the Parties* brings readers up to date on party action in election years and in between With the dual themes of polarization and innovation characterizing the new edition this essential party primer includes four new chapters on party resources a greatly expanded section on public opinion coverage of party efforts to mobilize the youth vote thirteen new chapters covering topics ranging from the Bipartisan Campaign Reform Act to Deaniacs and Democrats to The Rise of the Right and as always a distinguished roster of

contributors      **Evangelicals and Israel** Stephen Spector, 2009 Most observers explain evangelical Christians bedrock support for Israel as stemming from the apocalyptic belief that the Jews must return to the Holy Land as a precondition for the second coming of Christ But the real reasons argues Stephen Spector are far more complicated In *Evangelicals and Israel* Spector delves deeply into the Christian Zionist movement mining information from original interviews web sites publications news reports survey research worship services and interfaith conferences to provide a surprising look at the sources of evangelical support for Israel Israel is God s prophetic clock for many evangelicals irrefutable proof that prophecy is true and coming to pass in our lifetime But Spector goes beyond end times theology to find a complex set of motivations behind Israel evangelical relations These include the promise of God s blessing for those who bless the Jews gratitude to Jews for establishing the foundations of Christianity remorse for the Church s past anti-Semitism fear that God will judge the nations based on how they treated the Jewish people and reliance on Israel as the West s firewall against Islamist terrorism Spector explores many Christian Zionists hostility toward Islam but also uncovers an unexpected pragmatism and flexibility concerning Israel s possession of the entire Holy Land For evangelicals politics frequently mixes with faith Yet Spector argues that evangelical beliefs though often portrayed as unifying and rigid are in reality various and even contradictory Spector uses George W Bush s beliefs about the Bible as a sounding board for these issues and explores the evangelical influence on his Middle East policies *Evangelicals and Israel* corrects much of the speculation about Bush s personal faith and about evangelicalism s impact on American Middle East relations and provides the fullest and most nuanced account to date of the motives and theology behind Christian Zionism      **Channels of Power** Alexander Thompson, 2015-01-26 When President George W Bush launched an invasion of Iraq in March of 2003 he did so without the explicit approval of the Security Council His father s administration by contrast carefully funneled statecraft through the United Nations and achieved Council authorization for the U S led Gulf War in 1991 The history of American policy toward Iraq displays considerable variation in the extent to which policies were conducted through the UN and other international organizations In *Channels of Power* Alexander Thompson surveys U S policy toward Iraq starting with the Gulf War continuing through the interwar years of sanctions and coercive disarmament and concluding with the 2003 invasion and its long aftermath He offers a framework for understanding why powerful states often work through international organizations when conducting coercive policies and why they sometimes choose instead to work alone or with ad hoc coalitions The conventional wisdom holds that because having legitimacy for their actions is important for normative reasons states seek multilateral approval *Channels of Power* offers a rationalist alternative to these standard legitimization arguments one based on the notion of strategic information transmission When state actions are endorsed by an independent organization this sends politically crucial information to the world community both leaders and their publics and results in greater international support      *US Counter-Terrorism Strategy and al-Qaeda* Joshua A. Geltzer, 2009-09-10 This book examines the communicative aspects and

implications of US counter terrorist policies towards al Qaeda Recent US counter terrorist strategy has been largely based upon projecting certain perceptions of America as an actor to those drawn to al Qaeda and this book investigates in what ways and to what extent US officials believed that the signals sent by what America did and said could influence the behaviour of the terrorist and would be terrorist The study then draws on a growing understanding of that audience to analyse how those drawn to al Qaeda were and indeed still are likely to be influenced by the perceptions of America that Washington s policies generated The study s central argument is that given al Qaeda s unconventional strategy and the particularities of the world view characterising those drawn to the group America s counter terrorist signalling proved largely counter productive to America s objective of undermining al Qaeda s strategic narrative instead serving in many ways to validate it Firstly this book seeks to reveal the significant and largely unexplored role that signalling has played in US counter terrorist policy towards al Qaeda Second it tries to capture the objectives strategy tactics ideology and other defining features of the world view characterising those drawn to al Qaeda Third it strives to combine those two lines of inquiry by applying the al Qaeda world view to a critical analysis of the signals sent by US policies Finally the book aims to offer broad policy implications that demonstrate how an informed understanding of the world view of those drawn to al Qaeda can be employed to revise and refine American counter terrorist signalling This book will be of much interest to students of US foreign policy and public diplomacy counter terrorism strategy and international security Joshua Alexander Geltzer has a PhD in War Studies from Kings College London and is currently a juris doctoral student at Yale Law School

**Influence Warfare** James J. F. Forest, 2009-05-14 This important work edited by an expert on terrorism focuses on the 21st century struggle for strategic influence and ways in which states can neutralize the role of new media in spreading terrorist propaganda In an era where anyone can have access to the Internet or other media forms that make widespread communication easy terrorists and insurgents can spread their messages with complete freedom creating challenges for national security **Influence Warfare How Terrorists and Governments Fight to Shape Perceptions in a War of Ideas** focuses on the core of the ongoing struggle for strategic influence and particularly how states can counter the role media and the Internet play in radicalizing new agents of terrorism As the book makes clear governments need to find ways to effectively confront non state adversaries at all levels of the information domain and create an understanding of strategic communications within a broad range of technologies The essays from the international group of authors who contributed to this work offer a deeper understanding of the ongoing struggle **Influence Warfare** also provides a set of case studies that illustrate how the means and methods of strategic influence can impact a nation s security

**The Ashgate Research Companion to Political Leadership** Mikhail A. Molchanov, 2016-03-23 Discussing the major theories of political leadership with a focus on contemporary challenges that political leaders face worldwide this research companion provides a comprehensive and up to date resource for an international readership The editors combine empirical and normative

approaches to emphasize the centrality of political culture as well as the limits of culture and the universal demands of innovative adaptation The volume examines **In the Shadow of the Giant** Joseph Contreras, 2009 No detailed description available for In the Shadow of the Giant **The National Security Doctrines of the American Presidency** Lamont C. Colucci, 2012-08-08 This two volume set provides a chronological view of the foreign policy national security doctrines of key American presidents from Washington to Obama framed by commentary on the historical context for each discussions of major themes and examinations of the lasting impact of these policies The National Security Doctrines of the American Presidency How They Shape our Present and Future provides a chronological examination of the foreign policy and national security doctrines of key American presidents from Washington to Obama covering everything from our missionary zeal and our pursuit of open navigation of the seas to our involvement in the ongoing political and military conflicts in the Middle East It addresses the multiple sources behind the doctrines real rhetorical and ideological Arranged chronologically each chapter offers commentary on the historical evolution of these doctrines identifies the major themes and highlights unique revelations Ideal for universities colleges libraries academics classroom teachers policy makers and the educated electorate this two volume set represents a compendium of national security doctrines that explains how these first doctrines have constrained restrained and guided every American president regardless of party providing comprehensive information that cannot be found in any other single source Further the work presents the reader with examples and explanations of precisely how these doctrines from long ago as well as those from recent history directly affect our present and future

The Engaging Realm of Kindle Books: A Detailed Guide Revealing the Advantages of E-book Books: A Realm of Convenience and Versatility E-book books, with their inherent mobility and simplicity of access, have liberated readers from the limitations of physical books. Gone are the days of carrying cumbersome novels or meticulously searching for particular titles in shops. E-book devices, stylish and lightweight, effortlessly store an extensive library of books, allowing readers to immerse in their preferred reads anytime, anywhere. Whether commuting on a bustling train, lounging on a sun-kissed beach, or simply cozying up in bed, Kindle books provide an unparalleled level of convenience. A Literary World Unfolded: Exploring the Wide Array of Kindle Right Man An Inside Account Of The Bush White House Right Man An Inside Account Of The Bush White House The E-book Store, a virtual treasure trove of literary gems, boasts an extensive collection of books spanning varied genres, catering to every readers taste and preference. From captivating fiction and thought-provoking non-fiction to classic classics and modern bestsellers, the E-book Store offers an unparalleled abundance of titles to discover. Whether looking for escape through engrossing tales of imagination and exploration, diving into the depths of past narratives, or broadening ones understanding with insightful works of science and philosophy, the E-book Shop provides a doorway to a literary universe brimming with endless possibilities. A Game-changing Force in the Bookish Scene: The Enduring Influence of Kindle Books Right Man An Inside Account Of The Bush White House The advent of Kindle books has certainly reshaped the bookish landscape, introducing a model shift in the way books are published, distributed, and consumed. Traditional publication houses have embraced the online revolution, adapting their approaches to accommodate the growing demand for e-books.
