Rights Of The Poor:

The Rights of the Poor Helen Hershkoff, Stephen Loffredo, 1997 Using a simple question and answer format Helen Hershkoff and Stephen Loffredo provide a comprehensive and up to date account of the rights of the poor They examine federal and state programs providing income support and medical services as well as federal programs providing food assistance and federally subsidized housing programs They also discuss access to justice rights in public places and voting rights Hershkoff and Loffredo point out that given the present conservative political climate it is now more important than ever for poor people to know their rights under law To that end they explain how poor people can use the law to obtain services necessary for basic living income support food assistance health care housing and education The eligibility requirements for all programs for the poor are complex and changeable The Welfare Reform Act of August 1996 further complicates the rules and makes this ACLU guide even more essential Written for poor people and their advocates as well as for anyone interested in the current status of the War on Poverty this book also describes how poor people can use the law to participate more fully in political and community life

Legal Rights of the Poor Naresh Singh, 2014-11-10 This book seeks to be relevant to the call to address inequalities injustice human rights and social exclusion in a more integrated holistic and transformative manner It seeks to do so by looking at what we have learned in both the development and human rights communities Further it addresses fundamental obstacles that neither community has dealt with in this context such as changing power relations The book builds on the report of the Commission on Legal Empowerment of the Poor entitled Making the Law Work for Everyone and draws from a wide range of published literature on relevant issues not covered in the report Calls for holistic and transformative approaches are familiar in development circles but putting these approaches into practice require a knowledge base beyond that covered in the traditional development literature The book brings together this diverse literature in one place at a time when the international community is about to embark on a new era of development cooperation commonly referred to as the post 2015 agenda The subjects covered therefore include a review of successful and unsuccessful approaches to reducing poverty and inequality life in slums the informal sector where the majority of the poor live the legal empowerment of the poor changing power relations between the haves and the have nots and the holistic sustainable livelihoods approach in the development of which the author has played a lead role

Rights Based Approach and Housing for the Urban Poor Binti Singh, 2012-02 Research Paper postgraduate from the year 2006 in the subject Urban and Regional Planning grade A language English abstract The present study seeks to understand and analyze the Slum Rehabilitation Schemes hereafter SRS designed specifically in the context of Mumbai using a rights based approach The SRS when studied from the rights based approach is not merely seen as a policy of charity of providing free houses Instead it is seen as a platform for various players to negotiate on mutually beneficial terms in a

participative manner With the help of an empirical analysis the study attempts to understand the translation of this approach into reality through the implementation of a particular programme catering to a particular segment of population namely the slum dwellers of Mumbai The study also points out the larger implications of the rights based approach to housing The Rights of the Poor, and the Poor Laws RIGHTS.,1833 Does the Law Morally Bind the Poor, Or, what Good's the Constitution when You Can't Buy a Loaf of Bread? R. George Wright,1996-04 Consider the horror we feel when we learn of a crime such as that committed by Robert Alton Harris who commandeered a car killed the two teenage boys in it and then finished what was left of their lunch What we don t consider in our reaction to the depravity of this act is that whether we morally blame him or not Robert Alton Harris has led a life almost unimaginably different from our own in crucial respects In Does Law Morally Bind the Poor or What Good s the Constitution When You Can t Buy a Loaf of Bread author R George Wright argues that while the poor live in the same world as the rest of us their world is crucially different The law does not recognize this difference however and proves to be inconsistent by excusing the trespasses of persons fleeing unexpected storms but not those of the involuntarily homeless He persuasively concludes that we can reject crude environmental determinism without holding the most deprived to unreasonable standards **The Option for the Poor in Christian Theology** Daniel G. Groody,2007-04-01 Since the publication of Gustavo Guti rrez s 1973 groundbreaking work A Theology of Liberation much has been written on liberation theology and its central premise of the preferential option for the poor Arguably this has been one of the most important yet controversial theological themes of the twentieth century As globalization creates greater gaps between the rich and the poor and as the situation for many of the world s poor worsens there is an ever greater need to understand the gift and challenge of Christian faith from the context of the poor and marginalized of our society This volume draws on the thought of leading international scholars and explores how the Christian tradition can help us understand the theological foundations for the option for the poor The central focus of the book revolves around the question How can one live a Christian life in a world of destitution The contributors are concerned not only with a social economic or political understanding of poverty but above all with the option for the poor as a theological concept While these essays are rooted in a solid grounding of our present reality they look to the past to understand some of the central truths of Christian faith and to the future as a source of Christian hope Following Gustavo Guti rrez s essay on the multidimensionality of poverty Elsa Tamez Hugh Page Jr Brian Daley and Jon Sobrino identify a central theological premise poverty is contrary to the will of God Drawing on scripture the writings of the early fathers the witness of Christian martyrs and contemporary theological reflection they argue that poverty represents the greatest challenge to Christian faith and discipleship David Tracy and J Matthew Ashley carry their reflection forward by examining the option for the poor in light of apocalyptic thought Virgilio Elizondo Patrick Kalilombe Mar a Pilar Aquino M Shawn Copeland and Mary Catherine Hilkert examine the challenges of poverty with respect to culture Africa race and gender

Casiano Florist n and Luis Maldonado explore the relationship between poverty sacramentality and popular religiosity The final two essays by Aloysius Pieris and Michael Signer consider the option for the poor in relationship to other major world religions particularly an Asian theology of religions and the meaning of care for the poor within Judaism Partner to the Poor Paul Farmer,2010-04-21 For nearly thirty years anthropologist and physician Paul Farmer has traveled to some of the most impoverished places on earth to bring comfort and the best possible medical care to the poorest of the poor Driven by his stated intent to make human rights substantial Farmer has treated patients and worked to address the root causes of their disease in Haiti Boston Peru Rwanda and elsewhere in the developing world In 1987 with several colleagues he founded Partners In Health to provide a preferential option for the poor in health care Throughout his career Farmer has written eloquently and extensively on these efforts Partner to the Poor collects his writings from 1988 to 2009 on anthropology epidemiology health care for the global poor and international public health policy providing a broad overview of his work It illuminates the depth and impact of Farmer s contributions and demonstrates how over time this unassuming and dedicated doctor has fundamentally changed the way we think about health international aid and social justice A portion of the proceeds from the sale of this book will be donated to Partners In Health **Humanities and Option for the Poor** Clemens Sedmak,2005 The concept of a preferential option for the poor calls for a special attention to the weakest members of a particular society Such an option is a challenge for the ethics of science as well How can we pursue an option for the poor in the humanities Can we do that without generating ideologies This volume gives an account of these questions Representatives of sociology religious studies law economics theology history and philosophy try to answer this question It is manifest that the discussion of an option for the poor is also a matter of intellectual integrity Making services work for poor people World Bank, *The History of the Poor* Thomas Ruggles,1797 **Poor's** ,1925 The Public ,1913 Poor's Cumulative Service ,1917 **The Poor Law Magazine and Parochial Journal** ,1875 **Ethical Issues in Poverty Alleviation** Helmut P. Gaisbauer,Gottfried Schweiger,Clemens Sedmak,2016-09-23 This book explores the philosophical and in particular ethical issues concerning the conceptualization design and implementation of poverty alleviation measures from the local to the global level It connects these topics with the ongoing debates on social and global justice and asks what an ethical or normative philosophical perspective can add to the economic political and other social science approaches that dominate the main debates on poverty alleviation Divided into four sections the volume examines four areas of concern the relation between human rights and poverty alleviation the connection between development and poverty alleviation poverty within affluent countries and obligations of individuals in regard to global poverty An impressive collection of essays by an international group of scholars on one of the most fundamental issues of our age The authors consider crucial aspects of poverty alleviation the role of human rights the connection between development aid and the alleviation of poverty how to think about poverty within affluent countries particularly in Europe and individual versus collective obligations to act to

reduce poverty Judith Lichtenberg Department of Philosophy Georgetown University This collection of essays is most welcome addition to the burgeoning treatments of poverty and inequality What is most novel about this volume is its sustained and informed attention to the explicitly ethical aspects of poverty and poverty alleviation What are the ethical merits and demerits of income poverty multidimensional capability poverty and poverty as nonrecognition How important is poverty alleviation in comparison to environmental protection and cultural preservation Who or what should be agents responsible for reducing poverty The editors concede that their volume is not the last word on these matters But these essays eschewing value neutrality and a retreat into technical mastery challenge us to find fresh and reasonable answers to these urgent questions David A Crocker School of Public Policy University of Maryland

Freedom from poverty as a human right: who owes what to the very poor? Pogge, Thomas, 2007-06-26 Presents fifteen essays by academics about the severe poverty that afflicts billions of human lives These essays seek to explain why freedom from poverty is a human right and what duties this right creates for the affluent

Challenges in Human Rights Elisabeth Reichert, 2007 By using human rights as a guidepost social workers can help create social welfare policies that better serve societal needs However in applying human rights to contemporary situations social workers often encounter challenges that require thinking outside the box Bringing together provocative essays from a diverse range of authors Elisabeth Reichert demonstrates how approaching social work from a human rights perspective can profoundly affect legislation resource management and enforcement of policies Topics include the reconciliation of cultural relativism with universal human rights the debate over whether human rights truly promote economic and social development or simply allow economically developed societies to exploit underdeveloped countries the role of gender in the practice of human rights the tendency to promote political and civil rights over economic and social rights and the surprising connection between the social work and legal professions
