## Rilke Werke Volume 2:

The Mystic Fable, Volume Two Michel de Certeau, 2015-12-03 More than two decades have passed since Chicago published the first volume of this groundbreaking work in the Religion and Postmodernism series. It quickly became influential across a wide range of disciplines and helped to make the tools of poststructuralist thought available to religious studies and theology especially in the areas of late medieval and early modern mysticism. Though the second volume remained in fragments at the time of his death, Michel de Certeau had the foresight to leave his literary executor detailed instructions for its completion which formed the basis for the present work. Together both volumes solidify Certeau's place as a touchstone of twentieth century literature and philosophy and continue his exploration of the paradoxes of historiography, the construction of social reality through practice, testimony and belief, the theorization of speech in angelology and glossolalia and the interplay of prose and poetry in discourses of the ineffable. This book will be of vital interest to scholars in religious studies, theology, philosophy, history and literature. *The Seasons* Luke Fischer, David Macauley, 2021-07-01

Although the seasons have been a perennial theme in literature and art, their significance for philosophy and environmental theory has remained largely unexplored. This pioneering book demonstrates the ways in which inquiry into the seasons reveals new and illuminating perspectives for philosophy, environmental thought, anthropology, cultural studies, aesthetics, poetics and literary criticism. *The Seasons* opens up new avenues for research in these fields and provides a valuable resource for teachers and students of the environmental humanities. The innovative essays herein address a wide range of seasonal cultures and geographies from the traditional Western model of the four seasons (spring, summer, fall and winter) to the Indigenous seasons of Australia and the Arctic. Exemplifying the crucial importance of interdisciplinary research, *The Seasons* makes a compelling case for the relevance of the seasons to our daily lives, scientific understanding, diverse cultural practices and politics. *Volume 12, Tome I: Kierkegaard's Influence on Literature, Criticism and Art* Jon

Stewart, 2016-12-05 While Kierkegaard is primarily known as a philosopher or religious thinker, his writings have also been used extensively by literary writers, critics and artists worldwide who have been attracted to his creative mixing of genres, his complex use of pseudonyms, his rhetoric and literary style and his rich images, parables and allegories. The goal of the present volume is to document this influence in different language groups and traditions. Tome I explores Kierkegaard's influence on literature and art in the Germanophone world. He was an important source of inspiration for German writers such as Theodor Fontane, Thomas Mann, Rainer Maria Rilke, Alfred Andersch and Martin Walser. Kierkegaard's influence was particularly strong in Austria during the generation of modernist authors such as Rudolf Kassner, Karl Kraus, Robert Musil and Hermann Broch. Due presumably in part to the German translations of Kierkegaard in the Austrian cultural journal *Der Brenner*, Kierkegaard continued to be used by later figures such as the novelist and playwright Thomas Bernhard. His thought was also appropriated in Switzerland through the works of Max Frisch and Friedrich Dürrenmatt. The famous Czech author Franz

Kafka identified personally with Kierkegaard's love story with Regine Olsen and made use of his reflections on this and other topics

**The Sounds of Early Cinema** Richard Abel, Rick Altman, 2001-10-03

The Sounds of Early Cinema is devoted exclusively to a little known yet absolutely crucial phenomenon the ubiquitous presence of sound in early cinema Silent cinema may rarely have been silent but the sheer diversity of sound's and sound image relations characterizing the first 20 years of moving picture exhibition can still astonish us Whether instrumental vocal or mechanical sound ranged from the improvised to the pre-arranged as in scripts scores and cue sheets The practice of mixing sounds with images differed widely

**Beyond 1989** K. Bullivant, 1997-09-01 With the fall of the Berlin Wall in November 1989 four decades of separation seemed to have been brought to an end In the literary arena as in many others this seemed to be the surprising but ultimately logical end to the situation in which after the extreme separation of the two Germanies literatures during most of the period up to 1980 an increasing closeness could be observed during the 1980s as relations between the two German states normalized With the opening up of the East in the Autumn of 1989 claims were being made on the one hand that German literature had never in fact been divided while others were proclaiming the end of East and West German literatures as they had existed and the beginning of a new era This volume examines these claims and other aspects of literary life in the two Germanies since 1945 with the hindsight born of unification in 1990 as well as looking at certain aspects of developments since the fall of the Wall when as on East German put it in 1996 rapprochement came to an end

**Heidegger, Aristotle and the Work of Art** Mark Sinclair,2006-12-01 This book finds Heidegger s Aristotle interpretation integral to his idea of leading metaphysics back to its own presuppositions and his reflection on art as necessitating a revision of this interpretation It argues that this tracing is vital to engaging with the historical significance of his thinking and with modern metaphysics and aesthetics     **The Ground of the Image** Jean-Luc Nancy,2009-08-25 The

renowned philosopher provides noteworthy contributions to themes connected with images imagination representation aesthetics and religion Journal of American Academy of Religion What is this power that lies in the depths and recesses of an image which is always only an impenetrable surface What secrets are concealed in the ground or in the figures of an image which never does anything but show just exactly what it is and nothing else How does the immanence of images open onto their unimaginable others their imageless origin In this collection of writings on images and visual art Jean Luc Nancy explores such questions through an extraordinary range of references From Renaissance painting and landscape to photography and video from the image of Roman death masks to the language of silent film from Cleopatra to Kant and Heidegger Nancy pursues a reflection on visuality that goes far beyond the many disciplines with which it intersects He offers insights into the religious cultural political art historical and philosophical aspects of the visual relation treating such vexed problems as the connection between image and violence the sacred status of images and in a profound and important essay the forbidden representation of the Shoah In the background of all these investigations lies a preoccupation with finitude the unsettling forces envisaged by the images that confront us the limits that bind us to them the death that stares back at us from their frozen traits and distant intimacies In these vibrant and complex essays a central figure in European philosophy continues to work through some of the most important questions of our time     *Fiction from Tegel Prison*

Dietrich Bonhoeffer,2010-09 This book discloses a great deal of Bonhoeffer s family context social world and cultural milieu Events from his life are recounted in a way that embodies and illuminates his theology Characters and situations that represent Nazi types and attitudes are a form of social criticism and help to explain Bonhoeffer s participation in the resistance movement and the plot to kill Adolf Hitler for which he was hanged     *Rilke's Russia* Anna A. *Celan* Axel Englund, 2016-04-01 What does it mean for poetry and music to turn to each other in the shadow of the Holocaust as a means of aesthetic self reflection How can their mutual mirroring of such paramount importance to German Romanticism be reconfigured to retain its validity after the Second World War These are the core questions of Axel Englund's book which is the first to address the topic of Paul Celan and music Celan a Jewish Holocaust survivor who has long been recognized as one of the most important poets of the German language persistently evoked music and song in his oeuvre from the juvenilia to the posthumous collections Conversely few post war writers have inspired as large a body of contemporary music including works by Harrison Birtwistle György Kurtág Wolfgang Rihm Peter Ruzicka and many others Through rich close readings of poems and musical compositions Englund's book engages the artistic media in a critical dialogue about the conditions of their existence In so doing it reveals their intersection as a site of profound conflict where the very possibility of musical and poetic meaning is at stake and confrontations of aesthetic transcendentalism and historical remembrance are played out in the wake of twentieth century trauma
