Herman Grooten has now written an equally accessible primer on attacking chess. He teaches you how to spot opportunities, exploit weaknesses, bring your forces to the frontline and strike at the right moment. Grooten concentrates on training the most valuable skills: visualizing, structuring, anticipating, calculating, memorizing and other mental aspects. This is not just another collection of useful thematic moves, but a complete and highly structured course of attacking techniques. With great and fresh examples, clear explanations and many instructive exercises. *For Friends and Colleagues* Mark

Dvoretsky, 2015-08-06 *The Journey Continues*. Mark Dvoretsky has long been considered one of the premier chess coaches and trainers in the world. He is renowned for taking talented masters and forging them into world class grandmasters and champions. His literary achievements are also quite distinguished. For example, Dvoretsky's *Endgame Manual*, now in its fourth edition, established itself as the sine qua non of endgame theory from the moment it appeared over a decade ago. In this second volume of his highly acclaimed autobiographical work, the author focuses on his early development as a player, issues which challenge chess coaches as well as varied topics related to improving one's play. Whether you are a player, coach, fan or passionate aficionado, you will find this second volume as enjoyable and enlightening as the first. Here's what the critics had to say about Volume 1: Volume 1 is an insightful glimpse into the mind of one of the strongest coaches in any sport ever to walk the face of the earth. I can't recommend this book highly enough, especially for students of chess history. Chris Wainscott, ChessIQ.com. If you are interested in a first-hand account of some very important events and persons in chess history, it's hard to find a better book than this one. Few have influenced modern chess like Dvoretsky has, and *Profession Chess Coach* reads like his valedictory address. John Hartmann in the January 2015 issue of *Chess Life*. *Chess Life & Review*, 1979.

Tal, Petrosian, Spassky and Korchnoi. Andrew Soltis, 2018-12-06. This book describes the intense rivalry and collaboration of the four players who created the golden era when USSR chess players dominated the world. More than 200 annotated games are included, along with personal details, many for the first time in English. Mikhail Tal, the roguish, doomed Latvian who changed the way chess players think about attack and sacrifice. Tigran Petrosian, the brilliant, henpecked Armenian whose wife drove him to become the world's best player. Boris Spassky, the prodigy who survived near starvation and later bouts of melancholia to succeed Petrosian, but is best remembered for losing to Bobby Fischer. And Evgeny Korchnoi, whose mixture of genius and jealousy helped him eventually surpass his three rivals, but fate denied him the title they achieved: world champion.
