 Guo,2012-04-23 This book presents a methodological framework for the analysis of intercultural issues frequently  
 misinterpreted by existing theories It uses a challenge and response theory of cultural development to examine the  
 relationship between different natural disasters and threats and the developments of ancient civilizations The spatial  
 interaction of ancient civilizations is assessed and four non linear patterns of intercultural dynamics are presented Our  
 empirical analyses of the four major ancient civilizations the Mesopotamian the Egyptian the Indus and the Chinese focus on  
 intercultural influences as well as how they have shaped the spatial dynamics of the world as a whole This book also  
 examines various aspects of intercultural economic influences such as those of culture on international trade Evidence from a  
 broad panel of nations supports the presumption that high income trade partners will be less sensitive to the measures of  
 cultural dissimilarity than low income trade partners between which cultural dissimilarity leads to barriers to international  
 trade The treatment of linguistic and religious factors as continuous variables in this book has improved past studies in which  
 language was treated as one or more dummy variables and religion was ignored **Water In The Middle East** Thomas  
 Naff,2020-06-08 The scarcity and rapid depletion of water in one of the world s driest regions continues to be a major  
 determinant of the domestic and external policies of the major actors in the Middle East Israel Jordan and the West Bank will  
 have exhausted virtually all their renewable sources of fresh water by 1995 if current patterns of consumption are not  
 radically altered This study examines the hydrological historical legal and strategic dimensions of water problems in the  
 Middle East and discusses their implications for the future The Essential Works of George Rawlinson George
