For decades India has been a conservative democracy governed by the upper caste notables coming from the urban bourgeoisie the landowning aristocracy and the intelligentsia The democratisation of the world's largest democracy started with the rise of peasants parties and the politicisation of the lower castes who voted their own representatives to power as soon as they emancipated themselves from the elite's domination In Indian state politics caste plays a major role and this book successfully studies how this caste based social diversity gets translated into politics This is the first comprehensive study of the sociological profile of Indian political personnel at the state level It examines the individual trajectory of 16 states from the 1950s to 2000s according to one dominant parameter the evolution of the caste background of their elected representatives known as Members of the Legislative Assembly or MLAs The study also takes into account other variables like occupation gender age and education      **Timepass** Craig Jeffrey, 2010-08-16 Social and economic changes around the globe have propelled increasing numbers of people into situations of chronic waiting where promised access to political freedoms social goods or economic resources is delayed often indefinitely But there have been few efforts to reflect on the significance of waiting in the contemporary world Timepass fills this gap by offering a captivating ethnography of the student politics and youth activism that lower middle class young men in India have undertaken in response to pervasive underemployment It highlights the importance of waiting as a social experience and basis for political mobilization the micro politics of class power in north India and the socio economic strategies of lower middle classes The book also explores how this north Indian story relates to practices of waiting occurring in multiple other contexts making the book of interest to scholars and students of globalization youth studies and class across the social sciences      *Valour and Sacrifice* Gautam Sharma, 1990

**Empire and Information** Christopher Alan Bayly, 1996 In a penetrating account of the evolution of British intelligence gathering in India C A Bayly shows how networks of Indian spies were recruited by the British to secure military political and social information about their subjects He also examines the social and intellectual origins of these native informants and considers how the colonial authorities interpreted and often misinterpreted the information they supplied It was such misunderstandings which ultimately contributed to the failure of the British to anticipate the rebellions of 1857 The author argues however that even before this complex systems of debate and communication were challenging the political and intellectual dominance of the European rulers
