**Becoming an Anthropologist** Gerald

Mars, 2015-10-05 Mars graphic and often vivid narrative can be read simply as the anecdotal memoirs of an anthropologist. The experiences he recounts are sometimes hilarious touch occasionally on the dangerous and are always sensitively and expertly explored. But for those who want to know more the book's expansive footnotes and references to key sources also offer a stimulating introduction to social anthropology its theories and its methods. Mars begins by describing his childhood life in a tightly structured working class community during World War Two. He then contrasts this with an account of the hidden underlife of an entrepreneurial crime prone seaside resort Blackpool where he worked as a spieler barker. Two years experience of National Service provides an account of the social organisation of the RAF followed by discussion of aspects of the organisation of Cambridge University. What follows then is a lifetime spent living and working in different cultures around the world. The results are continual insights gained by comparison and contrasts that illuminate aspects not only of other cultures but also of our own.

**A Theoretical and Practical Contribution to Supply Chain Robustness** Durach, Christian F., 2016-05-20 In dieser Doktorarbeit werden vier individuelle Untersuchungen im Bereich der Supply Chain Robustheit durchgeführt. Das begeordnete Ziel dieser ist die Entwicklung eines konzeptionellen Rahmens der Supply Chain Robustheit. Dafür wird aktuelle Literatur in diesem Forschungsfeld zusammengefasst und ein Schema mit Bestimmungsfaktoren zur Erhellung von Robustheit in Käufer-Lieferantenbeziehungen entwickelt. Motivation für diese wissenschaftliche Arbeit ist ein beobachteter Anstieg von Unterbrechungen in Supply Chains sowie eine weiterhin anhaltende Outsourcing-Tendenz und die dadurch wachsende Bedeutung von Beziehungen in Supply Chains. In dieser Arbeit werden zwei Literaturstudien sowie zwei empirische Untersuchungen durchgeführt. Erstens wird die Methode der Systematic Literature Reviews für das Forschungsgebiet des Supply Chain Managements bearbeitet. Zweitens erfolgt die Entwicklung eines konzeptionellen Rahmens sowie eine Definition des Konstruktes Supply Chain Robustheit. Drittens werden Bestimmungsfaktoren zur Schaffung von Robustheit in Käufer-Lieferantenbeziehungen identifiziert und in einem vierten Schritt validiert. This doctoral thesis develops four individual research studies on supply chain robustness. The overall goal of these studies is to develop a conceptual framework of supply chain robustness by consolidating current literature in the field and drawing on that framework to construct a schema of determinants that facilitate robustness in buyer-supplier relationships. This research is motivated by an observed increase of supply chain disruptions as well as an increasing trend towards outsourcing and a subsequent rise in the importance of supply chain relationships. It methodologically builds on two literature studies and two empirical studies. The thesis develops refined methodology guidelines for conducting literature reviews in supply chain management, proposes a conceptual framework for supply chain robustness, putting forward a formal definition of the construct and identifies and validates four relational determinants that facilitate robustness against disruptions in buyer-supplier relationships.
