Those Who Belong Jill Doerfler, 2015-07-01 Despite the central role blood quantum played in political formations of American Indian identity in the late nineteenth and twentieth centuries there are few studies that explore how tribal nations have contended with this transformation of tribal citizenship *Those Who Belong* explores how White Earth Anishinaabeg understood identity and blood quantum in the early twentieth century how it was employed and manipulated by the U S government how it came to be the sole requirement for tribal citizenship in 1961 and how a contemporary effort for constitutional reform sought a return to citizenship criteria rooted in Anishinaabe kinship replacing the blood quantum criteria with lineal descent *Those Who Belong* illustrates the ways in which Anishinaabeg of White Earth negotiated multifaceted identities both before and after the introduction of blood quantum as a marker of identity and as the sole requirement for tribal citizenship Doerfler's research reveals that Anishinaabe leaders resisted blood quantum as a tribal citizenship requirement for decades before acquiescing to federal pressure Constitutional reform efforts in the twenty first century brought new life to this longstanding debate and led to the adoption of a new constitution which requires lineal descent for citizenship

Morrison, 2012-02-01 Arguing that Native Americans religious life and history have been misinterpreted author Kenneth M Morrison reconstructs the Eastern Algonkians world views and demonstrates the indigenous modes of rationality that shaped not only their encounter with the French but also their self directed process of religious change In reassessing controversial anthropological historical and ethnohistorical scholarship Morrison develops interpretive strategies that are more responsive to the religious world views of the Eastern Algonkian peoples He concludes that the Eastern Algonkians did not convert to Catholicism but rather applied traditional knowledge and values to achieve a pragmatic and critical sense of Christianity and to preserve and extend kinship solidarity into the future The result was a remarkable intersection of Eastern Algonkian and missionary cosmologies

God Fritz Detwiler, 1999-12 The Christian Right is arguably the most significant social movement in the United States today In recent years these religious conservatives have loudly protested a public education system they believe no longer represents their interests or values Educators often dismiss critiques based on religious values as irrational or flimsy failing to appreciate the coherence of these criticisms from the Christian Right's own perspective While the Christian Right has become ever more sophisticated in its lobbying and powerful in its influence educators and parents find themselves lacking the background knowledge necessary to respond effectively to its efforts Standing on the Premises of God speaks directly to this dilemma explaining current incarnations of the Christian Right its leadership its intellectual and theological foundations and its tactics so that those interested in the debates over education will be better prepared to engage them constructively Taking the novel approach of framing the Christian Right as a revitalization movement Detwiler shows how it seeks to effect cultural transformation in order to bring public education and our society more generally in line with its worldview His theoretical model provides insights into why education is so pivotal to the Christian Right and also assesses the religious viability of the Christian Right as a social movement

Tradition, Solidarity and Empowerment: The Native Discourse in Canada Steffi Retzlaff, 2012-01-31 This study represents a significant

step towards understanding an important social phenomenon in Canada at the end of the twentieth and beginning of the twenty first century Throughout much of the twentieth century the life of virtually all Aboriginal people had been marked by a set of policies directed from Ottawa These had contributed to undermining both their traditional cultures and also the familial bonds vital for the development of a positive self image and a healthy relationship with other members of society as also with society as a whole The negative impact of such policies is now very widely recognised and documented The study does not set out to shed further light on this set of causes and effects What it does do successfully is investigate a number of the linguistic strategies based partly on aboriginal discursive models partly on positive presentation of a range of topics handled very differently in Euro Canadian media and partly on the propagation and consistent use of key items of terminology some of which have begun to enter at least some of the Euro Canadian media and strands of political discourse Prof Robert Gould Carleton University Ottawa The analytical framework employed in this study is Critical Discourse Analysis CDA CDA is said to focus on relevant social cultural and political problems and processes Accordingly its task is both deconstructive and constructive However the emphasis of research in CDA is mainly on problems and the deconstructive moment which aims at revealing hidden and not so hidden linguistic strategies and how dominant discourses are appropriated or naturalized The analysis presented in this book runs counter to this generally employed CDA practice It pays attention to constructive moments The focus is on counter discourses as they are used by Aboriginal people in Canada to resist ingrained hegemonic practices to build and develop new power relations as well as social and political identities
