ANAND SRIVASTAVA (NIDHI BAJAJ.),2022 *Science, Voyages, and Encounters in Oceania, 1511-1850* Bronwen Douglas,2014-03-26 Blending global scope with local depth this book throws new light on important themes Spanning four centuries and vast space it combines the history of ideas with particular histories of encounters between European voyagers and Indigenous people in Oceania Island Southeast Asia New Guinea Australia New Zealand and the Pacific Islands

Popular Lectures on Science and Art Dionysius Lardner,1845 **The Universal Library Or, Compleat Summary of Science** Henry Curzon,1712 *Science* John Michels (Journalist),1903 Vols for 1911 13 contain the Proceedings of the Helminothological Society of Washington ISSN 0018 0120 1st 15th meeting **Report ... Of The British Association For The Advancement Of Science** ,1841 **Travel Narratives, the New Science, and Literary Discourse, 1569-1750** Judy A. Hayden,2016-03-03 The focus of this volume is the intersection and the cross fertilization between the travel narrative literary discourse and the New Philosophy in the early modern to early eighteenth century historical periods Contributors examine how in an historical era which realized an emphasis on nation and during a time when exploration was laying the foundation for empire science and the literary discourse of the travel narrative become intrinsically linked Together the essays in this collection point out the way in which travel narratives reflect the anxiety from changes brought about through the discoveries of the new knowledge and the way this knowledge in turn provided a new and more complex understanding of the expanding world in which the writers lived The worlds in this text are many for no world is monomial from the antipodes to the New World from the heavens to the seas and from fictional worlds to the world which contains and or constructs one s nation and empire All of these essays demonstrate the manner in which the New Philosophy dramatically changed literary discourse *Victorian Science and Literature, Part II vol 7* Gowan Dawson,Bernard Lightman,Claire Brock,Marwa Elshakry,Sujit Sivasundaram,Ralph O'Connor,Roger Luckhurst,Justin Sausman,2024-08-07 This eight volume reset edition in two parts collects rare primary sources on Victorian science literature and culture The sources cover both scientific writing that has an aesthetic component what might be called the literature of science and more overtly literary texts that deal with scientific matters *Woman in Science* J. A. Zahm,2025-07-22 *Woman in Science* by J A Zahm is a groundbreaking exploration of the incredible contributions made by women to the field of science throughout history This compelling work sheds light on the often overlooked stories of female scientists who have defied social barriers and made significant advancements in various scientific disciplines Zahm masterfully details the achievements of these pioneering women from the early days of history through contemporary figures highlighting their relentless determination and groundbreaking research that has shaped our understanding of the world In an era where women were frequently marginalized and excluded from scientific discourse *Woman in Science* serves as a powerful reminder of the extraordinary

intellect creativity and resilience of women who forged paths against the odds Zahm intricately narrates the life stories and professional journeys of remarkable women who have left indelible marks on science encompassing physicists chemists biologists astronomers and many other fields Each featured scientist is accompanied by an insightful biography that portrays their struggles triumphs and the societal challenges they faced making their accomplishments even more inspiring This book does more than merely chronicle history it weaves in narratives that evoke deep appreciation for the sacrifices and dedication required to excel in scientific fields historically dominated by men Zahm not only presents these women as pioneers but also emphasizes the importance of their cultural and historical contexts By addressing the obstacles these scientists overcame the narrative fosters a greater understanding of the systemic inequities faced by women in STEM fields The accounts reveal a legacy of female empowerment encouraging future generations to pursue their passions in science and to break down barriers that still exist today The stories resonate with the reader inviting them to consider the critical roles that women have played and continue to play in shaping scientific knowledge and innovation Zahm champions the idea that science is enriched by diversity and that the perspectives of women contribute significantly to advancements across disciplines This theme is woven throughout the book which serves as both an inspiring educational resource and a call to action for recognizing the importance of women in scientific discovery Richly illustrated and thoughtfully organized *Woman in Science* also serves as an invaluable resource for educators students and anyone interested in the history of science and women's contributions Zahm's compelling writing style engages readers making complex scientific concepts accessible and relevant to all The book is designed to promote discussions about the ongoing fight for equality and the need for greater integration of women in scientific research and leadership roles In summary *Woman in Science* by J A Zahm is a powerful testament to the strength and intelligence of women who have tirelessly worked to carve a place for themselves in the world of science It is a celebration of their contributions a history of their struggles and an inspiration to current and future generations By sharing this rich collection of women's achievements and highlighting their remarkable stories Zahm encourages a more inclusive view of science's history urging readers to acknowledge and honor the vital roles that women have played and continue to play in scientific advancement

Literature, Science, Psychoanalysis, 1830-1970 Helen Small, Trudi Tate, 2003 The interactions between literature and science and between literature and psychoanalysis have been among the most thriving areas for interdisciplinary study in recent years Work in these open fields has taught us to recognize the interdependence of different cultures of knowledge and experience revealing the multiple ways in which science literature and psychoanalysis have been mutually enabling and defining as well as corrective and contestatory of each other Inspired by Gillian Beer's path breaking work on literature and science this volume presents fourteen new essays by leading American and British writers They focus on the evolutionary sciences in the nineteenth century the early years of psychoanalysis from Freud to Ella Freeman Sharpe and the modern development of the physical sciences Drawing on recent

debates within the history of science psychoanalytic literary criticism intellectual history and gender studies the volume makes a major contribution to our understanding of the formation of knowledge Among its recurrent themes are curiosity and epistemology growth maturity and coming of age as structuring metaphors several essays focus especially on childhood taxonomy sleep and dreaming and elusive knowledge the physiology of truth and the gender politics of scientific theory and practice The essays also reflect Beer s extensive influence as a literary critic with close readings of works by Charlotte Bront Alfred Lord Tennyson George Eliot Thomas Hardy Henry James Oscar Wilde H G Wells Edith Ayrton Zangwill Charlotte Haldane Virginia Woolf George Orwell and Karin Boye *The Cambridge History of Science: Volume 3, Early Modern Science* David C.
