*Handbook of Scientology* James R. Lewis, 2017-01-05 The Handbook of Scientology brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions In recent years increasing scholarly attention has been directed at the Church of Scientology resulting in a small tsunami of new scholarship We have finally reached a point in time where a book on Scientology need not restrict itself to basics Thus for example the historical chapters in the present volume are not really aimed at providing elementary facts on Scientology s background but rather focus on understanding how the Church of Scientology developed over the years In short the Handbook of Scientology will provide a wealth of new information on a topic that one might otherwise have thought exhausted Contributors are Matthew Charet Dorthe Refslund Christensen Carole M Cusack Bernard Doherty Marco Frenschkowski Liselotte Frisk Kjersti Helles y Don Jolly James R Lewis Renee Lockwood Andr s M t T th G bor D niel Nagy Johanna Petsche Erin Prophet Susan Raine David G Robertson Mikael Rothstein Lisbeth Tuxin Rubin Nicole S Ruskell Shannon Trosper Schorey Michelle Swainson Inga B rdsen T llefsen Hugh G Urban Donald A Westbrook and Benjamin Zeller *Scientology 8-8008* La Fayette Ron Hubbard, 1990

Lewis, 2009-03-11 Scientology is arguably the most persistently controversial of all contemporary New Religious Movements James R Lewis has assembled an unusually comprehensive anthology incorporating a wide range of different approaches In this book a group of well known scholars of New Religious Movements offers an extensive and evenhanded overview and analysis of all of these aspects of Scientology including the controversies to which it continues to give rise Scientology 0-8 La Fayette Ron Hubbard, 2007 From the Book Jacket Scientology 0 8 The Book of Basics is the ultimate companion to all Ron s books lectures and materials and indeed the indispensable reference on Scientology itself Distilled from over 3 000 lectures 20 000 pages of writings and the entire library of Dianetics and Scientology books this single volume contains the senior laws of mind spirit and life itself These Axioms Codes and Scales are the graphic explanations of existence gained from a direct observation of all spectrums of livingness They apply to cases to people to all things Scientology 0 8 contains the very fundamentals on which every part of existence turns on which the route to total freedom is built and on which you can attain the full measure of that freedom *Science Fiction Language in Action* Jennifer Kelso Farrell, 2025-09-04 In this book Jennifer Kelso Farrell investigates the way in which L Ron Hubbard used his background in science fiction to create a language for his religion that served to gatekeep outsiders out and insulate insiders Examining the works of science fiction authors such as George Orwell Aldous Huxley Anthony Burgess and Samuel Delany Farrell explores the relationship between language and reality and the role language can play in reprogramming individuals The author also draws upon high profile biographies from former members such as Troublemaker Surviving Hollywood and Scientology and My Billion Year Contract to display how indoctrination into such language often causes a language barrier between those within Scientology and those outside of it thus further isolating members and perpetuating Scientologese

within their inner circle Bridging the gap between fiction and reality Farrell illustrates how this language came to be and how it continues to persist today *An Educator's Classroom Guide to America's Religious Beliefs and Practices* Benjamin J. Hubbard, John T. Hatfield, James A. Santucci, 2007-04-30 Today with all of the controversies surrounding religion in the schools and in the public sphere it would seem more important than ever that teachers and librarians have a quick source of up to date correct unbiased information to give to patrons and students The authors of this book all are or have been professors of religion at various well known universities offer just that The book is arranged to cover most all of the known and little known religions in America Today with all of the controversies surrounding religion in the schools and in the public sphere it would seem more important than ever that teachers and librarians have a quick source of up to date correct unbiased information to give to patrons and students The authors of this book all are or have been professors of religion at various well known universities offer just that The book is arranged to cover most of the known and little known religions in America Each section includes Origins Beliefs Sacred Book Scriptures Practices Main Subgroups Common Misunderstandings and Stereotypes Classroom Concerns Population Data and Further Readings Though there are many guides to religions this book has the unique advantage of looking at each religion as it may affect the classroom and other student groups and activities **World Religions at Your Fingertips** Michael McDowell, Ph.D, Nathan Robert Brown, 2009-03-03 Quick reference to the major religions of the world With World Religions at Your Fingertips readers can quickly learn anything they need to know about Buddhism Christianity Hinduism Islam Judaism Mormonism Shinto Sikhism Taoism and more From reincarnation to resurrection the Four Noble Truths to the Ten Commandments this book covers the gamut of religious concepts and beliefs throughout the world in concise but complete bites that are easy to find and simple to understand Allows readers to dip in quickly to get the information they need immediately Thumb tabs and other navigational aids make this the quintessential reference book on world religion Content is thorough and even handed Scientology 8-8008 La Fayette Ron Hubbard, 2007 The complete description of the behavior and potentials of a thetan and textbook for the Philadelphia Doctorate Course and The Factors Admiration the Renaissance of Beingness lectures As Ron said the book's title serves to fix in the mind of the individual a route by which he can rehabilitate himself his abilities his ethics and his goals the attainment of infinity 8 by the reduction of the apparent infinity 8 of the mest universe to zero 0 and the increase of the apparent zero 0 of one's own universe to infinity 8 Condensed herein are more than 80 000 hours of investigation with a summarization and amplification of every breakthrough to date and the full significance of those discoveries form the new vantage point of Operating Thetan Among the Scientologists Donald A. Westbrook, 2019 The Church of Scientology is one of the most recognizable American born new religions but perhaps the least understood With academic and popular interest on the rise many books have been written about Scientology and surely more will follow Although academics have begun to pay more attention to Scientology the subject has received remarkably little qualitative attention Indeed no work has

systematically addressed such questions as what do Scientologists themselves have to say about their religion's history, theology and practices. How does Scientology act as a religion for them? What does lived religion look like for a Scientologist? This is not so much a book about the Church of Scientology, its leaders or its controversies as it is a compilation of narratives and histories based on the largely unheard or ignored perspectives of Scientologists themselves. Drawing on six years of interviews, fieldwork and research conducted among members of the Church of Scientology, this groundbreaking work examines features of the new religion's history, theology and praxis in ways that move discussion beyond apostate-driven and expos accounts.

,1983 **Apples in God's Eye** Orinio G. Opinaldo, 2010-02-25 Orinio Gregorio Opinaldo was born in Los Angeles and attended St Agnes Elementary and High School of which he is still an active member of that community in finances, social justice and liturgy. He has been a teacher for forty-four years for LAUSD and has taught all elementary grades and served as resource teacher in art, drama, math, writing and reading. He was chosen as outstanding teacher from the Mayors Office when he taught at Fifty Second Street Elementary 1964-1989, nominated for the Disney teacher award when he taught at Forty Ninth Street Elementary 1989-2004 and selected as the 2008 Hero for Harmony Elementary School from LAUSD Board of Education 2005-2008. After twenty years of teaching, he went to India to reflect on his first twenty years as a teacher and to plan for his next twenty during all of the 1983-84 school year. During the next twenty years, he spent six months in Botswana where he traveled to South Africa and Zimbabwe. After retiring, he set plans on what his next twenty years would be like in service to children and community. He is the patriarch of twenty-three members of his family of which eleven live with him. He has sixteen grandchildren, eight girls and eight boys, and a long history of wonderful friends scattered throughout the world. His greatest asset is his openness as a life learner. He embraces new experiences and is always studying, reading and listening but mostly observing the nuances of his own mind so that he can grow toward total freedom as a vegan and a humanitarian.

*The Church of Scientology* Hugh B. Urban, 2013-02-24 Scientology's long and complex journey to recognition as a religion. Scientology is one of the wealthiest and most powerful new religions to emerge in the past century. To its detractors, L. Ron Hubbard's space-age mysticism is a moneymaking scam and sinister brainwashing cult. But to its adherents, it is humanity's brightest hope. Few religious movements have been subject to public scrutiny like Scientology, yet much of what is written about the church is sensationalist and inaccurate. Here for the first time is the story of Scientology's protracted and turbulent journey to recognition as a religion in the postwar American landscape. Hugh Urban tells the real story of Scientology from its cold war era beginnings in the 1950s to its prominence today as the religion of Hollywood's celebrity elite. Urban paints a vivid portrait of Hubbard, the enigmatic founder who once commanded his own private fleet and an intelligence apparatus rivaling that of the U.S. government. One FBI agent described him as a mental case, but to his followers, he is the man who solved the riddle of the human mind. Urban details Scientology's decades-long war with the IRS.

which ended with the church winning tax exempt status as a religion the rancorous cult wars of the 1970s and 1980s as well as the latest challenges confronting Scientology from attacks by the Internet group Anonymous to the church's efforts to suppress the online dissemination of its esoteric teachings The Church of Scientology demonstrates how Scientology has reflected the broader anxieties and obsessions of postwar America and raises profound questions about how religion is defined and who gets to define it     Publishers' Trade List Annual, 1980 Bobbs-Merrill Educational Co,1980
