Scipio Africanus The Man Who Defeated Hannibal:

Scipio Africanus Ross Leckie, 1998 Now from the author of the highly acclaimed novel *Hannibal* a History Book Club Selection comes the second installment in an epic trilogy on the rise of Carthage and the rise of Rome Scipio Africanus Charles River Editors, 2020-04-06 Includes pictures Includes excerpts of ancient accounts Includes a bibliography for further reading Carthage was one of the great ancient civilizations and at its peak the wealthy Carthaginian Empire dominated the Mediterranean against the likes of Greece and Rome with commercial enterprises and influence stretching from Spain to Turkey In fact at several points in history it had a very real chance of replacing the fledgling Roman empire or the failing Greek polis city states altogether as master of the Mediterranean Although Carthage by far preferred to exert economic pressure and influence before resorting to direct military power and even went so far as to rely primarily on mercenary armies paid with its vast wealth for much of its history it nonetheless produced a number of outstanding generals from the likes of Hanno Magnus to of course the great bogeyman of Roman nightmares himself Hannibal Certain foreign policy decisions led to continuing enmity between Carthage and the burgeoning power of Rome and what followed was a series of wars which turned from a battle for Mediterranean hegemony into an all out struggle for survival Although the Romans gained the upper hand in the wake of the First Punic War Hannibal brought the Romans to their knees for over a decade during the Second Punic War While military historians are still amazed that he was able to maintain his army in Italy near Rome for nearly 15 years scholars are still puzzled over some of his decisions including why he never attempted to march on Rome in the first place While Hannibal had been in Italy it had been relatively easy for the Carthaginian oligarchy particularly the Hundred and Four a federation of powerful traders and Hannibal's chief political rival Hanno the Great to marginalize him For years his political party the Barcids had struggled to obtain even a token amount of funds and troops for his enterprise but Hannibal's arrival on the scene changed all that Even his rivals could not deny the simple fact that all else aside the man could fight a battle like no other general alive With Rome threatening invasion Hannibal was suddenly the necessary hero of the hour Bolstering his Italian mercenaries with levies from Africa and Carthage the Carthaginian ruling elite desperately invested the money that Hannibal had begged for throughout the last decade While he remains far less known than Hannibal Publius Cornelius Scipio the man who has become known to history as Scipio Africanus is widely regarded as one of the greatest military leaders of all time In the space of less than 10 years the genius of Scipio took Rome from being on the brink of utter destruction to becoming the dominant power in the Mediterranean He displayed not just acute understanding of the tactical needs of the battlefield but also a strategic overview that consistently allowed him to confound his enemies Scipio has been described as the embodiment of grand strategy as his campaigns are the supreme example in history of its meaning However like many other successful military leaders Scipio proved much less able to deal with the envy and political machinations of the Roman Senate and he ended his life not in glory but in bitter self imposed

retirement much the same way Hannibal did Both men left legacies of military genius catastrophic defeats perseverance in the face of setbacks astounding victories Their stories also heavily involve ingratitude envy and enmity from within Scipio Africanus The Life and Legacy of the Roman General Who Defeated Hannibal during the Second Punic War chronicles how Scipio rose to prominence his legendary victory at Zama and the legacy he had on antiquity Along with pictures depicting important people places and events you will learn about Scipio Africanus like never before **Scipio Africanus** Richard A. Gabriel,2008-06-30 The world often misunderstands its greatest men while neglecting others entirely Scipio Africanus surely the greatest general that Rome produced suffered both these fates Today scholars celebrate the importance of Hannibal even though Scipio defeated the legendary general in the Second Punic War and was the central military figure of his time In this scholarly and heretofore unmatched military biography of the distinguished Roman soldier Richard A Gabriel establishes Scipio s rightful place in military history as the greater of the two generals Before Scipio few Romans would have dreamed of empire and Scipio himself would have regarded such an ambition as a danger to his beloved republic And yet paradoxically Scipio s victories in Spain and Africa enabled Rome to consolidate its hold over Italy and become the dominant power in the western Mediterranean virtually ensuring a later confrontation with the Greco Macedonian kingdoms to the east as well as the empire s expansion into North Africa and the Levant The Roman imperium was being born and it was Scipio who had sired it Gabriel draws upon ancient texts including those from Livy Polybius Diodorus Silius Italicus and others as primary sources and examines all additional material available to the modern scholar in French German English and Italian His book offers a complete bibliography of all extant sources regarding Scipio s life The result is a rich detailed and contextual treatment of the life and career of Scipio Africanus one of Rome s greatest generals if not the greatest of them all **Black Man of the Nile and His Family** Yosef Ben-Jochannan,1989 In a masterful and unique manner Dr Ben uses Black Man of the Nile to challenge and expose Europeanized African history Order Black Man of the Nile here *International Encyclopedia of Military History* James C. himself Lawrence Johnson regards the creation of the psychoanalytic case study as the writing of two lives those of the analys and and the analyst so Freud s own biography and subjective viewpoint could hardly fail to bear a direct influence on the institution of psychoanalysis When Freud met the patient known as the Wolf Man Johnson maintains psychoanalysis was at an impasse because of Freud s inability to work through repressed material from his own childhood Freud overcame this impasse through a countertransference that cast his patient in the role of a rival for the control of psychoanalysis his means for vanquishing him set the terms for Freud s legacy to psychoanalysis Johnson offers a rigorous methodological framework for discussing the relationship between psychoanalytic writing and the lives of those who engage in it He fruitfully extends the work of Nicholas Abraham Maria Torok and Jacques Derrida into the realm of Freud s own life The result is both sophisticated psychobiography and psychoanalytic theory grounded firmly in historical lives *The Romans* Kevin M McGeough,2009-03-26 Kevin McGeogh approaches the centuries long story of Rome thematically exploring its geography history economics social structures material culture and intellectual achievements The book not only addresses such topics as historical personalities forms of government and religion but also coinage administrative organization festivities the art of leisure death and burial rituals and much more Each chapter provides an up to date summary of our knowledge of Roman civilization making this book an indeal introduction to this fascinating and complex culture **The Romans** Kevin Murray McGeough,2004-11-23 So many myths and legends So many senators and Caesars So many documents archaeological finds movie made misconceptions and scholarly histories With so much information available on the civilization of ancient Rome and more discoveries happening all the time where do you start The Romans New Perspectives is the ideal starting point for investigating this extraordinary civilization its remarkable rise and decline the scope of its power and wealth the details of everyday life for its people and its signature contributions to human culture food architecture government public works art and more The Romans takes readers from the establishment of the monarchy circa 753 BCE through the rise of the republic circa 509 BCE the imperial period and ultimately to the fall of the empire and the coronation of the barbarian king Odoacer It is an engaging account of current thinking on Roman life and culture informed by a number of dramatic recent discoveries The book provides a coherent introduction to the field while pointing the way toward further reading on specific topics and personalities **Memorable Deeds and Sayings** Valerius Maximus,2004-03-01 Popular in its day both as a sourcebook for writers and orators and as a guidebook for living a moral life this remarkably rich document serves as an engaging introduction to the cultural and moral history of ancient Rome Valerius thousand tales are arranged thematically in ninety one chapters that cover nearly every aspect of life in the ancient world including such wide ranging topics as military discipline child rearing and women lawyers As a whole the work gives the reader fascinating insights into what it felt like to be an ancient Roman what the ancient Romans really believed what their private world was like how they related to one another and what they did when nobody was watching Man, Know Thyself Rick Duncan,2013-07-09 Man Know Thyself is

perhaps one of the world's oldest and most important sayings. This adage was originally coined by Imhotep, the world's first multi-genius and perhaps the greatest creative mortal individual who ever lived. Imhotep lived over five and a half thousand years ago from our present age. It must be said immediately that Imhotep was an African. He is among our first Notable Ancestors. Considering Imhotep's instruction, it means that as individuals, as a family, collectively as a people, a community, a society, or a nation, we should know ourselves that is who we are. This includes knowledge of who spawned us, where we have been, and where we currently are. Knowing this as our Notable Ancestor and Grandmaster Teacher, Baba Dr. John Henrik Clarke has said, will tell us who we are and where we must get to. Who we are is dependent on who we were. Who we were should determine who we should be. To emphasise the point, Marcus Garvey, another of our most important Notable Ancestors, frequently reiterated this advice when he reminded us that our first obligation is to know ourselves. He told us that we should make our knowledge about us so complete so as to make it impossible for others to take advantage of us. He told us that in order to know ourselves, we must know who our Ancestors were and what they achieved. We would then realize who we are and what we are capable of achieving. This is the meaning of the African adage and Sankofa symbol of looking back in order to go forward. The importance of knowing our ancestors has been summed up in an old Native American saying that it is the spirit of our ancestors that should guide our path. There is a sense, however, that Africans have forgotten our ancestors. Because of this, there is no spirit to guide us, and so Africans are lost and confused. The roots of African spirituality and culture have been made redundant. Yet as Dr. Clarke points out, the umbilicord that tied Africans to our spiritual and cultural roots has only been stretched. It has never been broken. It is for Africans to come to this realization and to rediscover the spirit of our ancestors. This volume lists some of our Notable Ancestors in the hope that knowledge about them and their achievements will aid some of us in understanding where we have been, who we presently are, and consequently who we must become. Ultimately, it is hoped that we may use this knowledge to reconnect with the spirit of our Ancestors and let them be our guide. This volume is based on the truth about Africans and therefore correcting what is told about us. This corrective knowledge of us is important because, as Imhotep said, 'Know the truth and the truth shall set you free.' This means being free to interpret our own story and to define who we are. This is crucial because, although history is a witness to the truths, history has been stolen by others who have hidden the truths about us. History has never been true or kind to Africans, and therefore it cannot tell us about us. Yet as Peter Tosh intimated, we cannot come to a consciousness of ourselves of who we are if we do not know the truths about us. History has been described as the Queen of the academic subjects. So important is History that it is said that whoever controls history controls the future. In one sense, education in general and history in particular is about teaching us who we are. History teaches who we are so as to help us to know where we belong in our community or society. Africans cannot know where we belong in society, however, because our story has been told by others; those who own history. Africans are therefore unaware of who we are because what is known about us is not the truth about us. The story of Africans

the oldest people on earth like the history of the world is taught by others Yet these others came into the world thousands of years after Africans had already established great civ

Ancient Romans Mary Hamilton,2018-01-19 More than two thousand years ago at a time when the people in the British Isles and in most parts of Western Europe were living the lives of savages occupied in fighting hunting and fishing dwelling in rude huts clad in skins ignorant of everything that we call civilization Rome was the centre of a world in many ways as civilized as ours is now over which the Roman people ruled The men who dwelt in this one city built on seven hills on the banks of the river Tiber gradually conquered all Italy Then they became masters of the lands round the Mediterranean Sea of Northern Africa and of Spain of Greece Egypt Asia Minor and the Near East and of Western Europe The greatness of Rome and of the Roman people does not lie however in their conquests In the end their conquests ruined them It lies in the character mind and will of the Romans themselves
