Mackie,1991-02-28 A history that is equally entertaining and enlightening illustrating all of the changes of power and intricacies that are necessary to understand the interrelation between England and Scotland and the Highland and Lowland populations It shows how Duncan 1034 40 emerged from the union of the four peoples as the first king of a united Scotland and provides detailed reign by reign accounts from then on Above all Professor Mackie reveals how the Scots long pursued an independent line in religion law culture and foreign policy that helped them keep at bay the Romans the French and the English **1938: Modern Britain** Michael John Law,2017-12-14 In 1938 Modern Britain Michael John Law demonstrates that our understanding of life in Britain just before the Second World War has been overshadowed by its dramatic political events 1938 was the last year of normality and Law shows through a series of case studies that in many ways life in that year was far more modern than might have been thought By considering topics as diverse as the opening of a new type of pub the launch of several new magazines the emergence of push button radios and large screen televisions sets and the building of a huge office block he reveals a Britain both modern and intrigued by its own modernity that was stopped in its tracks by war and the austerity that followed For some life in Britain was as consumerist secular Americanized and modern as it would become for many in the late 1950s and early 1960s Presenting a fresh perspective on an important year in British social history illuminated by six engaging case studies this is a key study for students and scholars of 20th century Britain **Scottish Gods** Bruce Steve Bruce,2018-09-17 Steve Bruce here presents a highly readable account of the changing nature and place of religion in Scotland in an increasingly irreligious society In 1900 Scotland was a largely Presbyterian country and the Christian churches were a major social force Now less than 10 per cent of Scots attend church As religion has declined it has become more varied Catholicism has grown as have Charismatic Christian fellowships Buddhist and Hindu themes have easternised our religious vocabulary a significant Muslim population has become established and a notable number of Scots now pursue personal spiritual interests in forms which would once have been dismissed as pagan Both this decline and the diversification deserve explanation The Protestant Catholic divide has faded but Scots have new controversies over the proper public place of religion in the light of growing secularization and diversification The growth of individual liberty and increasing cultural diversity combine to weaken all shared beliefs by changing religion from a social matter into a private personal concern All religious groups are faced with the choice of either accommodating that trend and losing their distinctiveness or resisting it and making membership too costly for most

potential adherents This radical remapping of Scotland's religious character is a fascinating summary of a remarkable career of research and analysis by one of Scotland's leading social historians Topics include Lewis Orkney and Shetland compared the integration of the Irish the growth and decline of the Catholic Church Scotland Orange and Protestant the Post War Kirk factionalism in the conservative Presbyterian churches the failure of the charismatic movement in Scotland Samye Ling and Buddhism Findhorn and New Age spirituality Scots Muslims and arguments over the ordination of women and gay rights
