## Scotlands Motoring Century:

Scotland's Motoring Century Robert Grieves, 1999-10-01      *A Century of Motoring* Jon Pressnell, 2015-05-10 The lot of the motorist has changed greatly over the last hundred years In the early twentieth century only the most wealthy could afford a motor car and there were very few rules and regulations Now most British people own a car and are protected by air bags and crumple zones but also hemmed in by parking regulations traffic jams and speed restrictions In this richly illustrated history of the past hundred years of motoring expert Jon Pressnell explores the main developments such as the introduction and refinement of the driving test the improvement of roads and the impact of the motorway and how affordable cars such as the Mini have helped democratise driving The evolution of the car itself is also explored from the coachbuilt custom made cars of the 1910s through to the more attainable mass produced models of the inter war years and finally to today s complex and sometimes hybrid powered vehicles      **Scotland and Tourism** Alastair J. Durie, 2017-01-20 Tourism has long been important to Scotland It has become all the more significant as the financial sector has faltered and other mainstays are in apparent long term decline Yet there is no assessment of this industry and its place over the long run no one account of what it has meant to previous generations and continues to mean to the present one of what led to growth or what indeed has led people of late to look elsewhere This book brings together work from many periods and perspectives It draws on a wide range of source material academic and non academic from local studies and general analyses visitors accounts hotel records newspaper and journal commentaries photographs and even cartoons It reviews arguments over the cultural and economic impact of tourism and retrieves the experience of the visited of the host communities as well as the visitors It questions some of the orthodoxies that Scott made Scott land or that it was charter air flights that pulled the rug from under the mass market and sheds light on what in the Scottish package appealed and what did not and to whom how provision changed or failed to change and what marketing strategies may have achieved It charts changes in accommodation from inn to hotel holiday camp caravanning and timeshare The role of transport is a central feature that of the steamship and the railway in opening up Scotland and later of motor transport in reshaping patterns of holidaymaking Throughout there is an emphasis on the comparative asking what was distinctive about the forms and nature of tourism in Scotland as against competing destinations elsewhere in the UK and Europe It concludes by reflecting on whether Scotland s past can inform the making and shaping of tourism policy and what cautions history might offer for the future This prolific long term analysis of tourism in Scotland is a must read for all those interested in tourism history      *Drivetime* Lynne Pearce, 2016-07-07 Engages literary texts in order to theorise the distinctive cognitive and affective experiences of driving What sorts of things do we think about when we re driving or being driven in a car Drivetime seeks to answer this question by drawing upon a rich archive of British and American texts from the motoring century 1900 2000 paying particular attention to the way in which the practice of driving shapes and structures our thinking While recent sociological and psychological research has helped

explain how drivers are able to think about other things while performing such a complex task little attention has as yet been paid to the form these cognitive and affective journeys take Pearce uses her close readings of literary texts ranging from early twentieth century motoring periodicals Modernist and inter war fiction American road trip classics and autobiography in order to model different types of driving event and by extension the car's use as a means of phenomenological encounter escape from memory meditation problem solving and daydreaming Key Features Brings Humanities based perspectives to bear upon topical debates in automobilities research Introduces a new concept for understanding our journeys made my car by focusing on the driver's automotive consciousness rather than utility function Makes use of auto ethnography to explore and theorise automotive consciousness Draws upon a rich archive of literary texts from across the twentieth century including original research into unknown writers featured in the early twentieth century texts motoring periodicals *Scotland* David Martin-Jones, 2010-08-18 *Scotland* Global Cinema focuses on the explosion of filmmaking in Scotland in the 1990s and 2000s It explores the various cinematic fantasies of Scotland created by contemporary filmmakers from all over the world who braved the weather to shoot in Scotla Professional Women Painters in Nineteenth-Century Scotland Janice Helland, 2019-06-11 This title was first published in 2000 Women in the 19th century have long been presented as the angel in the house The author re-writes this history by investigating the life and working conditions of a number of middle class women who sought to establish themselves as professional artists in Scotland Contrary to the orthodox view preoccupied with oppression and difficulty the author demonstrates that women artists of the period were independent producers teachers and travellers alert to changes in taste and fashion They derived great pleasure from their work and enjoyed the benefits of women working together forming their own and joining existing professional associations The book is not biographical but elaborates on the life and working conditions of middle class artists by discussing their work in terms of economic and social history **A History of Scotland** Alastair Gray, 1989 This is a reissue of a popular text for Standard Grade History exams We have added 8 pages Into the Millennium to update the text and added exam questions under the new headings of Knowledge and Understanding and Line of Enquiry at General and Credit levels **Whaur Extremes Meet** Catriona M.M. MacDonald, 2009-10-30 On the cusp of memory and history the story of Scotland's twentieth century is contested territory international yet parochial prosperous yet ailing and passionate yet temperate This thematic account of Scotland's twentieth century examines the economic social political and cultural aspects that shaped the country during the period Catriona MacDonald underlines the tensions inherent in the life of a nation distinguished by stark changes and surprising continuities a fragmented identity a shifting and at times uneasy accommodation in the UK nation state and an ongoing engagement with globalising tendencies In identifying the choices ambitions possibilities and contradictions that Scotland experienced during a century of profound change she uncovers a country in which one can truly say extremes met
