Mother Trouble Miranda J. Brady, 2024-10-01 *Mother Trouble* traces white maternal angst in popular culture across a span of more than fifty years from the iconic Rosemary's Baby to anti-vaxx mom memes and HGTV shows. The book narrows in on popular media to think about white maternal angst as a manifestation of feminism's unrealized possibilities and continued omissions since the second wave. It interrogates intersecting systems of power which make mothers and their children the most impoverished people in the world and urges a greater appreciation in academic and popular thinking of the work that mothers do. The book calls for an analytical expansion beyond gender to better address the erasure of reproductive labour and especially that performed by migrants and people of colour. It illustrates the continued marginalization of racialized mothers and the disproportionate amount of labour performed by all mothers in a society where their work is devalued. Ultimately *Mother Trouble* reveals how the unease around white motherhood in the media has become a proxy for the troubles faced by all mothers.

50 Events That Shaped African American History Jamie J. Wilson, 2019-09-19 This two volume work celebrates 50 notable achievements of African Americans highlighting black contributions to U.S. history and examining the ways black accomplishments shaped American culture. This two volume encyclopedia offers a unique look at the African American experience from the arrival of the first 20 Africans at Jamestown through the launch of the Black Lives Matter movement and the Ferguson Protests. It illustrates subjects such as the Jim Crow period, the Brown v Board of Education case that overturned segregation, Jackie Robinson's landmark integration of major league baseball and the election of Barack Obama as president of the United States. Drawing from almost 400 years of U.S. history, the work documents the experiences and impact of black people on every aspect of American life. Presented chronologically, the selected events each include at least one primary source to provide the reader with a first person perspective. These range from excerpts of speeches given by famous African American figures to programs from the March on Washington. The remarkable stories collected here bear witness to the strength of a group of people who chose to survive and found ways to work collectively to force America to live up to the promise of its founding.

The A to Z of the Civil War and Reconstruction William L. Richter, 2009-07-24 The importance of the Civil War and Reconstruction in the history of the United States cannot be overstated. There was a very real possibility that the union could have been sundered, resulting in a very different American history and probably world history. But the union was held together by tough and determined leaders and by the economic muscle of the North. Following the end of the war, the period of American history known as Reconstruction followed. This was a period construed in many different ways. While the states were once again united, many of the postwar efforts divided different segments of the population and failed to achieve their goals in an era too often remembered for carpetbaggers and scalawags and Congressional imbroglios and incompetent government. This one volume dictionary with more than 800 entries covering the significant events, persons, politics, and economic and social themes in the U.S. Civil War and Reconstruction is a

research tool for all levels of readers from high school and up The extensive chronology introductory essay dictionary entries and comprehensive bibliography introduce and lead the reader through the military and non military actions of one of the most pivotal events in American history

our HBCUs Peter Thalheim,2024-07-25 It is fitting and proper that the United States dedicate solemnize and erect a memorial on our nation s most precious ground the Washington Mall in Washington District of Columbia to commemorate the slavery and human bondage that existed on these shores before and after the founding of the United States in 1776 and the drafting of our Constitution in 1787 Germany is the only major world military or economic power to have a memorial in its nation s capital to honor and commemorate a historic wrong committed by a nation In that case it was the Holocaust murder of over six million Jews during the regime of Adolf Hitler in 1933 1945 The United States is strong enough that she can erect a memorial to the inhumane treatment of people from the African continent whom were enslaved during the Trans Atlantic slave trade and the horrific treatment of such people and their offspring on these shores Such memorial should be located on the Washington Mall within view of the Lincoln Memorial as he was martyred by the Slave Power and also visible to the Jefferson Memorial as Thomas Jefferson penned the Declaration of Independence the most significant political document to that time declaring the truth that all are created equal and have certain inalienable rights and that among these are life liberty and the pursuit of happiness The Registry of Donors to the National Slavery Memorial has the potential to receive so many donations based on the goodwill of the American people exhibited in part in the aftermath of the killing of African American George Floyd in May 2020 Such donations would far outstrip the cost to design engineer and erect the memorial that these excess funds would be donated directly to our historically black colleges and universities a national treasure
