**The Invention of 'Folk Music' and 'Art Music'** Matthew Gelbart,2007-10-11 We tend to take for granted the labels we put to different forms of music This study considers the origins and implications of the way in which we categorize music

Whereas earlier ways of classifying music were based on its different functions for the past two hundred years we have been obsessed with creativity and musical origins and classify music along these lines Matthew Gelbart argues that folk music and art music became meaningful concepts only in the late eighteenth and early nineteenth centuries and only in relation to each other He examines how cultural nationalism served as the earliest impetus in classifying music by origins and how the notions of folk music and art music followed in conjunction with changing conceptions of nature and changing ideas about human creativity Through tracing the history of these musical categories the book confronts our assumptions about different kinds of music

Duncan Clark,2001 Sketches of classical composers and CD reviews **Rethinking Mendelssohn** Benedict Taylor Ph.D.,2020-04-15 As one of the foremost composers conductors and pianists of the nineteenth century Felix Mendelssohn played a fundamental role in the shaping of modern musical tastes through his contributions to the early music revival and the formation of the Austro German musical canon His career allows for a remarkable meeting point for critical engagement with a host of crucial issues in the last two centuries of music history including the relation between musical meaning and social function programmatic and absolute music notions of classicism and Romanticism modernism and historicism It also serves as a pertinent case study of the roles political ideology racism and musical ignorance may play in creating and perpetuating a composer s posthumous reception Fittingly Rethinking Mendelssohn focuses on critical engagement with the composer s music and aesthetics and on the interpretation of his works in relation to contemporaneous culture Building on the renaissance in Mendelssohn scholarship of the last two decades Rethinking Mendelssohn sets a fresh and exciting tone for research on the composer Opening new ways of understanding Mendelssohn and setting the future direction of Mendelssohn studies the contributing scholars pay particular attention to Mendelssohn s contested views on the relationship

between art and religion analysis of Mendelssohn's instrumental music in the wake of recent controversies in Formenlehre and the burgeoning interest in his previously neglected contribution to the German song     **The Blue Blanket** ,1912
