Scouting on Two Continents Frederick Russell Burnham, Mary Nixon Everett, 1926 [Scouting on Two Continents \(Illustrated\)](#) Frederick Russell Burnham, 2018-02-20 Frederick Burnham Russell was one of the greatest military scouts to have ever lived. Born on a Dakota Sioux reservation, he was taught the ways of the Native Americans from as soon as he could walk. At the tender age of fourteen, having had little formal education, he was supporting himself and learning from some of the last cowboys and frontiersmen of the Old West. These lessons would pay dividend in his later life, first as a tracker for the United States Army in the Apache Wars and later as a scout for the British Army in the Matabele Wars in Southern Africa. Frederick Burnham Russell was a remarkable figure who revolutionized the art of scouting in both the British and United States armies. Indeed, his influence would lead his friend Robert Baden Powell to begin the international Scouting Movement. In *Scouting on Two Continents*, Burnham records the details of his brilliant life in fascinating detail and provides insight into the life of a unique adventurer in the late nineteenth and early twentieth centuries. Burnham in real life is more interesting than any of my heroes of romance. Rider Haggard. Burnham is a most delightful companion, amusing, interesting, and most instructive. Having seen service against the Red Indians, he brings quite a new experience to bear on the Scouting work here. And while he talks away, there's not a thing escapes his quick roving eye, whether it is on the horizon or at his feet. Robert Baden Powell. Frederick Burnham Russell has been described as the Father of Scouting. He fought in the Pleasant Valley War, Apache Wars, the First and Second Matabele Wars, as well as the Second Boer War. His book *Scouting on Two Continents* was first published in 1926. He passed away in 1947.

Rhodes and Rhodesia Arthur Keppel-Jones, 1983 This volume deals with the conquest and colonization of Zimbabwe and the establishment of Southern Rhodesia from the beginnings of British involvement in Bechuanaland to the death of Cecil Rhodes Its emphasis is on the white invaders and its chief concern is white individuals their motives actions and influence on events The British South Africa Company and the irregularity of its financial and political operations are dealt with in detail Keppel Jones also discusses the development in the midst of the indigenous population of an alien white society and state from their crude beginnings to their emergence in a form still recognizable today The reader is led to conclude that by 1902 Southern Rhodesia was already set on the road that would lead to the upheavals of the second half of the twentieth century The author examines the racial consciousness and prejudice of the white society and addresses an important question why did the imperial government grant a royal charter to the BSA Company The facts show conclusively that the imperial government had little interest in Central Africa or care for its fate except when foreign competition appeared Keppel Jones also reveals the important role played by black troops employed by the Company in suppressing the rebellions of 1896-7 For opposite reasons neither blacks nor whites have been willing to recognize this on the other hand the habit of the men on the spot of making and carrying out decisions without regard to their superiors in London is a commonplace of imperial history One of the main themes of the book is the tension between the unofficial imperialists straining at the leash and the Colonial Office struggling to hold them back Rhodes and Rhodesia is based on extensive use of public records mainly in the Public Record Office London and the National Archives of Zimbabwe of collections of private papers and of contemporary published works Arthur Keppel Jones is professor emeritus of history at Queen's University Scouting on Two Continents Frederick Russell Burnham, 2004 **Sons of the Empire** Robert Macdonald, 2011-11-01 In Sons of the Empire Robert MacDonald explores popular ideas and myths in Edwardian Britain their use by Baden Powell and their influence on the Boy Scout movement In particular he analyses the model of masculinity provided by the imperial frontier the view that life in younger far flung parts of the empire was stronger less degenerate than in Britain The stereotypical adventurer the frontiersman provided an alternative ethic to British society The best known example of it at the time was Baden Powell himself a war scout the Hero of Mafeking in the South African war and one of the first cult heroes to be created by the modern media When Baden Powell founded the Boy Scouts in 1908 he used both the power of the frontier myth and his own legend as a hero to galvanize the movement The glamour of war scouting was hard to resist its adventures a seductive invitation to the first recruits But Baden Powell had a serious educational program in mind Boy Scouts were to be trained in good citizenship MacDonald documents his study with a wide range of contemporary sources from newspapers to military memoirs Exploring the genesis of an imperial institution through its own texts he brings new insight into the Edwardian age Americans in Africa 1865-1900 Clarence Clendenen, Robert Collins, Peter Duignan, **Valley of the Guns** Eduardo Obregón

Pagán,2018-10-11 In the late 1880s Pleasant Valley Arizona descended into a nightmare of violence murder and mayhem By the time the Pleasant Valley War was over eighteen men were dead four were wounded and one was missing never to be found Valley of the Guns explores the reasons for the violence that engulfed the settlement turning neighbors families and friends against one another While popular historians and novelists have long been captivated by the story the Pleasant Valley War has more recently attracted the attention of scholars interested in examining the underlying causes of western violence In this book author Eduardo Obregón Pagán explores how geography and demographics aligned to create an unstable settlement subject to the constant threat of Apache raids The fear of surprise attack by day and the theft of livestock by night prompted settlers to shape their lives around the expectation of sudden violence As the forces of progress strained natural resources conflict grew between local ranchers and cowboys hired by ranching corporations Mixed race property owners found themselves fighting white cowboys to keep their land In addition territorial law enforcement officers were outsiders to the community and approached every suspect fully armed and ready to shoot The combination of unrelenting danger its accompanying stress and an abundance of firearms proved deadly Drawing from history geography cultural studies and trauma studies Pagán uses the story of Pleasant Valley to demonstrate a new way of looking at the settlement of the West Writing in a vivid narrative style and employing rigorous scholarship he creatively explores the role of trauma in shaping the lives and decisions of the settlers in Pleasant Valley and offers new insight into the difficulties of survival in an isolated frontier community
