Cinematic Style Jess Berry,2022-01-27 From cinema s silent beginnings fashion and interior design have been vital to character development and narrative structure Despite spectacular technological advancements on screen stunning silhouettes and striking spaces still have the ability to dazzle to dramatic effect This book is the first to consider the significant interplay between fashion and interiors and their combined contribution to cinematic style from early film to the digital age With examples from Frank

Lloyd Wright inspired architecture in Hitchcock's *North by Northwest* to Coco Chanel's costumes for Gloria Swanson and a *Great Gatsby* film set turned Ralph Lauren flagship. Cinematic Style describes the reciprocal relationship between these cultural forms. Exposing the bleeding lines between fashion and interiors in cinematic and real life contexts, Berry presents case studies of cinematic styles adopted as brand identities and design movements promoted through filmic fantasy. Shedding light on consumer culture, social history and gender politics as well as on fashion film and interior design theory, Cinematic Style considers the leading roles domestic spaces, quaint cafes, little black dresses and sharp suits have played in 20th and 21st century film.

Dancing in the Dark: A Cultural History of the Great Depression Morris Dickstein, 2010-09-06. From Agee to Axtell, Steinbeck to Ellington, the creative energies of the Depression against a backdrop of poverty and economic disaster. In this timely and long awaited cultural history of the 1930s, Morris Dickstein, whom Norman Mailer called one of our best and most distinguished critics of American literature, explores the anxiety and hope, the despair and surprising optimism of distressed Americans at a time of dire economic dislocation. Bringing together a staggering range of materials from epic Dust Bowl migrations and sharecropper photographs to zany screwball comedies, wildly popular swing bands and streamlined Deco designs, this eloquent work highlights the pivotal role of culture and government intervention in hard times. Exploding the myth that Depression culture was merely escapist, it concentrates instead on the dynamic energy and insight the arts could provide and the enormous lift they gave to the nation's morale. *Dancing in the Dark* shows how our worst economic crisis, as it eroded American individualism and punctured the American dream, produced some of the greatest writing, photography and mass entertainment ever seen in this country.

City That Never Sleeps Murray Pomerance, 2007-05-01 New York more than any other city has held a special fascination for filmmakers and viewers In every decade of Hollywood filmmaking artists of the screen have fixated upon this fascinating place for its tensions and promises dazzling illumination and fearsome darkness The glittering skyscrapers of such films as *On the Town* have shadowed the characteristic seedy streets in which desperate passionate stories have played out as in *Scandal Sheet* and *The Pawnbroker* In other films the city is a cauldron of bright lights technology empire egotism fear hunger and change the scenic epitome of America in the modern age From *Street Scene* and *Breakfast at Tiffany's* to *Rosemary's Baby* *The Warriors* and *25th Hour* the sixteen essays in this book explore the cinematic representation of New York as a city of experience as a locus of ideographic characters and spaces as a city of moves and traps and as a site of allurements and danger Contributors consider the work of Woody Allen Blake Edwards Alfred Hitchcock Gregory La Cava Spike Lee Sidney Lumet Vincente Minnelli Roman Polanski Martin Scorsese Andy Warhol and numerous others

Production Design & the Cinematic Home Jane Barnwell, 2022-05-10 This book uses in depth case studies to explore the significance of the design of the home on screen The chapters draw widely upon the production designer's professional perspective and particular creative point of view The case studies employ a methodology Barnwell has pioneered for the analysis of production design called Visual Concept Analysis which can be used as a key to decode the design of any given film Through the nurturing warmth of the Browns home in Paddington the ambiguous boundaries of secret service agent homes in *Tinker Tailor Soldier Spy* and the singleton space occupied by Bridget Jones Barnwell demonstrates that the domestic interior consistently plays a key role Whether used as a transition space an ideal a catalyst for change or a place to return to these case studies examine the pivotal nature of the home in storytelling and the production designers significance in its creation The book benefits from interviews with production designers and artwork that provides insight on the creative process
