Screen World 1996:

The Virtual Window Anne Friedberg, 2009-02-13 From the Renaissance idea of the painting as an open window to the nested windows and multiple images on today's cinema television and computer screens a cultural history of the metaphoric literal and virtual window As we spend more and more of our time staring at the screens of movies televisions computers and handheld devices windows full of moving images texts and icons how the world is framed has become as important as what is in the frame In The Virtual Window Anne Friedberg examines the window as metaphor as architectural component and as an opening to the dematerialized reality we see on the screen In De pictura 1435 Leon Battista Alberti famously instructed painters to consider the frame of the painting as an open window Taking Alberti's metaphor as her starting point Friedberg tracks shifts in the perspectival paradigm as she gives us histories of the architectural window developments in glass and transparency and the emerging apparatuses of photography cinema television and digital imaging Single point perspective Alberti's metaphorical window has long been challenged by modern painting modern architecture and moving image technologies And yet notes Friedberg for most of the twentieth century the dominant form of the moving image was a single image in a single frame The fractured modernism exemplified by cubist painting for example remained largely confined to experimental avant garde work On the computer screen however where multiple windows coexist and overlap perspective may have met its end In this wide ranging book Friedberg considers such topics as the framed view of the camera obscura Le Corbusier's mandates for the architectural window Eisenstein's opinions on the shape of the movie screen and the multiple images and nested windows commonly displayed on screens today The Virtual Window proposes a new logic of visibility framed and virtual an architecture not only of space but of time *Screen Digest*, 2003 Hollywood Surf and Beach Movies Thomas Lisanti, 2015-05-07 Surfers loathed them teenagers flocked to them critics dismissed them producers banked on them surf and beach movies For a short time in the 1960s they were extremely popular with younger audiences mainly because of the shirtless surfer boys and bikini clad beach girls the musical performers and the wild surfing footage This lavishly illustrated filmography details 32 sizzling fun in the sun teenage epics from Gidget to the Beach Party movies with Frankie and Annette to The Sweet Ride plus a few offshoots in the snow Entries include credits plot synopses memorable lines reviews and awards and commentary from such as Aron Kincaid of The Girls on the Beach Susan Hart of The Ghost in the Invisible Bikini Peter Brown of Ride the Wild Surf Chris Noel of Beach Ball and Ed Garner of Beach Blanket Bingo Biographies of actors and leading actresses who made their marks in the genre are included **Comprehensive Pictorial and Statistical Record of the 1994 Movie Season** John Willis, Barry Monush, 2000-02-01 Screen World Movie fans eagerly await each year's new edition of Screen World the definitive record of the cinema since 1949 Volume 46 provides an illustrated listing of American and foreign films released in the United States in 1994 all documented in more than 1 000 photographs It features such notable films as Forrest Gump The Shawshank Redemption Blue Sky Clear and Present Danger

Gordon,2003-01-21 Screen Savors studies how the self of whites is imagined in Hollywood movies by white directors featuring white protagonists interacting with people of another color This collaboration by a sociologist and a film critic using the new perspective of critical white studies offers a bold and sweeping critique of almost a century s worth of American film from Birth of Nation 1915 through Black Hawk Down 2001 Screen Savors studies the way in which the social relations that we call race are fictionalized and pictured in the movies It argues that films are part of broader projects that lead us to ignore or deny the nature of the racial divide in which Americans live Even as the images of racial and ethnic minorities change across the twentieth century Hollywood keeps portraying the ideal white American self as good looking powerful brave cordial kind firm and generous a natural born leader worthy of the loyalty of those of another color The book invites readers to conduct their own analyses of films by showing how this can be done in over 50 Hollywood movies Among these are some films about the Civil War Birth of a Nation Gone with the Wind and Glory some about white messiahs who rescue

people of another color Stargate To Kill a Mockingbird Mississippi Burning Three Kings and The Matrix the three versions of Mutiny on the Bounty 1935 1962 and 1984 and interracial romance Guess Who's Coming to Dinner Forty years of Hollywood fantasies of interracial harmony from The Defiant Ones and In the Heat of the Night through the Lethal Weapon series and Men in Black are examined This work in the sociology of knowledge and cultural studies relates the movies of Hollywood to the large political agendas on race relation in the United States Screen Savors appeals to the general reader interested in the movies or in race and ethnicity as well as to students of communication American studies critical white studies American film cultural studies and the sociology of race relations *Page to Screen* Ilana Snyder, 2003-09-02 Hypertext e mail word processing electronic technologies have revolutionized textual practices How does language on screen work differently from language on the page What new literacy skills are needed and how do we teach them Page to Screen collects some of the best contemporary thinkers in the field of technology and literacy They analyze the potential of the new forms of text the increased emphasis on visual communication new forms of rhetoric learning in the age of global communication networks and new approaches to storytelling Page to Screen is compelling reading for anyone interested in Literacy Education Language Studies English Library Studies Multimedia and Communication Studies International contributors include Gunther Kress Cynthia Selfe Gail E Hawisher and Colin Lankshear [Video and DVD Industries](#) Paul McDonald, 2019-07-25 When the videocassette recorder was launched on the consumer market in the mid 1970s it transformed home entertainment Bringing together complementary but also competing interests from the consumer electronics industry and the film television and other copyright industries video created a new sector of media business Two decades later DVD reinvented video media for the digital age DVD provided consumers with an innovative form of entertainment technology and almost instantaneously became the catalyst for a huge boom in the video market Although the VCR and DVD created major markets for video hardware and software the video business has been continually shaped by industry conflicts and tensions Repeatedly the video market has become divided when faced with the introduction of competing formats Easy reproduction of films and other works on cassette or disc made video software a lucrative market for the copyright industries but also intensified struggles to combat the effects of commercial piracy Video and DVD Industries examines the business of video entertainment and provides the first study looking at DVD from an industrial perspective Detailing divisions in the video business the book outlines industry battles over incompatible formats from the Betamax VHS war to competing laserdisc systems alternatives such as video compact disc or Digital Video Express and the introduction of HDDVD and Blu ray high definition systems Chapters also look at the formation of international markets in the globalization of video media the contradictory responses of the Hollywood studios to video and DVD and the legal and technological measures taken to control industrialized video piracy [Masculinities, Violence and Culture](#) Suzanne E.
