Journeying The Tightrope Edna Maher, **The Metaphysics of Death** John Martin Fischer, 1993 This collection of seventeen essays deals with the metaphysical as opposed to the moral issues pertaining to death For example the authors investigate among other things the issue of what makes death a bad thing for an individual if indeed death is a bad thing This issue is more basic and abstract than such moral questions as the particular conditions under which euthanasia is justified if it is ever justified Though there are important connections between the more abstract questions addressed in this book and many contemporary moral issues such as euthanasia suicide and abortion the primary focus of this book is on metaphysical issues concerning the nature of death What is the nature of the harm or bad involved in death If it is not pain what is it and how can it be bad Who is the subject of the harm or bad if the person is no longer alive how can he be the subject of the bad An if he is not the subject who is Can one have harm with no subject When does the harm take place Can a harm take place after its subject ceases to exist If death harms a person can the harm take place before the death occurs If death can be a bad thing would immortality be a desirable alternative This family of questions helps to frame the puzzle of why and how death is bad Other subjects addressed include the Epicurean view that death is not a misfortune for the person who dies the nature of misfortune and benefit the meaningfulness and value of life and the distinction between the life of a person and the life of a living creature who is not a person There is an extensive bibliography that includes science fiction treatments of death and immortality *The Complete Non-Fiction Writings of Mark Twain: Old Times on the Mississippi + Life on the Mississippi + Christian Science + Queen Victoria's Jubilee + My Platonic Sweetheart + Editorial Wild Oats* Mark Twain, 2022-05-31 In The Complete Non Fiction Writings of Mark Twain readers encounter the multifaceted nature of Twain's prose encapsulating essays travel writing and critiques that reflect the zeitgeist of 19th century America Noteworthy pieces such as Old Times on the Mississippi evoke vivid recollections of Twain's youth as a steamboat pilot blending nostalgia with sharp commentary on societal changes Moreover his exploration in works like Christian Science showcases his satirical genius dissecting the spiritual movements of his era with wit and candor Each piece is characterized by Twain's distinctive narrative voice conversational yet incisive making this compilation a significant contribution to literary non fiction shedding light on cultural and moral dilemmas of his time Mark Twain born Samuel Clemens was a keen observer of society deeply influenced by his experiences along the Mississippi River and his encounters with diverse facets of American life His eclectic

background from riverboat pilot to gold prospector imbued him with a unique perspective on human folly and virtue Twain's work reflects his commitment to social justice and his critique of hypocrisy which ultimately drives the engaging narratives found within this anthology His identity as a humorist and social commentator forms the bedrock for these non-fiction writings revealing his depth beyond the beloved fictional tales This comprehensive collection is indispensable for readers seeking to understand Twain's literary evolution and social consciousness Whether you are a longtime admirer or a newcomer to Twain's work this anthology invites you to explore the rich tapestry of his thoughts providing insights into both his time and the enduring human condition Dive into his non-fiction and witness the brilliance of one of America's greatest literary figures

Endings Michael C. Kearl, 1989 Arguing that death is the central force shaping our social life and order the author draws on a wide variety of disciplines to provide a broad sociological perspective on the interrelationships of life and death

Life, Death, and Meaning David Benatar, 2010-01-16 Do our lives have meaning Should we create more people Is death bad Should we commit suicide Would it be better to be immortal Should we be optimistic or pessimistic Since Life Death and Meaning Key Philosophical Readings on the Big Questions first appeared David Benatar's distinctive anthology designed to introduce students to the key existential questions of philosophy has won a devoted following among users in a variety of upper level and even introductory courses While many philosophers in the continental tradition those known as existentialists have engaged these issues at length and often with great popular appeal English speaking philosophers have had relatively little to say on these important questions Yet the methodology they bring to philosophical questions can and occasionally has been applied usefully to existential questions This volume draws together a representative sample of primarily English speaking philosophers' reflections on life's big questions divided into six sections covering 1 the meaning of life 2 creating people 3 death 4 suicide 5 immortality and 6 optimism and pessimism These key readings are supplemented with helpful introductions study questions and suggestions for further reading making the material accessible and interesting for students In short the book provides a singular introduction to the way that philosophy has dealt with the big questions of life that we are all tempted to ask
