Crafting Identities, Remapping Nationalities Cécile Coquet-Mokoko,Trevor Harris,2011-12-08 In the different versions of multiculturalism that have re shaped English speaking societies and political systems identities appear more plastic than in societies which have constructed their national narratives on more stubborn denials of their colonial and patriarchal pasts yet the myth of purity or authenticity and separatist temptations remain very real parameters of identity politics In such contexts crafting an identity for oneself implies expectations of consistency linked not only to the individual need to prove oneself and disprove stereotypes and statistics but also to the broader political goal of dis alienating or as it were de Othering oneself and one s community The contributors to this book explore the different ways from the most institutional to the most intimate in which people articulate the politics of memory and the creation of national narratives or communal and personal identities

Consent in the Presence of Force Emily A. Owens,2022-12-06 In histories of enslavement and in Black women s history coercion looms large in any discussion of sex and sexuality At a time when sexual violence against Black women was virtually unregulated even normalized a vast economy developed specifically to sell the sexual labor of Black women In this vividly rendered book Emily A Owens wrestles with the question of why white men paid notoriously high prices to gain sexual access to the bodies of enslaved women to whom they already had legal and social access Owens centers the survival strategies and intellectual labor of Black women enslaved in New Orleans to unravel the culture of violence they endured in which slaveholders obscured the presence of force with arrangements that included gifts and money Owens s storytelling highlights that the classic formulation of rape law that requires the presence of force and the absence of consent to denote a crime was in fact a key legal fixture that packaged predation as pleasure and produced rather than prevented violence against Black women Owens dramatically reorients our understanding of enslaved women s lives as well as of the nature of violence in the entire venture of racial slavery in the U S South Unsettling the idea that consent is necessarily incompatible with structural and interpersonal violence this history shows that when sex is understood as a transaction women are imagined as responsible for their own violation

Spirit, Faith and Church Laurence Lux-Sterritt, Claire Sorin, 2011-10-18 Contradictions are legion when it comes to women and spirituality In Christian cultures the worth of the female sex is highly ambivalent since virginity and motherhood are construed respectively as badges of purity and fruitfulness whilst the biological processes which underlie them are considered taboo or impure Throughout history women are in turn represented as inferior defective creatures or as privileged empty vessels in their relationship with the divine This polarized conception of woman has influenced the way in which religious institutions learned writers or indeed women themselves consider the female personal and collective relationship with the supernatural with the divine and with the institutions which represent it Through eleven original essays this volume questions how women from the English speaking world have negotiated their roles in the spiritual and religious spheres From early modern Catholics and Puritan groups to twenty first century nuns Anglican ministers and Mormons how did women define their roles in male dominated institutions How did they react to the public perceptions of their bodies as either incompatible with or facilitating access to the divine The questions at the core of this book hinge upon the articulation between the female self body and soul and its experience of the preternatural of faith and of institutionalized groups Are there specific forms of female spirituality and do they lead to a feminized feminist conception of God

Rape and Resistance Linda Martín Alcoff, 2018-05-29 Sexual violence has become a topic of intense media scrutiny thanks to the bravery of survivors coming forward to tell their stories But unfortunately mainstream public spheres too often echo reports in a way that inhibits proper understanding of its causes placing too much emphasis on individual responsibility or blaming minority cultures In

this powerful and original book Linda Martin Alcoff aims to correct the misleading language of public debate about rape and sexual violence by showing how complex our experiences of sexual violation can be Although it is survivors who have galvanized movements like MeToo when their words enter the public arena they can be manipulated or interpreted in a way that damages their effectiveness Rather than assuming that all experiences of sexual violence are universal we need to be more sensitive to the local and personal contexts who is speaking and in what circumstances that affect how activists and survivors protests will be received and understood Alcoff has written a book that will revolutionize the way we think about rape finally putting the survivor center stage

Speaking of Rape Danielle Tumminio Hansen, 2024 Rape survivors need words to recover and tell their stories But the words available often fail to describe their experiences which isolates and silences them enables future perpetration and lets rape remain unacknowledged Tumminio Hansen offers fresh ways of speaking and listening that reframe how we can describe discuss and address rape

At the Dark End of the Street Danielle L. McGuire, 2011-10-04 Here is the courageous groundbreaking story of Rosa Parks and Recy Taylor a story that reinterprets the history of America's civil rights movement in terms of the sexual violence committed against Black women by white men An important step to finally facing the terrible legacies of race and gender in this country The Washington Post Rosa Parks was often described as a sweet and reticent elderly woman whose tired feet caused her to defy segregation on Montgomery's city buses and whose supposedly solitary spontaneous act sparked the 1955 bus boycott that gave birth to the civil rights movement The truth of who Rosa Parks was and what really lay beneath the 1955 boycott is far different from anything previously written In this groundbreaking and important book Danielle McGuire writes about the rape in 1944 of a twenty four year old mother and sharecropper Recy Taylor who strolled toward home after an evening of singing and praying at the Rock Hill Holiness Church in Abbeville Alabama Seven white men armed with knives and shotguns ordered the young woman into their green Chevrolet raped her and left her for dead The president of the local NAACP branch office sent his best investigator and organizer Rosa Parks to Abbeville In taking on this case Parks launched a movement that exposed a ritualized history of sexual assault against Black women and added fire to the growing call for change
