Longterm Scenario Study Of The World Economy 19902015:

A Long-term Scenario Study of the World Economy, 1990-2015 Netherlands. Centraal Planbureau, 1992 Presents four scenarios based on the comparative strength of economic development in particular countries or country groups

Scenario Studies for the Rural Environment Job F.Th. Schoute, Peter A. Finke, Frank R. Veeneklaas, Henk P.

Wolfert, 2012-12-06 Rural areas need to fulfil a large variety of functions and to accommodate many activities The complexity of the problems limited funds and the almost irreversible character of some interventions result in a compelling need to evaluate ex ante the effects of alternative solutions for designation of land for measures to develop infrastructure and for soil and water management Scenario studies are undertaken to help manage the complexity to place bounds on uncertainties and to create new visions After an overview of the nature variety and scope of scenario studies the book illuminates various European examples and reviews under the following headings regional soil and water management nature development and landscape quality rural planning and the future of regions

Economy—Energy—Environment Simulation K. Uno, 2005-12-08 In the policy arena as well as in the academic world a new challenge is having to deal with the global community We are increasingly aware that the world is linked through economy energy environment interactions We are increasingly aware at the same time that the emergence of the global community does not imply an integrated harmonious world rather it is a community where co tries regions of different interests and values face each other directly Global governance has to be achieved through actions of national governments under different motives and constraints We need to have an analytical tool that is capable of

producing a global picture yet with detailed country resolution If the world is a better place now compared to 100 years ago in terms of p capita income this is due to the industrialization that continued throughout the 20th century We entered the 21st century knowing that the human aspiration that translates into ever increasing production may not be tenable in the long run Sustainability of the global community is at stake In contrast to inc mental decision making through the market mechanism that should lead to some optimal state under some assumptions such as perfect knowledge smooth movement of resources no externalities and so forth we need to have an a lytical tool to provide us with details of the future state of the world
