Looking Forward Michael Albert, Robin Hahnel, 1991 How work can be organized efficiently and productively without hierarchy how consumption could be fulfilling and also equitable and how participatory is planning could promote solidarity and foster self management *A Socialism for the Twenty-First Century* Tony Smith, 2025-07-10 Marx called for a society where the ruling principle is the full and free development of every individual Capitalism neither is nor can be such a society Domination worsening ecological crises and many other pathologies are its intrinsic features not bugs that can be corrected But is there truly a better way to organize society And if we can imagine one can we be confident it could be put into practice The answer to both questions is an emphatic Yes This book makes the case It describes in detail a workable model of republican socialism a vision of socialism worth fighting for **21st Century Capitalism** Robert L. Heilbroner, 1994-08-17 It is my hope that some grasp of what the twenty first century holds in store for capitalism may enable us to avoid at least some of the pain we might otherwise have to endure writes the eminent economist Robert Heilbroner in this important book on the world's economic future Although communism lies shattered almost everywhere it once existed no single form of capitalism has emerged worldwide Which of the varieties of capitalism will be hardy enough to survive into the next century Will the private sector make way for government to redress the failures of the market system Does the defeat of the socialist vision portend that unbridled acquisitiveness will dominate the world In tackling these questions Heilbroner takes us to the roots of capitalist society He views capitalism from a wide angle as both an economic system and a political order showing the integral connections between the two that are often overlooked finally he addresses the overarching challenge ahead a society that no longer believes in the inevitability of progress **Beyond Digital Capitalism: New Ways of Living** Leo Panitch, Greg Albo, 2020-12-29 Essays that explore new ways of living with technological change Every year since 1964 the Socialist Register has offered a fascinating survey of movements and ideas from the independent new left This year's edition asks readers to explore just how we need to live with new technologies Essays in this 57th Socialist Register reveal the contradictions and dislocations of technological change in the twenty first century And they explore alternative ways of living from artificial intelligence AI to the arts from transportation to fashion from environmental science to economic planning Greg Albo Post capitalism Alternatives or detours Nicole Aschoff and Pankaj Mahta AI ideology Science capitalism and the dream of a people's AI Hugo Radice There is nothing artificial about AI Labour class utopia socialism Larry Lohman Interpretation machines Contradictions of digital mechanization in twenty first century capitalism Robin Hahnel Democratic socialist planning Against with and beyond the new technologies Tanner Mirrlees Platform socialists in the age of digital capitalism Derek Hrynshyn Imagining information socialism Bryan Palmer Capitalism and the clock Time's meaning in the struggle for socialism Sean Sweeney and John Treat Shifting gears Labour strategies for low carbon public transit mobility Adam Greenfield Smart cities technological traps democratic possibilities Christoph Hermann The consequences of

commodification Contours of a post capitalist society Joan Sangster The surveillance of service labour Conditions and possibilities of resistance Jeronimo Montero Bressan Beyond neoliberal fashion Imagining clothing production as a human need Massimiliano Mollona Art Commons Art collectives and the post capitalist imagination Ingar Solty The world of tomorrow Scenarios for our future between demise and hope
