Artificial Culture Tama Leaver, 2011-12-22 Artificial Culture is an examination of the articulation construction and representation of the artificial in contemporary popular cultural texts especially science fiction films and novels The book argues that today we live in an artificial culture due to the deep and inextricable relationship between people our bodies and technology at large While the artificial is often imagined as outside of the natural order and thus also beyond the realm of humanity paradoxically artificial concepts are simultaneously produced and constructed by human ideas and labor The artificial can thus act as a boundary point against which we as a culture can measure what it means to be human Science fiction feature films and novels and other related media frequently and provocatively deploy ideas of the artificial in ways which the lines between people our bodies spaces and culture more broadly blur and at times dissolve Building on the rich foundational work on the figures of the cyborg and posthuman this book situates the artificial in similar terms but from a nevertheless distinctly different viewpoint After examining ideas of the artificial as deployed in film novels and other digital contexts this study concludes that we are now part of an artificial culture entailing a matrix which rather than separating minds and bodies or humanity and the digital reinforces the symbiotic connection between identities bodies and technologies

New Zealand with a Hobbit Botherer John Gisby, 2005-01-01

What should you do if your spouse becomes addicted to the Lord of the Rings movies and swoons at the very mention of Orlando Bloom's name? Thud! Quick! Fetch the smelling salts! How about taking the advice of a strange apparition that reveals itself in a dream? An apparition that looks remarkably like the director of the movies Peter Jackson but not quite remarkably enough to prompt legal action. An apparition that recommends touring New Zealand in an effort to prove that its sheep pastures aren't really filled by frolicking Hobbits. Just sheep and the occasional zorbing local. This is the hilarious tale of such a tour featuring snow-capped mountains and turquoise lakes, flightless birds and flying cattle, bungee jumping grannies and the carrot mafia, strange yellow eyes peering up from a road map and hotel receptionists always desperate to know where you are living.

Fantasy Freaks and Gaming Geeks Ethan Gilsdorf, 2010-09-01

An amazing journey through the thriving worlds of fantasy and gaming. What could one man find if he embarked on a journey through fantasy world after fantasy world? In an enthralling blend of travelogue, pop culture analysis and memoir, forty-year-old former D.D. addict Ethan Gilsdorf crisscrosses America, the world and other worlds from Boston to New Zealand and Planet Earth to the realm of Aggramar. For anyone who has ever spent time within imaginary realms, the book will speak volumes. For those who have not, it will educate and enlighten. Wired.com: Gandalf's got nothing on Ethan Gilsdorf except for maybe the monster white beard. In his new book *Fantasy Freaks and Gaming Geeks*, Gilsdorf offers an epic quest for reality within a realm of magic. Boston Globe: Imagine this: Lord of the Rings meets Jack Kerouac's *On the Road*. National Public Radio's *Around and About*: What does it mean to be a geek? *Fantasy Freaks and Gaming Geeks* tackles that question with strength and dexterity: part personal odyssey, part medieval mid-life crisis and part wide-ranging survey of all things freaky and geeky. Playful, funny and poignant. It's a fun ride and it poses a question that goes to the very heart of fantasy: namely, What does the urge to become someone else tell us about ourselves? The Making of... Adaptation and the Cultural Imaginary Jan Cronin, 2019-11-25

This book explores *Making of* sites as a genre of cultural artefact. Moving beyond *making of* documentaries, the book analyses novels, drama, film, museum exhibitions and popular studies that represent the making of culturally loaded film adaptations. It argues that the *Making of* genre operates on an adaptive spectrum, orienting towards and enacting the adaptation of films and their making. The book examines the behaviours that characterise *Making of* sites across visual media; it explores the cultural work done by these sites; why recognition of *Making of* sites as adaptations matters; and why our conception of adaptation matters. Part one focuses on the adaptive domain presented by the *Making of* John Ford's *The Quiet Man*. Part two attends to *Making of* *Gone with the Wind* sites and concludes with *Making of* *The Lord of the Rings* texts as the acme of the cultural risks and investments charted in earlier chapters.
