L'origine de l'Internationale communiste Jules Humbert-Droz, De Krieg und Internationale.", 1968 L' origine de l' internationale communiste Jules Humbert, 1968 Bibliography of the Communist International (1919-1979) Vilem Kahan, 2023-08-14 Until now the Communist movement has been studied more from the national perspective than the international This scholarly tradition seems to be at odds with the organisatorial interconnection even subjugation of the national communist parties sections to the Communist International or Comintern 1919 1943 but it is understandable from the point of view of the historian who has only national sources at his disposal newspapers brochures interviews Nowadays the tendency is for the international component of the Communist movement to participate in research The archives of the Comintern are gradually being released by the Soviet Union and an enormous number of official publications is emerging and being made available in libraries by reprints Here Vil m Kahan's bibliography is an indispensable tool in listing nearly all reference works and publications by and on the Comintern and in giving a list of aliases of speakers on Comintern meetings and an overview of all agendas of the meetings These lists are based on research in 14 specialised Western libraries and on the knowledge of a dozen European languages The second volume will deal with the front organisations a third and last volume with the national sections L'origine de l'Internationale communiste Jules Humbert-Droz,1968 L'origine de l'Internationale communiste Jules Humbert-Droz, 1968 The Russian Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state Alphonse Merrheim N. Papayanis, 2012-12-06 This is apoliticalbiography of Alphonse Merrheim asignificant leader of the Conf6d6ration G6n6raledu Travail CGT in the years between 1904 and 1923 and the most important member of the Federation of Metalworkers during the same period Hewas born in the Nord in 1871 and became aworker at an early age first in metallurgy than intextiles and finally once more in metalworking In his ideological evolution hepassed through associalist political party and then converted to revolutionarys dicalism In his peculiar fusion of theory and practice Merrheim represented a form of revolutionary syndicalism that helps define the characteristics of that movement He believed alongwithother revo tionary syndicalists that one day a workers general strike would ov throw capitalism But the syndicalist movement would prepare that ev tuality by strengthening the workers through

socialreforms and by creating their class consciousness through education Merrheim however p ticipated so thoroughly intradeunionactivityandstudiedtheorganization of capitalistindustry so carefullythat he cametoemphasizetheprepa tions for such a general strike much more than the strike itself. The test of his attitude came on the eve of during and immediately afterWorld War I for contrary to the demands of certain militant and revolutionary workers who believed that the threat of war and then the dislocation caused by the war demanded a revolutionary response Merrheim persistently stressed the dangers of such anaction before the adequate preparation of the workers Hissteadfast refusal eventores pond to the strike actions of some ofhisown metalworkers in 1919 indicates the central contradiction between hisrevolutionary theory and reformist practice This book examines indetail Merrheim sevolution from a revolutionary to a reformer Insodoing it also shed slight on an equally substantial topic namely how a certain type of worker responded to industrialization in the late nineteenth and earlytwentiethcenturies Merrheim is an interesting figure too becauseofhispositioninthelabormovement for itrepresents a unique focal point for the study of laborhistory Merrheim entered the Frenchlabormovement in the 1890s and remainedactive inituntil 1923 During that periodhewas successively alocalunion leader co secretary xii of a nationallaborfederation and animportant figure within the CGT Never these cretary general of the CGT hewasneverthelesstheconfident of thesecretary general from 1909 L6on Jouhaux When the Soviet Union Entered World Politics [on Jacobson, 2023-11-15 The dissolution of the Soviet Union has aroused much interest in the USSR's role in world politics during its 74 year history and in how the international relations of the twentieth century were shaped by the Soviet Union Ion Jacobson examines Soviet foreign relations during the period from the end of the Civil War to the beginning of the first Five Year Plan focusing on the problems confronting the Bolsheviks as they sought to promote national security

la Su de moderne **Stalin** Ronald Grigor Suny, 2022-03-29 This biography of the young Stalin is more than the story of how a revolutionary was made it is the first serious investigation using the full range of Russian and Georgian archives to explain Stalin's evolution from a romantic and idealistic youth into a hardened political operative Suny takes seriously the first half of Stalin's life his intellectual development his views on issue of nationalities and nationalism and his role in the Social Democratic debates of the late nineteenth and early twentieth centuries This book narrates an almost tragic downfall we see Stalin transform from a poor provincial seminarian who wrote romantic nationalist poetry into a fearsome and brutal ruler Many biographers of Stalin turn to shallow psychological analysis in seeking to explain his embrace of revolution focusing on the beatings he suffered at the hands of his father or his hero worship of Lenins or sensationalizing Stalin's involvement in violent activity Suny seeks to show Stalin in the complex context of the oppressive tsarist police state in which he lived and debates and party politics that animated the revolutionary circles in which he moved Though working from fragmentary evidence from disparate sources Suny is able to place Stalin in his intellectual and political context and reveal not only a different analysis of the man's psychological and intellectual transformation but a revisionist history of the revolutionary movements themselves before 1917 Catalog of Foreign Books & Microfilms in the Possession of the Library of the Faculty of Economics, the University of Tokyo Tōkyō Daigaku.
