Nurse, 1892 **Truths for the People** John Hunter Rutherford, 1852 **In & Oz** Steve Tomasula, 2020-03-04 An absorbing literary experiment by the McSweeney's contributor and Mary Shelly Award winning author of *TOC* A New Media Novel Steve Tomasula is a novelist like no other his experiments in narrative and design have won him a loyal following as well as a number of awards Exemplifying Tomasula's style IN and OZ which reflects the desire for somewhere better As the residents of each place strive to fill the void in their lives through a variety of media music language dirt light and automobiles their stories begin to converge Tackling class relations art commerce and language Tomasula illumines our own world while lucidly building his own IN a novel not only for fiction lovers but also for artists of all stripes **The Blind in History and Society: Wisdom vs. Despair** Mehmet Emin Demirci, This book will examine all aspects of the relationship between the blind and the rest of society within the framework of the attitudes that represent a most productive area of social psychology The reader will learn that historic figures did not consider their blindness a hindrance to their achievements be they famous literary personalities or Nobel Prize Laureate The lives of outstanding blind persons such as Democritus al Maarri D hring Rodrigo Dal n Borges Ostrovsky and even Ray Charles will be examined while placing blindness and the blind at the center of social relationships utilizing rich historical presentations and comprehensive analysis This book will be of interest to many professionals educators historians social scientists and general readers *You: Staying Young* Michael F. Roizen, Mehmet Oz, 2007-10-30 The body is the most fascinating machine ever created and nobody talks about it in ways that are as illuminating and compelling as Dr Michael Roizen and Dr Mehmet Oz Most people think of the aging of our bodies the same way we think of the aging of our cars the older we get the more inevitable it is that we're going to break down Most of us believe that at age 40 or so we begin the slow and steady decline of our minds our eyes our ears our joints our arteries our libido and every other system that affects the quality of life and how long we live it But according to Dr Roizen and Dr Oz that's a mistake Aging isn't a decline in our systems It's actually very purposeful The very systems and biological processes that age us are designed to help us when we're a little bit younger So what's our role as part of the aging population To learn how those systems work so we can reprogram them to work the way they did when we were younger Your goal should be die young at any age That means you live a high quality of life with everything from working joints to working genitals until the day you die At the core of this landmark book are the Major Agers 14 biological processes

that control your rate of aging Some you ve heard of some you haven t and some you never knew contributed to the aging process Some speed decline others inhibit your repair mechanisms These Major Agers are everything from short telomeres and inefficient mitochondria to stem cells and wacky hormones The doctors explain the principles of longevity and many of the causes of aging and how to fight the effects The climax of the book is a 14 day plan to help you along your path to staying young The doctors want you to be able to integrate important processes into your daily life in order to make staying young routine but first you ll need to measure your real age and health right now Staying young encompasses your emotions and mental health as well as your exercise habits eating habits personal hygiene and genes among other things Wouldn t you like to know how to prevent your body from aging badly The original YOU book showed how bodies work in general and YOU On a Diet explained how bodies lose weight and stay fit Now in YOU Staying Young Drs Michael Roizen and Mehmet Oz illuminate the mysterious mechanisms with a lively metaphor the modern city What differentiates a vibrant and thriving city that ages gracefully from one that is worn down and rusted out Despite genetic differences which are like the geography upon which the city is built cities age differently because of the way residents treat their education system stem cells power plants mitochondria electrical grids brains transportation routes blood vessels and landfills fat You as mayor resident and street cleaner have the power to balance your biological budget to ensure a life that s both long and strong Thankfully just as cities can invest in renewal and improving their repair processes so can you YOU Staying Young is filled with signature YOU Tools including YOU Tests YOU Tips and visual and verbal metaphors to bring the science to life **Eyes and eyesight**

Owen Jones,2024-03-18 From the dawn of vision correction with the advent of eyeglasses to the revolutionary advancements in Lasik surgery and beyond this exploration traverses the evolution of techniques that enhance and restore our eyesight Alongside conventional methods like contact lenses and glasses we will navigate through modern innovations that hold the promise of reshaping the landscape of vision correction But this book goes beyond the physical mechanisms of eyesight It unravels the tapestry of ocular health addressing contemporary issues preventative measures and emerging technologies that not only correct vision but also contribute to the holistic well being of our eyes Join me on this captivating expedition into the realm of eyes and eyesight where science technology and the innate wonder of our sensory perception converge Together let s embark on a comprehensive exploration that celebrates the intricate symphony of our eyes as they reveal the world outside a world that unfolds before us vibrant detailed and filled with infinite possibilities Translator Owen Jones PUBLISHER TEKTIME **Vision Impairment** Michael Crossland,2024-02-01 What is it like to go blind 350 million people

around the world live with severe vision impairment ranging from those who can see a couple of letters on a sight chart to those who perceive no light at all In this book we meet some of them including artists poets scientists architects politicians broadcasters and musicians Together we discuss every stage of life with vision impairment from childhood and education to dating employment and ageing as well as the portrayal of blind people in literature and film the use of technology by people

with vision impairment and the psychological effects of losing vision Vision Impairment also reviews the major causes of sight loss today and shows the effect of these diseases on visual function It surveys new and emerging treatments for serious eye diseases and explores what it is like to have vision restored after decades of being blind Based on Michael Crossland s extensive work in children s and adults low vision clinics and his 20 years of research into vision impairment the book blends individual stories key research findings and the most recent scientific discoveries to present an informative yet optimistic overview of living with sight loss Praise for Vision Impairment The key strength of this book is how scientific concepts around ophthalmology vision science and sight loss are brought to life by letting patients explain what these concepts mean to them This is not a book that has been written about patients it has been written with them In this sense it is very much original and I enjoyed reading it tremendously Keziah Latham Anglia Ruskin University **Home Again** Louis Collins,2020-04-06 One of the toughest dichotomies we will ever face is the battle between who we are and who God has called us to be Many times we get in our own way which causes us to put on personas that God never intended us to wear Because we desire the success we see others have we feel we have to be like them The problem with that is we end up losing who we really are in the process Take this journey with me as I strategically help you get back onto your path to purpose As I help you find you way HOME
