Preaching in the Last Days Rodney L. Petersen, 1993-06-24 Visionary strength was given to the piety polity and political activity of Protestantism in its formative periods through the way in which the Apocalypse was read By identifying with the text depicting two witnesses or prophets who preach at the end of history are slain by the beast from the abyss understood to be Antichrist and rise again victoriously representatives of the Protestant movement found a measure of self identity This text Revelation 11 3 13 became the lens through which many envisioned the movement of history from the first advent of Christ to his promised return It was used by earlier reform movements but it lent special definition to the work of Protestant ministers through the nineteenth century suggesting different approaches to social organization *Preaching in the Last Days* is a study in the history of how the Apocalypse was read It is also an examination of how social groups are formed through ideas occasioned by texts It offers an account of the interplay between religious and social history during the time of the development of Protestantism Petersen s study provides a fascinating look at the theological significance of how we read biblical texts and the insights this offers on the development of culture the Christian movement and its churches The book is especially important for understanding the assumptions behind the ways in which the book of Revelation is being read and used in our own day

Evangelical Century Michael Gauvreau, 1991-03-01 Gauvreau explores the persistence and development of the evangelical creed as the intellectual expression of Protestant religion which largely defined English Canadian culture in the Victorian period This popular theology which linked Methodist and Presbyterian church colleges to the world of popular preaching was based on the Bible not only as the foundation of personal piety but as a sacred record of human history past present and future Gauvreau shows that the evangelical creed proved flexible when faced with the challenges of Darwinian evolution higher criticism and other new intellectual currents and that it remained central to the intellectual life of the churches By accommodating those aspects of modern thought most compatible with evangelicalism and filtering out those more threatening clergymen professors such as Samuel Nelles Nathanael Burwash George Monro Grant and William Caven were able to find creative ways to move their churches toward social reform in the late nineteenth century The evangelical synthesis lost its cultural supremacy only in the twentieth

Cox, 2000-09-30 The importance of records in modern society is explored by re examining some of the historical antecedents for critical functions in the modern records professions The motivation for writing this book comes from a conviction of the importance of records and records professionals in organizations and society as well as the need to possess a stronger sense of the events trends people debates and controversies producing the modern records professions Archivists and records managers have tended to discount the importance of their historical antecedents ignoring the fact that many of the current debates and issues before the profession are not new but embedded in the historical evolution of the records professions Re examining some of the historical origins helps records professionals to re examine their mission to manage records for the benefit of organizations and of all of society Such re evaluation also helps to remind records professionals and others that the concerns generated by new electronic recordkeeping technologies are not new at all but built deep within the fabric of traditional records creation and administration **Handbook of Education Policy Research** Gary Sykes, Barbara Schneider, David N.
