Joseph Smith and the Origins of The Book of Mormon, 2d ed. David

Persuitte,2010-07-27 Just as a growing interest in millennialism at the turn of this century has rejuvenated religious debate and questions concerning the fate of the world so did Mormonism develop from millennial enthusiasm early in the nineteenth century Joseph Smith the founder of Mormonism and a provocative even controversial figure in history declared that he had been given the authority to restore the true church in the latter days The primary source of Smith s latter day revelation is The Book of Mormon and to fully understand his role as the founder of the Mormon faith one must also understand The Book of Mormon and how it came to be Unfortunately the literature about Joseph Smith and The Book of Mormon is permeated with contradiction and controversy In the first edition of this impressive work David Persuitte provided a significant amount of revealing biographical information about Smith that resolved many of the controversies concerning his character He also presented an extensive comparative analysis positing that the probable conceptual source for The Book of Mormon was a book entitled View of the Hebrews or the Tribes of Israel in America which was written by an early New England minister named Ethan Smith Now in an expanded and revised second edition incorporating many new findings relating to the origin of The Book of Mormon Mr Persuitte s book continues to shed much new light on the path Joseph Smith took toward founding the Church of Jesus Christ of Latter day Saints **Index to the World Great Classics** ,1902 **Atlantis and the Cycles**

of Time Joscelyn Godwin,2010-11-18 A comprehensive study of the major occult writings on Atlantis Fully examines the many occult teachings on Atlantis including those from G I Gurdjieff Madame Blavatsky Julius Evola Edgar Cayce Fabre d Olivet and Dion Fortune Shows how these writings correlate with the concept of cyclical history such as the Mayan calendar and 2012 the Age of Aquarius and the four Yugas By a renowned scholar author editor and translator of more than 30 books Atlantis has held a perennial place in the collective imagination of humanity from ancient Greece onward Many of the great minds of the occult and esoteric world wrote at length on their theories of Atlantis about its high culture its possible location its ultimate demise and their predictions of a return to Atlantean enlightenment or the downfall of modern society Beginning

with a review of the rationalist writings on Atlantis those that use geographic and geologic data to validate their theories renowned scholar Joscelyn Godwin then analyzes and compares writings on Atlantis from many of the great occultists and esotericists of the 19th and 20th centuries including Fabre d Olivet G I Gurdjieff Guido von List Julius Evola Edgar Cayce Dion Fortune and Ren Gu non whose writings often stem from deeper metaphysical sources such as sacred texts prophecy or paranormal communication Seeking to unravel and explain the histories and interpretations of Atlantis and its kindred myths of Lemuria and Mu the author shows how these different views go hand in hand with the concept of cyclical history such as the Vedic system of the four Yugas the Mayan calendar with its 2012 end date the theosophical system of root races and the precession of the equinoxes Venturing broader and deeper than any other book on Atlantis this study also covers reincarnation human evolution or devolution the origins of race and catastrophe theory

The Last King of America Andrew Roberts, 2011-11-09 From the New York Times bestselling author of Churchill and Napoleon The last king of America George III has been ridiculed as a complete disaster who frittered away the colonies and went mad in his old age The truth is much more nuanced and fascinating and will completely change the way readers and historians view his reign and legacy Most Americans dismiss George III as a buffoon a heartless and terrible monarch with few if any redeeming qualities The best known modern interpretation of him is Jonathan Groff's preening spitting and pompous take in Hamilton Lin Manuel Miranda's Broadway masterpiece But this deeply unflattering characterization is rooted in the prejudiced and brilliantly persuasive opinions of eighteenth century revolutionaries like Thomas Paine and Thomas Jefferson who needed to make the king appear evil in order to achieve their own political aims After combing through hundreds of thousands of pages of never before published correspondence award winning historian Andrew Roberts has uncovered the truth George III was in fact a wise humane and even enlightened monarch who was beset by talented enemies debilitating mental illness incompetent ministers and disastrous luck In *The Last King of America* Roberts paints a deft and nuanced portrait of the much maligned monarch and outlines his accomplishments which have been almost universally forgotten Two hundred and forty five years after the end of George III's American rule it is time for Americans to look back on their last king with greater understanding to see him as he was and to come to terms with the last time they were ruled by a monarch
