devolution and recovery of royal authority the growth of papal involvement in regional matters and in diocesan administration the emergence of the crowd onto the European stage around 1000 and the proliferation of autonomous municipal governments the explosion of new devotional and religious energies the expansion of Christendom's borders and the proliferation of new monastic orders and new forms of religious life among other changes This socio political religious economic and cultural ferment challenged bishops often in unaccustomed ways How did the medieval bishop unquestionably one of the most powerful figures of the Middle Ages respond to these and other historical changes Somewhat surprisingly this question has seldom been answered from the bishop's perspective This volume of interdisciplinary studies drawn from literary scholarship art history canon law and history seeks to break scholarship of the medieval episcopacy free from the ideological stasis imposed by the study of church reform and episcopal lordship The editors and contributors propose less a conventional socio political reading of the episcopate and more of a cultural reading of bishops that is particularly concerned with issues such as episcopal self representation conceptualization of office and authority cultural production images texts material objects space and ecclesiology ideology They contend that ideas about episcopal office and conduct were conditioned by and contingent upon time place and pastoral constituency What made a good bishop in one time and place may not have sufficed for another time and place and imposing the absolute standards of prescriptive ideologies medieval and modern obfuscates rather than clarifies our understanding of the medieval bishop and his world

Dido's Daughters Margaret W. Ferguson, 2007-11-01 Winner of the 2004 Book Award from the Society for the Study of Early Modern Women and the 2003 Roland H Bainton Prize for Literature from the Sixteenth Century Society and Conference Our common definition of literacy is the ability to read and write in one language But as Margaret Ferguson reveals in *Dido's Daughters* this description is inadequate because it fails to help us understand heated conflicts over literacy during the emergence of print culture The fifteenth through seventeenth centuries she shows were a contentious era of transition from Latin and other clerical modes of literacy toward more vernacular forms of speech and writing Ferguson's

aim in this long awaited work is twofold to show that what counted as more valuable among these competing literacies had much to do with notions of gender and to demonstrate how debates about female literacy were critical to the emergence of imperial nations Looking at writers whom she dubs the figurative daughters of the mythological figure Dido builder of an empire that threatened to rival Rome Ferguson traces debates about literacy and empire in the works of Marguerite de Navarre Christine de Pizan Elizabeth Cary and Aphra Behn as well as male writers such as Shakespeare Rabelais and Wyatt The result is a study that sheds new light on the crucial roles that gender and women played in the modernization of England and France

A Companion to Ælfric Hugh Magennis, Mary Swan, 2009 This collection provides a new authoritative and challenging study of the life and works of Ælfric of Eynsham the most important vernacular religious writer in the history of Anglo Saxon England

Rewriting Saints and Ancestors Constance Brittain Bouchard, 2014-10-13 Thinkers in medieval France constantly reconceptualized what had come before interpreting past events to give validity to the present and help control the future The long dead saints who presided over churches and the ancestors of established dynasties were an especially crucial part of creative memory Constance Brittain Bouchard contends In *Rewriting Saints and Ancestors* she examines how such ex post facto accounts are less an impediment to the writing of accurate history than a crucial tool for understanding the Middle Ages Working backward through time Bouchard discusses twelfth century scribes contemplating the ninth century documents they copied into cartularies or reworked into narratives of disaster and triumph ninth century churchmen deliberately forging supposedly late antique documents as weapons against both kings and other churchmen and sixth and seventh century Gallic writers coming to terms with an early Christianity that had neither the saints nor the monasteries that would become fundamental to religious practice As they met with political change and social upheaval each generation decided which events of the past were worth remembering and which were to be reinterpreted or quietly forgotten By considering memory as an analytic tool Bouchard not only reveals the ways early medieval writers constructed a useful past but also provides new insights into the nature of record keeping the changing ways dynasties were conceptualized the relationships of the Merovingian and Carolingian kings to the church and the discovery or invention of Gaul's earliest martyrs

Gersonides' Afterlife Ofer Elior, Gad Freudenthal, David Wirmer, 2020-06-29 *Gersonides Afterlife* is the first full scale treatment of the reception of one of the greatest scientific minds of medieval Judaism Gersonides 1288-1344 An outstanding representative of the Hebrew Jewish culture that then flourished in southern France Gersonides wrote on mathematics logic astronomy astrology physical science metaphysics and theology and commented on almost the entire bible His strong minded attempt to integrate these different areas of study into a unitary system of thought was deeply rooted in the Aristotelian tradition and yet innovative in many respects and thus elicited diverse and often impassionate reactions For the first time the twenty one papers collected here describe Gersonides' impact in all fields of his activity and the reactions from his contemporaries up to present day religious Zionism
