National Identity And Foreign Policy Nationalism And Leadership In Poland Russia And Ukraine:

National Identity and Foreign Policy Ilya Prizel, 1998-08-13 This book argues that the foreign policy of any country is heavily influenced by national identity This is especially the case in East Central Europe where political institutions are weak and social coherence remains subject to the vagaries of the concept of nationhood Ilya Prizel's study examines the history and politics of Russia Poland and Ukraine and will be of interest to students of nationalism as well as foreign policy and politics in East Central Europe

National Identity and Foreign Policy Ilya Prizel, 1998-08-13 This book is based on the premise that the foreign policy of any country is heavily influenced by a society's evolving notions of itself Applying his analysis to Russia Poland and Ukraine the author argues that national identity is an ever changing concept influenced by internal and external events and by the manipulation of a polity's collective memory The interaction of the narrative of a society and its foreign policy is therefore paramount This is especially the case in East Central Europe where political institutions are weak and social coherence remains subject to the vagaries of the concept of nationhood Ilya Prizel's study will be of interest to students of nationalism as well as of foreign policy and politics in East Central Europe

British Foreign Policy, National Identity, and Neoclassical Realism Amelia Hadfield-Amkhan, 2010-10-16 This groundbreaking study offers a genuinely multidisciplinary exploration of cultural influences on foreign policy Through an innovative blend of historical analysis neoclassical realist theory and cultural studies Amelia Hadfield Amkhan shows how national identity has been a catalyst for British foreign policy decisions helping the state to both define and defend itself Representing key points of crisis from the past two centuries her case studies include the 1882 attempt to construct a channel tunnel to France the frantic 1909 Dreadnought race with Germany the 1982 Falklands War with Argentina and the 2003 decision to remain outside the Eurozone The author argues that these events marking the decline of a great power have forced Britain's society and government into periods of deep self reflection that are carved into its culture and etched into its policy stances on central issues of sovereignty territorial integrity international recognition and even monetary policy

Russian Foreign Policy toward Missile Defense Bilyana Lilly, 2014-08-21 This book is devoted to one of the central issues in U S Russian and NATO Russian relations ballistic missile defense Drawing on more than 2 000 primary sources interviews with Russian and NATO officials and a variety of Russian and Western publications

this book offers an unparalleled in depth analysis of the reasons behind Russia's policy towards the construction of a U.S. ballistic missile defense in Europe. It provides a critical assessment of the decision making mechanisms that shape Russia's position on ballistic missile defense as well as Russia's strategic relations with the United States and Russia's interaction with European and non European powers. Lilly argues that contrary to Moscow's official claims during the Putin era, Russian objections to the construction of ballistic missile defense in Europe have not been wholly dictated by security concerns. To Russia, missile defense is not purely an issue in and of itself but rather a symbol and instrument of broader political considerations. At the international level, the factors that have shaped Russia's response include Moscow's perception of the overall state of U.S.-Russian relations, the Kremlin's capacity to project influence and power abroad, and NATO's behavior in the post-Soviet space. Domestically, the issue of missile defense has been a facilitating instrument for strengthening Putin's regime and justifying military modernization. Taken together, these instrumental considerations and their fluctuating intensity in different periods prompt the Russian leadership to pursue contradictory policy approaches simultaneously. On the one hand, the Kremlin seeks U.S. cooperation while on the other hand it threatens retaliation and reinforces Russian offensive capabilities. The result is Moscow's incoherence, inconsistency, and double speak over the issue of missile defense.

The Concept of Russia Katlijn Malfliet, Francisca Scharpé, 2003 How can we best define Russia's long term national interests in the field of political sovereignty, sustainable economic development and military security? How will Russia view its federal state structure as it finds itself confronted with a centuries old tension between national and regional identity? Does Russia have to make a choice between East and West? All these questions relate to the centuries old debate on the Russian Idea. The contributors to this book seek to study the quest for Russian identity, approaching this multi layered and diffuse problem from a historical, political, cultural and economic perspective.

Identity and Foreign Policy Eiki Berg, Piret Ehlin, 2016-05-13 Baltic Russian relations have been complicated and tense since the collapse of the USSR and the restoration of Estonian, Latvian and Lithuanian independence. Although Baltic accession to the European Union (EU) has created a new international context for interstate relations in the region, enlargement did not bring about the much hoped for improvement in Baltic Russian relations. This case study rich volume examines links between identity, memory, politics and foreign policy. It analyzes and explains developments in Baltic Russian relations after both NATO and EU enlargement, focusing on the incompatibility of Baltic and Russian post-Soviet national identity constructions and the manifestations of this underlying antagonism in bilateral relations and on the broader European and international arena. Built on the constructivist perspective in international relations, this volume provides a coherent and illuminating account of the dynamics of Baltic Russian relations after NATO and EU enlargement. Combining policy relevant analysis with theoretical insights, it will meet the needs of academics and students of foreign policy, EU external relations and international relations more generally.

The Nationalization Paradox Arjan Shahini, 2024-06-04 The study illustrates the paradoxical relationship between

nationalization and internationalization in the case of Albanian higher education It demonstrates how global transformational processes and foreign policy have impacted the international dimension of higher education as a nation building institution The analysis considers the effect of foreign policy and the interactions between the state the university and the cultural elite The study applies the concept of causal mechanisms as an analytical and narrative device Foreign policy analysis is framed within an international patronage regime The international dimension is defined in terms of international exchanges policy borrowing and policy discourse The higher education policy areas it investigates are education policy governance academic management curriculum and academic mobility The interdisciplinary analytical and methodological approaches applied here were drawn from the transnational history of education and comparative historical analysis
