National Security Its Theory And Practice 1945 196:

National Security Planning Michael M. Boll, 1988 *Eisenhower and the Missile Gap* Peter J. Roman, 1995 Roman argues that presidential leadership from 1957 to 1960 was crucial to national security Dwight D Eisenhower was he argues actively involved in all nuclear policy making Eisenhower's responses to the extreme uncertainty of the late 1950s shaped American nuclear policy for decades and in its internal deliberations his administration anticipated much of the subsequent public debate *Konfrontationsmuster des Kalten Krieges 1946 bis 1956* Vojtech Mastny, Gustav Schmidt, 2011-12-05 Im Mittelpunkt stehen die Strukturen des Kalten Krieges Ihre Entstehung in der Frühphase ihre Entwicklung bis 1955/56 Mit der Doppelkrise von Suez und Ungarn im Oktober/November 1956 waren die bis 1989 gültigen Parameter der globalen Machtprobe festgelegt Schmidt konzentriert sich auf die strukturellen Auswirkungen der Binnenkonflikte des westlichen Lagers Seine Studie wird von Vojtech Mastny ergänzt der neu zugängliche gewordenen osteuropäische Archivbestände einbezieht Er stellt die sowjetische Auffassung auf die westliche Sicherheitsgemeinschaft vor die das ständige Handeln prägte **Das Nordatlantische Bündnis 1949-1956** Klaus A. Maier, Norbert Wiggershaus, 2009-01-01 Das Nordatlantische Bündnis war immer auch ein politischer und wirtschaftlicher Staatenverbund der auf eine Kooperation angelegt war die weit über den Bereich der eigentlichen Sicherheitspolitik hinausstrebte Neben dem weltpolitischen Umfeld dem Ost-West-Konflikt und den darin wirksamen Bedrohungspereptionen verdient daher die innere atlantische Perspektive in der Formationsphase des Bündnisses besondere historische Beachtung Diese interne Perspektive des Bündnisses kann als Verstrickung von europäischer und amerikanischer Politik unter Aufgabe nationaler Souveränitätsrechte definiert werden In diese Perspektive muß der zur nordamerikanisch westeuropäischen Sicherheitsintegration parallel und nicht immer spannungsfrei verlaufende Prozeß der westeuropäischen Integration einbezogen werden Diese breite historische Aufarbeitung der Formationsphase des Nordatlantischen Bündnisses erscheint nicht zuletzt aus aktuellen politischen Gründen bedeutsam Mit Blick auf die dramatischen Umbrüche in den Staaten Mittel und Osteuropas die die internationale Nachkriegsordnung in Frage stellen eröffnen sich Perspektiven für die Rückkehr dieser Staaten nach Europa **The National Security** Norman A. Graebner, 1986 This collection of essays presented at a conference at West Point by leading political thinkers including David Alan Rosenberg Richard D Challener Lloyd C Gardner and Martin J Sherwin explores the national security policies developed by the Truman and Eisenhower administrations 1945-1960 in response to the threat of Soviet expansionism Stressing that fear motivated the makers of Cold War policy the contributors discuss such topics as the objections raised by Democrats to nuclear security strategy Eisenhower's disputes with Army and Navy leaders and the evolution of Cold War policy into today's global security policy **Hiroshima's Shadow** Kai Bird, Lawrence Lifschultz, 1998 Writings on the denial of history and the Smithsonian controversy Cover *America, History and Life*, 2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada *Rethinking Public Strategy* Sean Lusk, Nick Birks, 2014-07-23

Strategy is vital to effective and efficient public service delivery as well as successful governance and leadership. This new text provides a concise yet systematic overview of the achievements, downfalls and complexities of public strategy in today's globalized and often market-driven world. It describes the place of strategy in civic societies whose citizens are more interconnected and vocal than ever. It shows that successful strategic planning goes well beyond problem solving to developing adaptable plans that can evolve as requirements and circumstances change. And it explains why muddling through simply won't work. Emphasizing the importance of applying a variety of techniques to the process of strategy creation, *Rethinking Public Strategy* reassesses the key factors that can deliver significant improvements in public services and build public value. It looks at why public strategy is distinctive as well as the principles it has in common with the corporate domain. This text includes numerous case studies from around the globe from South Africa to Singapore, the USA to Germany and from China to the Czech Republic that ground the exposition in real experience. Based on state-of-the-art research by two expert practitioners in the field, it offers an essential guide to the art of strategy in the contemporary public sector and encourages readers to evaluate critically the various approaches to strategy.

Secret Intelligence Christopher Andrew, Richard J. Aldrich, Wesley K. Wark, 2019-07-26. The second edition of *Secret Intelligence: A Reader* brings together key essays from the field of intelligence studies, blending classic works on concepts and approaches with more recent essays dealing with current issues and ongoing debates about the future of intelligence. Secret intelligence has never enjoyed a higher profile. The events of 9/11, the conflicts in Iraq and Afghanistan, the missing WMD controversy, public debates over prisoner interrogation together with the revelations of figures such as Edward Snowden, recent cyber attacks and the rise of hybrid warfare have all contributed to make this a hot subject over the past two decades. Aiming to be more comprehensive than existing books and to achieve truly international coverage of the field, this book provides key readings and supporting material for students and course convenors. It is divided into four main sections, each of which includes full summaries of each article, further reading suggestions and student questions. The intelligence cycle, Intelligence counter-terrorism and security, Ethics, accountability and secrecy, Intelligence and the new warfare. This new edition contains essays by leading scholars in the field and will be essential reading for students of intelligence studies, strategic studies, international security and political science in general and of interest to anyone wishing to understand the current relationship between intelligence and policy making.

Power and the Pursuit of Peace: Theory and Practice in the History of Relations Between States F. H. Hinsley, Francis Harry Hinsley, 1967-10. In the last years of the nineteenth century, peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak. In this study of the nature and history of international relations, Mr Hinsley presents his conclusions about the causes of war and the development of men's efforts to avoid it. In the first part, he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting. This enables him to show how far modern peace proposals are merely copies or elaborations of earlier

schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War
