## **National Treasure The History Of Trans Canada Airlines:**

**National Treasure** Peter Pigott, 2001 Before the birth of Trans Canada Airlines TCA in 1937 Canada was one of the very few countries of the world that had no organized air service connecting its principal cities In 1936 many of the one million people who travelled on scheduled flights in the United States were Canadian citizens who needed to travel south of the border to reach destinations in Canada C D Howe Minister of Transport in Prime Minister Mackenzie King's cabinet was the chief architect of the government owned TCA From the beginning the company was ennobled as more than a means of commercial transport it was hoped that the TCA like the Canadian Pacific Railway before it would overcome vast geographical barriers thwart the Americans reassure the British and unite the country Other air companies provided transportation this one was to be a symbol of national identity a maple leaf with wings National Treasure details the ins and outs the backroom politics and the ground breaking decisions that led to the creation of Trans Canada Airlines through its early years to its metamorphosis into Air Canada in the 1950s The book is an entertaining well written account that covers everything from the teething problems of the airline in its infancy such as how to choose the right passenger plane for trans Canada travel to the company's role during World War II to TCA's rapid post war expansion and the notorious infighting between TCA and its rival Canadian Pacific Airlines Here are the planes the Lockheed 14 which suffered from embarrassing engine failures the Electra which featured radio antennas that were prone to lightning strikes and the Lancaster which held the Trans Atlantic non stop speed record from Montreal to the United Kingdom 11 hours and 14 minutes the employees Zebulon Lewis Leigh Lewie a barnstormer who became TCA's first pilot and Lucille Garner and Pat Eccleston registered nurses who became TCA's first female employees and Canada's first stewardesses and the flights first the Vancouver Seattle route then onward across Canada then over the Atlantic Ocean to international ports of call Packed with photos and enlivened by interviews with past pilots flight attendants and other employees quotes from TCA staff newsletters excerpts from the company's annual reports and letters from passengers all over Canada National Treasure is an absorbing and well researched look at commercial aviation in Canada      **Aviation Pioneers of Canada 7-Book Bundle** Peter

British Airways Air Canada and Pan American Airways It covers the years 1919 to 1991 and is organized around key periods in the treatment of female employees *Air Canada* Peter Pigott,2014-03-03 Begun as a social experiment in 1937 Air Canada has evolved into one of the world's greatest airlines an integral part of this country's social fabric During the course of its 75 year history the airline was privatized fought off a hostile takeover merged with arch rival Canadian Airlines and touched countless lives This is its story Canada Michelangelo Sabatino,Rhodri Windsor Liscombe,2016-11-15 Canada is a country of massive size of diverse geographical features and an equally diverse population all features that are magnificently reflected in its architecture In this book Rhodri Windsor Liscombe and Michelangelo Sabatino offer a richly informative history of Canadian architecture that celebrates and explores the country's many contributions to the spread of architectural modernity in the Americas A distinct Canadian design attitude coalesced during the twentieth century one informed by a liberal hybrid and pragmatic mindset intent less upon the dogma of architectural language and more on thinking about the formation of inclusive spaces and places Taking a fresh perspective on design production they map the unfolding of architectural modernity across the country from the completion of the transcontinental railway in the late 1880s through to the present Along the way they discuss architecture within the broader contexts of political industrial and sociocultural evolution the urban suburban expansion and new building technologies Examining the works of architects and firms such as ARCOP Eric Arthur Ernest Cormier Brigitte Shim and Howard Sutcliffe this book brings Canadian architecture chronologically and thematically to life **Brace for Impact** Peter Pigott,2016-06-18 Why do planes disappear or fall out of the sky Brace for Impact traces the evolution of accident investigation and explains why flying is the safest form of travel The history of air accidents is a harrowing one Yet today flying is the safest mode of transportation thanks in no small part to the work of crash detectives Whenever a plane falls from the sky the investigators pick through the wreckage for the clues they need to decipher what happened to that flight Before the invention of the black box and the evolution of forensic accident investigation the causes often remained a mystery Since the Wright brothers first took flight aircraft design pilot training aircraft maintenance and air traffic control have all evolved to current standards of safety Because of lessons learned from tragedies such as what befell the Comets in the 1950s the Douglas DC 10s in the 1970s and ill fated Air India TWA and Swissair flights flight safety continues to improve In many ways the history of aviation is the history of air crash investigation Insights and Research on the Study of Gender and Intersectionality in International Airline Cultures Albert J. Mills,2017-07-24 This book brings together three decades of research by Albert J Mills and his colleagues on the gendering of airline cultures over time Inspired by feminist theory and drawing largely on archival research it traces the way that gender discrimination develops takes hold and changes in the formation of organizational cultures Airways ,2003 **Dominion of Capital** Don Nerbas,2013-01-01 Originally presented as the author's thesis doctoral University of New Brunswick 2010 under the title The politics of capital **Gender, Feminist and Queer Studies** Donna Bridges,Clifford Lewis,Elizabeth

Wulff,Chelsea Litchfield,Larissa Bamberry,2023-07-13 Exploring scholarship research practice and activism on gender feminist and queer studies this edited collection examines analyses and critiques the nature and causes of inequality disadvantage and marginalisation faced by women non hegemonic and LGBTIQA identities who do not fit hegemonic notions of masculinity femininity and heteronormativity The chapters in this book critically analyse and challenge visible and invisible power relations privilege and prejudice by problematising the artificial organisation of people into hierarchies that preference hegemonic masculinities white and heteronormative identities In questioning often unchallenged and legitimised inequality and disadvantage this book locates itself in the juxtaposition where the lived experiences of individuals activism community participation research and scholarship collide with mainstream local national and globalised culture and politics Divided into four parts this book provides a platform for interrogating how social change can occur in the current neoliberal political context of increasing conservatism
