National Party Platforms 1840 1968:

National Party Platforms, 1840-1968 Kirk Harold Porter, Donald Bruce Johnson, 1970 **National Party Conventions**
Congressional quarterly (Etats-Unis), 1991 **National Party Conventions, 1831-1976** Congressional Quarterly, inc, 1979
National Party Conventions, 1831-1984, 1987 Traces the history of national political conventions in the U S and looks at
platforms roll call results and candidate profiles National Party Conventions, 1831-1988 Congressional Quarterly,
inc, 1991 National Party Conventions, 1831-1972 Congressional Quarterly, inc, 1976 *National Party Conventions,*
1831-1996 Congressional Quarterly, inc, 1997 This volume provides historical data and facts on US nominating conventions
and political parties from 1831 to 1996 Chronological summaries of all major party conventions with excerpts from party
platforms and key convention ballots form the heart of the text *National Party Conventions, 1831-1980* Congressional
Quarterly, inc, 1983 *Wisconsin Library Bulletin*, 1971 *The Third Electoral System, 1853-1892* Paul
Kleppner, 2017-10-10 This analysis of the contours and social bases of mass voting behavior in the United States over the
course of the third electoral era from 1853 to 1892 provides a deep and rich understanding of the ways in which
ethnoreligious values shaped party combat in the late nineteenth century It was this uniquely American mode of political
confessionals that underlay the distinctive characteristics of the era s electoral universe In its exploration of the the political
roles of native and immigrant ethnic and religious groups this study bridges the gap between political and social history The
detailed analysis of ethnoreligious experiences values and beliefs is integrated into an explanation of the relationship
between group political subcultures and partisan preferences which will be of interest to political sociologists political
scientists and also political and social historians Unlike other works of this genre this book is not confined to a single
description of the voting patterns of a single state or of a series of states in one geographic region but cuts across states and
regions while remaining sensitive to the enormously significant ways in which political and historical context conditioned
mass political behavior The author accomplishes this remarkable fusion by weaving the small patterns evident in detailed
case studies into a larger overview of the electoral system The result is a unified conceptual framework that can be used to
understand both American political behavior during an important era and the general preconditions of social group political
consciousness Challenging in major ways the liberal rational assumptions that have dominated political history the book
provides the foundation for a synthesis of party tactics organizational practices public rhetoric and elite and mass behaviors
