Narratives of Nation Building in Korea Sheila Miyoshi Jager, 2003-06-03 This book offers new insight on how key historical texts and events in Korea's history have contributed to the formation of the nation's collective consciousness The work is woven around the unifying premise that particular narrative texts events that extend back to the premodern period have remained important albeit transformed over the modern period and into the contemporary period The author explores the relationship between gender and nationalism by showing how key narrative topics such as tales of virtuous womanhood have been employed transformed and re deployed to make sense of particular national events Connecting these narratives and historic events to contemporary Korean society Jager reveals how these sites or reference points were also successfully re deployed in the context of the division of Korea and the construction of Korea's modern consciousness

Nation and Identity in Contemporary Europe Brian Jenkins, Spyros A. Sofos, 2003-09-02 The resilience of nationalism in contemporary Europe may seem paradoxical at a time when the nation state is widely seen as being in decline The contributors of this book see the resurgence of nationalism as symptomatic of the quest for identity and meaning in the complex modern world Challenged from above by the supranational imperatives of globalism and from below by the complex pluralism of modern societies the nation state in the absence of alternatives to market consumerism remains a focus for social identity Nation and Identity in Contemporary Europe takes a fully interdisciplinary and comparative approach to the national question Individual chapters consider the specifics of national identity in France Germany Britain Italy Iberia Russia the former Yugoslavia and Poland while looking also at external forces such as economic globalisation European supranationalism and the end of the Cold War Setting current issues and conflicts in their broad historical context the book reaffirms that nations are not natural phenomena but
