Nationalism Essays In Honor Of Louis L Snyder:

Nationalism Louis Leo Snyder, 1980 Nationalism Louis Leo Snyder, 1981-09-08 *Nationalism and Territory* George W. White, 2000 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George W White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nation's identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war The Ambivalence of Identity Peter Thaler, 2001 The Ambivalence of Identity examines nation building in Austria and uses the Austrian experience to explore the conceptual foundations of nationhood Traditionally Hapsburg Austria has provided the background for these works In the course of this study it should become clear that Republican Austria is as valuable in understanding national identity as its monarchic predecessor Historical interpretations to Austrian nation building gives the Austrian experience special relevance for the larger debate about the nature of history Such aspects in the analysis of the post war Austrian nation building are the role of consciousness during the building process the role of neighboring countries and the role of World War II *On Ruins of Empire* George Mirsky, 1997-01-21 This study sponsored by the MacArthur Foundation and the London School of Economics and Political Science analyzes the ethnopolitical situation in Russia and the other republics of the former Soviet Union particularly the southern tier states Respected Russian scholar Georgiy Mirsky provides an insider's look at the historical nature of the Russian and Soviet empires the development of ethnic and nationalistic identities within those empires and the present day situation with regard to hot and cold ethnic conflicts within and around Russia This important work will be of interest to scholars and policymakers in comparative politics international relations and Russian and Slavic studies The Mass Psychology of Ethnonationalism Dusan Kecmanovic, 2013-11-11 Throughout the nineteenth and twentieth centuries ethnonationalism has left its indelible mark on Europe and every other continent The latest events in the Balkans in central and eastern Europe and in the former Soviet Union unequivocally testify to the power and influence of ethnonationalism at the end of the second millennium What forces make people so committed to their ethnonational groups that they are ready to ignore all other concerns first and foremost the rights and interests of people of other ethnicities What is the social psychological and anthropological underpinning of ethnonationalism And finally why and how do people adhere to nationalist attitudes and beliefs These questions are virtually impossible to avoid for anyone who has directly felt the impact of ethnonationalism but they also present themselves to anyone who has indirectly experienced the prejudices unleashed by ethnonationalist forces This book attempts to answer all

these questions by focusing on national feeling and the social psychological and anthropological foundations that underly the sense of belonging that is essential to nationalism. No matter how qualitatively different nationalist attitudes and beliefs are from national sentiment the latter has to be considered in any study of nationalism.

Society and Economy in Early Modern Europe, 1450-1789 Barry Taylor, 1989

East European Nationalism, Politics and Religion Peter F.

Sugar, 2024-10-28 The multi national region of Europe situated between the German speaking lands and those of the former Soviet Union has witnessed many varied manifestations of nationalism over the last two centuries. Professor Sugar has been in the forefront of those seeking to understand and explain these Eastern European nationalisms and eleven of his essays on the subject are included in this second selection of his studies. The first two essays deal with problems of ethnicity and its specific manifestations in the region; the next three present the growth of national antagonisms during the 19th century. The third and longest section then sets out to examine the interaction of fully developed nationalism in Eastern Europe with the various political movements and religious organizations that impacted upon these lands.

The Ordeal of Nationalism in Modern Europe, 1789-1945 Endre B. Gáspár, 1992 A treatment of nationalism manifesting itself in an endless ordeal of wars and revolutions. Based on thousands of original and secondary sources in four languages it is also cross disciplinary.

Bridging the Atlantic Elisabeth

Glaser, Hermann Wellenreuther, 2002-01-24 Bridging the Atlantic discusses comparative developments in modern European and American history. The case studies on British, German and U.S. History since the eighteenth century assembled here seek to establish an integrated vision of Atlantic history. The contributions by European and American historians challenge the concept of American exceptionalism and present a vivid example of the ongoing debate between American and European historians on the structure and nature of European American relations.
