Nationalism And Particularity:

Nationalism and Particularity Andrew Vincent, 2002-05-07 Examining nationalism in two ways this study first draws out the ideological connections and associations of nationalism by analyzing its relationship to a series of key political concepts theories and practices sovereignty the nation state citizenship liberal theory patriotism communitarianism multiculturalism and cosmopolitanism Secondly it looks at the drift to particularity in political debates by assessing nationalism as a key example of particularity *Constitutionalism under Stress* Uladzislau Belavusau, Aleksandra Gliszczyńska-Grabias, 2020-09-10 Constitutionalism under Stress reflects on comparative constitutionalism in Central and Eastern Europe through the work of eminent constitutional scholar Wojciech Sadurski The book examines the current decline of liberal democracies and populist challenges to the rule of law in the region events that Sadurski predicted early on in his writings about Jörg Haider affair in Austria and the introduction of Article 7 TEU by the Amsterdam Treaty Sadurski's work has chronicled the transition from concern for the most basic of human rights under authoritarian rule to the challenges of democratic governance The compelling rights discourse of an earlier period gave way to claims of abuse of majoritarian prerogatives as the hopes of liberal democracy encountered the power of illiberalism The theoretical responses offered for the preservation of liberal democracy in light of the current turbulence regarding the rule of law in the region produces a far reaching and effective reference tool on matters of constitutional capture and illiberal democracy **Global Nationalism: Ideas, Movements And Dynamics In The Twenty-first Century** Pablo De Orellana, Nicholas Michelsen, 2022-10-04 The twenty first century is witnessing a truly transnational revival of a very old set of ideas Despite romantic attachments to old symbols these late modern nationalism movements are not simply replicas of the previous two waves of nationalism in the 1860s and 1920s Nor is it true that today's nationalism movements want simply to return to the past and effect a nationalist 1930s style retrenchment From Putin's macho revivalism through to Trump's shocking victory and Xi's strongman regionalism nationalists engage with the economic context of our time and address issues born of globalization Crucially in their vision for international relations they seek the destruction of key international norms in a drive to restore a vision of sovereignty predicated on a survivalist understanding of state power Global Nationalism edited and framed by Pablo de Orellana and Nicholas Michelsen brings together the latest research by up and coming early career researchers and scholars Beginning with a succinct history and typology of contemporary nationalism and its predecessors this book offers analysis of several cases of contemporary nationalism examining how specific movements define identity address grievances and propose identity based solutions Key themes and lessons emerge from the study of a variety of cases from the very ideas animating nationalist thought to their expression in a wide variety of nationalist movements around the world The reflections on the ecosystem of nationalist ideas and movements offered in this volume are a vital starting point in the study of contemporary nationalism as a global twenty first century phenomenon Proceedings of the Ninth Seminar of the IATS,

2000. Volume 8: Tibet, Self, and the Tibetan Diaspora P. Christiaan Klieger, 2021-11-15 The ten papers presented in this eighth volume of the Proceedings of the Ninth Seminar of the IATS 2000 provide examples of the colourful and lively range of Tibetan self expressions that exist within the modern homeland and in exile The scholars here represent the fields of anthropology sociology literary studies history and political science Four papers are based in studies in the modern Tibet Autonomous Region five are grounded in the Tibetan diaspora and one deals with both classical Tibetan history and current affairs The mass representation of Tibetan self delivered through various literary vehicles by linguistic competence body decoration landscape or individual deportment constitutes the basic theme of this collection The volume is useful for any student of Tibet and those interested in the process of identity formation and presentation The Oxford Handbook of Political Ideologies Michael Freeden, Lyman Tower Sargent, Marc Stears, 2013-08-15 This is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations The diversity of ideology studies is represented by a mixture of the range of theories that illuminate the field combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones Ideologies however are always with us The Handbook is divided into three sections The first is divided into three sections The first reflects some of the latest thinking about the development of ideology on an historical dimension from the standpoints of conceptual history Marx studies social science theory and history and leading schools of continental philosophy The second includes some of the most recent interpretations and theories of ideology all of which are sympathetic in their own ways to its exploration and close investigation even when judiciously critical of its social impact This section contains many of the more salient contemporary accounts of ideology The third focuses on the leading ideological families and traditions as well as on some of their cultural and geographical manifestations incorporating both historical and contemporary perspectives Each chapter is written by an expert in their field bringing the latest approaches and understandings to their task The Handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions **Nationalism and Masculinity** Andrew Howard Walzer, 1997 *Transnationalism and the Jews* Jakob Egholm Feldt, 2016-08-30 The concept of transnationalism has been widely used for many years to describe mobility and cross border relations in the modern globalized world Most uses of the concept of transnationalism neglect its historical trajectory and largely ignore the networks that constructed its meaning and normativity Transnationalism and the Jews directly relates ideas about transnationalism and cultural pluralism to Jewish historical experience It shows how the Jews and Jewishness has been a problematic issue for cultural thought since the Enlightenment and how this problem produced the alternative ideas of culture and identity that are widely accepted today It argues that Jewish experience and Jewishness helped produce the modern concept of transnationalism and cultural pluralism **Fanon's Dialectic of Experience** Ato Sekyi-Otu, 2009-06-30 With the flowering

of postcolonialism we return to Frantz Fanon a leading theorist of the struggle against colonialism In this thorough reinterpretation of Fanon's texts Ato Sekyi Otu ensures that we return to him fully aware of the unsuspected formal complexity and substantive richness of his work A Caribbean psychiatrist trained in France after World War II and an eloquent observer of the effects of French colonialism on its subjects from Algeria to Indochina Fanon was a controversial figure advocating national liberation and resistance to colonial power in his bestsellers *Black Skin White Masks* and *The Wretched of the Earth* But the controversies attending his life and death which some ascribed to the CIA are small in comparison to those surrounding his work Where admirers and detractors alike have seen his ideas as an incoherent mixture of Existentialism Marxism and psychoanalysis Sekyi Otu restores order to Fanon's oeuvre by reading it as one dramatic dialectical narrative Fanon's *Dialectic of Experience* invites us to see Fanon as a dramatist enacting a movement of experience the drama of social agents in the colonial context and its aftermath in a manner idiosyncratically patterned on the narrative structure of Hegel's *Phenomenology of Spirit* By recognizing the centrality of experience to Fanon's work Sekyi Otu allows us to comprehend this much misunderstood figure within the tradition of political philosophy from Aristotle to Arendt

Reviews of this book The goal of this often brilliant and always engaging book is to read Fanon's texts as though they formed one dramatic dialectical narrative the principal subject of this dramatic narrative according to Sekyi Otu is political experience It is his deployment of a dialectical analysis of Fanon's dramatic personae that permits Sekyi Otu's fresh and insightful readings to take place DD Anthony C Alessandrini Minnesota Review Ato Sekyi Otu departs from the postmodernist paradigm and ushers in an alternative hermeneutic that primarily considers Fanon's texts as forming one dramatic dialectical narrative that is a narrative whose complexity is correlative of the intricate configurations of African social experience during the post independent era His book is an invaluable contribution that offers broader scope for a new appreciation of Fanon's political thinking DD Marc Mve Bekale Revue AFRAM Review UK I mportant The author succeeds in revealing the complexity and nuanced character of Fanon's thought DD Choice Those who would dismiss or exult Fanon as the high priest of revolutionary violence will be chastened by this patient and completely convincing exposition of his work Sekyi Otu produces a reflexive Gramscian Fanon who working as a detective of the politics of truth has produced insights that need to be taken over into the core of democratic political thought DD Paul Gilroy University of London

Colonial Crossings Marjorie Elizabeth Howes, 2006

The Oxford Handbook of Global Modernisms Mark Wollaeger, Matt Eatough, 2013-10 The Oxford Handbook of Global Modernisms expands the scope of modernism beyond its traditional focus on English and Irish literature to explore the contributions of artists from countries and regions like the US Cuba Spain the Balkans China Japan India Vietnam and Nigeria
