Nationalist Exclusion And Ethnic Conflict Shadows Of Modernity:

Nationalist Exclusion and Ethnic Conflict Andreas Wimmer, 2002-06-06 Andreas Wimmer argues that nationalist and ethnic politics have shaped modern societies to a far greater extent than has been acknowledged by social scientists. The modern state governs in the name of a people defined in ethnic and national terms. Democratic participation, equality before the law, and protection from arbitrary violence were offered only to the ethnic group in a privileged relationship with the emerging nation state. Depending on circumstances, the dynamics of exclusion took on different forms. Where nation building was successful, immigrants and ethnic minorities are excluded from full participation; they risk being targets of xenophobia and racism. In weaker states, political closure proceeded along ethnic rather than national lines and leads to corresponding forms of conflict and violence. In chapters on Mexico, Iraq, and Switzerland, Wimmer provides extended case studies that support and contextualise this argument.

Waves of War Andreas Wimmer, 2013 A new perspective on how the nation state emerged and proliferated across the globe, accompanied by a wave of wars. Andreas Wimmer explores these historical developments using social science techniques of analysis and datasets that cover the entire modern world.

Developmental and Cultural Nationalisms Radhika Desai, 2013-10-18 Premature announcements of the eclipse of nation states under globalization and empire stand exposed as the 21st century's first economic crisis underlines their continuing importance. A predominantly cultural study of nationalism was unable to resist the globalization thesis. Focusing on selected Asian cases, this book argues that nationalisms have always contained political economies as well as cultural politics. Placing nation states centrally in our understanding of modern capitalism, it challenges the globalization thesis. Rather than eclipse nations and nationalisms have undergone changes under the impact of neoliberalism since the 1970s. Classical 20th century developmental nationalisms emphasised citizenship, economy, and future orientations. Later cultural nationalisms, Asian values, Hindutva, Confucianism, or Nihonjiron stressed identity, culture, and past orientations. Amid neoliberalism's flagrantly unequal political economy, not primarily concerned with material production or productivity, they glorified static conceptions of original cultures and identities, whether religious, ethnic, or other, and justified inequality as cultural difference. In contrast to the popular mobilizations which powered developmental nationalisms, cultural nationalisms thrived on neoliberalism's disengagement and disenfranchisement, albeit partially compensated by the political baptism of newly enriched groups. Extremist wings of cultural nationalism in some countries were a function of this lack of popular support. This book was published as a special issue of *Third World Quarterly*.

Rethinking Ethnicity Eric P. Kaufmann, 2004 Globalization and migration are pressuring nations around the world to change their ethnic self-definition and to treasure diversity, not homogeneity. This book explores the growing gap between modern nations and their dominant ethnic groups.

State Erosion Lawrence P. Markowitz, 2013-11-15 State failure is a central challenge to international peace and security in the post-Cold War era. Yet theorizing on the causes of state failure remains surprisingly limited. In *State Erosion*, Lawrence P.

Markowitz draws on his extensive fieldwork in two Central Asian republics Tajikistan where state institutions fragmented into a five year civil war from 1992 through 1997 and Uzbekistan which constructed one of the largest state security apparatuses in post Soviet Eurasia to advance a theory of state failure focused on unlootable resources rent seeking and unruly elites In Tajikistan Uzbekistan and other countries with low capital mobility where resources cannot be extracted concealed or transported to market without state intervention local elites may control resources but they depend on patrons to convert their resources into rents Markowitz argues that different rent seeking opportunities either promote the cooptation of local elites to the regime or incite competition over rents which in turn lead to either cohesion or fragmentation Markowitz distinguishes between weak states and failed states challenges the assumption that state failure in a country begins at the center and radiates outward and expands the resource curse argument to include cash crop economies where mechanisms of state failure differ from those involved in fossil fuels and minerals Broadening his argument to weak states in the Middle East Syria and Lebanon and Africa Zimbabwe and Somalia Markowitz shows how the distinct patterns of state failure in weak states with immobile capital can inform our understanding of regime change ethnic violence and security sector reform

Democratic Peace Across the Middle East Yakub Halabi, 2016-05-24 From Tunisia to Egypt and from Israel to Iran the debates surrounding the concept of democracy in the Middle East are never straightforward This has been particularly evident since the events of 2009 in Iran and the uprisings across the Arab world in late 2010 and 2011 Against this backdrop *Democratic Peace across the Middle East* critically analyses the prospects for democracy throughout the region specifically asking whether political and social modernisation are absolute preconditions for democratic peace to take hold in the region or whether democracy without modernisation might be enough It explores the dynamics between neo patriarchy and Islam on the one hand and democratisation and modernisation on the other and also considers the prospect of the political accommodation of opposition groups Incorporating an analysis of a variety of key dynamics which affect each Middle Eastern country in turn such as tribal and sectarian identity Islamism and the structure of political party systems this book will appeal to those researching the Middle East and its patterns of rule

Religious Politics in Turkey Ceren Lord, 2018-11-08 Since the elections of 2002 Erdogan s AKP has dominated the political scene in Turkey This period has often been understood as a break from a secular pattern of state building But in this book Ceren Lord shows how Islamist mobilisation in Turkey has been facilitated from within the state by institutions established during early nation building Lord thus challenges the traditional account of Islamist AKP s rise that sees it either as a grassroots reaction to the authoritarian secularism of the state or as a function of the state s utilisation of religion Tracing struggles within the state Lord also shows how the state s principal religious authority the Presidency of Religious Affairs Diyanet competed with other state institutions to pursue Islamisation Through privileging Sunni Muslim access to state resources to the exclusion of others the Diyanet has been a key actor ensuring persistence and increasing salience of religious markers in political and economic competition

The Imperial Creation of Ethnicity Liping Wang,

2022-03-28 How did inter ethnic solidarity become attenuated in the era of the Chinese imperial transformation 1900

1930 Based on Inner Mongolian cases this book examines the transformations effective in the policy domains of land affairs

military organization and law which were initiated to strengthen state centralization yet resulted in the sharpening of ethnic

boundaries Using unpublished archival sources this book benefits from three key strengths It addresses the question of

Mongol Han relationship in the early Republican period 1911 1930 it illuminates the details of imperial administration and its

changes along with the shift of the regime and it explores the theoretical potentials of the near frontier approach and

positions the Chinese imperial transition within a comparative perspective *Identities, Nationalism, and the State* Miaad

Hassan, 2023-02-27 *Identities Nationalism and the State* The Politics of Ethnicity and Minority Regimes in the Middle East

calls attention to the question of how minorities position and represent themselves during and after regime transitions and

the dilemmas that minorities pose to regime change and how social cleavages shape minority preferences for regime type It

traces the path of ethnic and religious identities of minority regimes using the theories of modernization and nationalism to

find that ethnic nationalism can be and often is incompatible with nation building The author examines ethnic identity and

ethnic conflict in the Middle East exploring the process of identity formation within the context of colonial politics and

postcolonial Arab nationalism By considering Iraq Syria Lebanon and Bahrain all significant regional actors *Identities*

Nationalism and the State tries to answer questions of legitimacy and inclusivity of minority rule focusing not only on the

outcomes of minority and majority rule but also on examples of where minorities find communal representation better than

modern state governance *The Formation of Modern Kurdish Society in Iran* Marouf Cabi, 2021-11-04 Although the Kurds

have attracted widespread international attention Iranian Kurdistan has been largely overlooked This book examines the

consequences of modernity and modernisation for Iran s Kurdish society in the 20th century Marouf Cabi argues that while

state led modernisation integrated the Kurds in modern Iran the homogenisation of identity and culture also resulted in their

vigorous pursuit of their political and cultural rights Focusing on the dual process of state led modernisation and

homogenisation of identity and culture Cabi examines the consequences of modernity and modernisation for the

socioeconomic cultural and political structures as well as for gender relations It is the consequences of this dynamic dual

process that explains the modern structures of Iran s Kurdish society on the one hand and its intimate relationship with Iran

as a historical geographical and political entity on the other Using Persian Kurdish and English sources the book explores the

transformation of Kurdish society between the Second World War and the 1979 Iranian Revolution with a special focus on the

era of the White Revolution during the 1960s and 1970s
