The Nationalization of Congressional Politics Travis M. Johnston,2024-12-21 This book examines the consequences of nationalization for members of Congress and the voters they represent Constituents have come to evaluate their elected representatives on the basis of their national policy records Although the public expects the government to tackle important problems many of the most engaged voters are also the most uncompromising a fact that carries important legislative implications During campaigns candidates reflect these expectations back to voters by emphasizing broad policy issues that are largely divorced from local conditions Meanwhile officeholders carefully navigate the legislative process to avoid provoking national policy activists in and outside the district Taken together the book s study of mass opinion and elite behavior shows how the nationalization of U S politics creates a legislative conundrum for Congress The impulse to focus on national policy and a refusal to compromise one s values are often incompatible goals resulting in legislative gridlock with little hope for relief

The Increasingly United States Daniel J. Hopkins, 2018-05-30 In a campaign for state or local office these days you're as likely today to hear accusations that an opponent advanced Obamacare or supported Donald Trump as you are to hear about issues affecting the state or local community This is because American political behavior has become substantially more nationalized American voters are far more engaged with and knowledgeable about what's happening in Washington DC than in similar messages whether they are in the South the Northeast or the Midwest Gone are the days when all politics was local With *The Increasingly United States* Daniel J Hopkins explores this trend and its implications for the American political system The change is significant in part because it works against a key rationale of America's federalist system which was built on the assumption that citizens would be more strongly attached to their states and localities It also has profound implications for how voters are represented If voters are well informed about state politics for example the governor has an incentive to deliver what voters or at least a pivotal segment of them want But if voters are likely to back the same party in gubernatorial as in presidential elections irrespective of the governor's actions in office governors may instead come to see their ambitions as tethered more closely to their status in the national party

The Nationalization of American Political Parties, 1880-1896 Daniel Klinghard, 2010-04-19 This book investigates the creation of the first truly nationalized party organizations in the United States in the late nineteenth century an innovation that reversed the parties traditional privileging of state and local interests in nominating campaigns and the conduct of national campaigns Between 1880 and 1896 party elites crafted a defense of these national organizations that charted the theoretical parameters

of American party development into the twentieth century With empowered national committees and a new understanding of the parties role in the political system national party leaders dominated American politics in new ways renewed the parties legitimacy in an increasingly pluralistic and nationalized political environment and thus maintained their relevance throughout the twentieth century The new organizations particularly served the interests of presidents and presidential candidates and the little studied presidencies of the late nineteenth century demonstrate the first stirrings of modern presidential party leadership
