Nationalsozialistische Aussenpolitik:

Nationalsozialistische Außenpolitik. Strategie oder Kalkül? Steven Lehmann, Oliver H., 2013-09-16 Facharbeit Schule aus dem Jahr 2013 im Fachbereich Geschichte Deutschlands Nationalsozialismus Zweiter Weltkrieg Note 1 2 Veranstaltung Geschichte 13BG Sprache Deutsch Abstract Unsere Hausarbeit handelt von der nationalsozialistischen Außenpolitik unter der Leitung Hitlers während seiner Kanzlerschaft. Im Folgenden wollen wir nun die außenpolitischen Ereignisse wiedergeben und erläutern, inwiefern die Entscheidungen und Handlungen des NS Regimes als strategisch oder kalkulatorisch einzuschätzen sind. Nationalsozialistische Aussenpolitik Wolfgang Michalka, 1978 **National Socialist Cultural Diplomacy** Frederik Forrai Ørskov, 2025-06-30 National Socialist Cultural Diplomacy provides the first comprehensive account of the German Nordic Writers House. From 1934 to 1939 young Scandinavian and Finnish writers spent summers at a seaside villa in Travemünde mingling with representatives of the new German literature to enjoy beach days, excursions in the Third Reich and evening discussions on literature, politics and comradeship. The book treats the Writers House as a case study of National Socialist cultural diplomacy, offering fresh insights on the ways in which semi-official cultural mediators addressed, navigated and were constrained by a dilemma central to all cultural diplomacy but more urgently so in the case of totalitarian regimes like the Third Reich: that in order to be perceived as legitimate culture cannot be too obviously circumscribed by politics while cultural autonomy comes with a lack of control that does not sit well with totalitarian regimes. Between the prevalent ideal in the Nordic cultural sphere that culture stands apart from politics on the one hand and the political aims of official German diplomacy on the other, the institution showcases the constraints faced by aspiring cultural diplomats in the Third Reich and the strategies with which the Writers House's organizers addressed them. With the Writers House as a prism, National Socialist Cultural Diplomacy also offers a case study of the fault lines that emerged in the Nordic literary sphere with the post-1933 ideologization of the German literary field, its institutions and its lucrative book market. At stake was the role and identity of the literary intellectual, the proper relationship between culture, economics and politics and for some of the visiting writers whether to place consciousness over comradeship. This book will be of interest to researchers of Nazism, social and cultural history and the history of the extreme right. *German Foreign Policy, 1918-1945* Christoph M. Nazi Steel Marcus O Jones, 2012-07-15 This study explores an exemplary instance of the close interaction between private and official interests in planning and executing the programs of the Nazi government namely the acquisition in 1941 of the Rombach steel works by the German industrialist Friedrich Flick The industrial concern headed by Flick was among the largest and most influential steel producers and manufacturers of war material in the German economy during World War II Its activities in the occupied territories of western Europe centered on control of the Rombach works a large operation established in Lorraine in the late nineteenth century by German industrialists and expropriated by France along with the entire region in the aftermath of the First World War After successful military operations against France in 1940 the Nazi regime actively sought the collusion of the German industrial community in mobilizing the productive capacity of occupied territories for the war effort and numerous private German businessmen advanced claims on the lucrative assets in Lorraine and adjacent regions In his bid to gain control of the Rombach works Flick was successful for reasons specific to his position within the Nazi German economic system and the character of his interests This account of his activities then serves as a fine example of Nazi economic and occupation policy and its response to party business and bureaucratic influences

The Foreign Policy of the Third Reich Klaus Hildebrand, 1973-12-17 In this short outline history of Hitler's foreign policy Professor Hildebrand contends that the National Socialist Party achieved popularity largely because it integrated all the political economic and socio political expectations prevailing in Germany since Bismarck Thus foreign policy under Hitler was a logical extension of the aims of the newly created German nation state of 1871 Trading on his domestic economic successes Hitler relied on the traditional methods of power politics backing diplomacy with force Had he pursued expansionist aims alone using specific

lighting wars as threats or instruments of conquest he might have been more successful As it was the scheme went awry when the first phase European hegemony was overtaken by and forced to run parallel with the second and third phases American intervention and racial purification The ideology became too great a burden to bear stimulating internal resistance and the Allies of course determined to wage total for a total surrender Nazi Foreign Policy, 1933-1941 Christian Leitz,2004 How did the Second World War come about Nazi Foreign Policy 1933 1941 provides lucid answers to this complex question Focusing on the different regions of Nazi policy such as Italy France and Britain Christian Leitz explores the diplomatic and political developments that led to the outbreak of war in 1939 and its transformation into a global conflict in 1941 Nazi Foreign Policy 1933 1941 details the history of Nazi Germany s foreign policy from Hitler s inauguration as Reich Chancellor to the declaration of war by America in 1941 Christian Leitz gives equal weight to the attitude and actions of the Nazi regime and the perspectives and reactions of the world both before and during the war
