NATO and the European Union Movement Mary Margaret Ball,1974 *Nato and the European Union Movement* M. Margaret Ball,2003-01-01 N.A.T.O. and the European Union Movement M. Margaret Ball,1959 NATO and the European Union Movement Margaret Elizabeth Ball,1959 The Greek-Turkish Relationship and NATO Fotios Moustakis,2003 This publication shows that the Eastern Mediterranean having been transformed from a region of secondary importance during the Cold War to one of greater importance for the western interests in the post Cold War era is in a state of flux Despite sporadic periods of rapprochement tensions between Greece and Turkey still exist Therefore one must question the grounds behind the lack of normal relations that exist between these two NATO members and its effects on the NATO organisation as a whole Hence this volume has two purposes first to examine Greek and Turkish foreign security and defence policies during and after the post Cold War period and second to investigate why these policies have been formulated *European Union - History and Future* Ksenija Premur,2008-08-05 This book deals with history and future of European Union and the status of human rights in developing countries It consists of two essays Liberalism as an idea and ideology in the Western Europe while the second is dedicated to economic political and social relations between EU and Republic of Kazakhstan *NATO and the European Union Movement, by M. Margaret Ball* Mary Margaret Ball,1959

NATO's New Mission Rebecca R. Moore,2007-02-28 Reports of NATO's death have been greatly exaggerated Characterizations of NATO as a relic of the past do not square with the fact that the Alliance is busier today than at any time in its history As Europe has become more unified and more democratic NATO has assumed new layers of significance in the global security environment In a post September 11 world the old 1990s debate about what is in area and what is out of area is a luxury that the Alliance can no longer afford Decisions made at the 2004 Istanbul summit aimed at enhancing NATO's partnerships with the states of Central Asia and extending the partnership concept to the Greater Middle East reflect the Alliance's new more global presence as do new military missions in Afghanistan Iraq and Sudan Moore argues that a careful analysis of NATO's new more global focus suggests that it's not the nature of NATO's mission that has changed but rather its scope NATO is approaching its new out of area missions with the political tools developed after the Soviet threat faded in the early 1990s when the Allies agreed that rather than merely defend an old order they would now create a new one grounded in liberal democratic values including individual liberty and the rule of law Indeed the mission of projecting stability eastward was understood to be inextricable from the promotion of these values This new mission required that NATO devote greater attention to its political dimension In fact as the United States turned to promoting democracy around the world in the wake of September 11 it ultimately sought to enlist NATO in its mission of extending democracy beyond Europe to Central Asia and the Middle East As Moore demonstrates in her attempt to provide a full and comprehensive understanding of the new NATO while divisions within the Alliance persist as to just how global NATO should be the post September 11 security environment

ensures that NATO's survival depends upon its willingness to project security beyond Europe. That mission will be as much political as it is military. *The European Defence Initiative* Geoffrey Lee Williams, 1986-06-18 NATO in the First Decade after the Cold War Martin A. Smith, 2013-03-09 This book offers an original and distinct analysis of NATO's post Cold War evolution. Unlike so much of the available literature it is not focused on what in the author's opinion NATO should be doing now that the Cold War is over. Rather the author offers a comprehensive analysis and overview of the extent to which NATO can undertake new roles, tasks and missions in light of the extent to which it has retained significance and vitality as an international institution. The book's originality also lies in the way in which the author discusses NATO's adaptation within a framework provided by international relations theory and in particular concepts which stress the role and importance of transnational political processes and international regimes. So far these have been little used in the analysis of military security relations and institutions. The book will be of interest to those researching and teaching international relations, European politics and security studies as well as all those seeking a better understanding of the post Cold War survival and development of a key international security institution.
