Nato For A New Century Atlanticism And European Security:

NATO for a New Century Carl C. Hodge, 2002-10-30 NATO's military interventions in the Balkans have transformed the alliance. As the alliance goes East its members are compelled to rethink NATO's and each member nation's military and political roles. Providing a well rounded study of continuing change in the contemporary North Atlantic Treaty Organization this book is constructed around eight essays by European security experts analyzing challenges confronting the Atlantic Alliance as a military alliance and as a collective security organization dealing simultaneously with deterrence enlargement and regional crisis intervention. It is intended for senior undergraduate and graduate students in international relations American foreign policy European studies security and strategic studies. The evidence is that NATO will undergo many more changes responding to actual and potential threats to Europe's peace. These range from a revival of the ethnic conflict in the former Yugoslavia to the proliferation and possible use of nuclear biological and chemical weapons. Also discussed is the matter of NATO's further enlargement and the question of whether this offers more or less security to the alliance membership as are the emerging tensions between the EU and NATO security regimes. **NATO and the Middle East**

Mohammed Moustafa Orfy, 2010-10-04 This book examines the role of NATO in the Middle East. It reviews the strategic importance of the region and why it has become a source of instability, looks at US and international initiatives to counteract this instability and charts the development of NATO in this context. **The A to Z of NATO and Other International Security Organizations** Marco Rimanelli, 2009-09-14 The North Atlantic Treaty Organization (NATO) is a military alliance established by the signing of the North Atlantic Treaty on April 4, 1949. The treaty was signed by Belgium, the Netherlands, Luxembourg, France, United Kingdom, United States, Canada, Portugal, Italy, Norway, Denmark, and Iceland. Today there are a total of 26 countries that belong to NATO. **The A to Z of NATO and Other International Security Organizations** covers the Atlantic Alliance's origins, structure, and organization through a chronology, an introductory essay, a bibliography, and over 1,000 cross-referenced dictionary entries on its Secretaries General, its Supreme Allied Commanders Europe, plus all affiliated organizations created to enhance NATO's reach in a broader Euro-Atlantic security architecture, e.g., North Atlantic Consultative Council, Euro-Atlantic Partnership Council, NATO-Russia Charter, NATO-Ukraine Charter, and NATO-Mediterranean Dialogue Partners. This book also covers other related regional organizations with security responsibilities in Europe and worldwide where they interact with NATO either currently, e.g., ANZUS, ASEAN, European Union, Organization of African Unity, Organization of American States, Organization on Security and Cooperation in Europe, and United Nations, or in the past, e.g., CENTO, European Defence Community, SEATO, Warsaw Pact, and Western European Union. **NATO and European Security** Alexander Moens, Lenard J. Cohen, Allen G. Sens, 2003-03-30 Written before the September 11th attacks of 2001, ten contributions explore the tensions and transitions of the transatlantic relationship between Europe and the United States as it impacts the structures and policies of the North Atlantic Treaty Organization. Presented by Moens

NATO Towards the Challenges of a Contemporary World 2013 Robert Czulda, Robert Łoś, 2013-12-26 A wide range of contemporary challenges and threats and their volatility uncertainty complexity and ambiguity make it necessary to develop a new flexible and integrated holistic approach The modern world requires NATO to build institutional partnerships with a range of actors This applies not only to the other major international organizations such as the United Nations and the European Union but also to non governmental organizations NGOs as well as the private sector for example the energy and IT sectors All these players must become partners in the attempt to cope with multi dimensional security related problems Given the vast differences in their goals mandates methods and philosophy of action building trusting and effective relationships between them will be an arduous process Nevertheless as the biggest political and military organization in the world NATO cannot avoid contemporary challenges if it does not want to go out of business

Central and East European Politics Sharon L. Wolchik, Jane Leftwich Curry, 2018-03-29 Now in a fully updated edition this essential text explores the other half of Europe the new and future members of the EU along with the problems and potential they bring to the region and to the world stage Clear and comprehensive it offers an authoritative analysis of Central and Eastern Europe the Baltics and Ukraine

Blewett, 2008-12-30 In this companion volume to his 1995 bibliography of the same title Daniel Blewett continues his foray into the vast literature of military studies As did its predecessor it covers land air and naval forces primarily but not exclusively from a U S perspective with the welcome emergence of small wars from publishing obscurity In addition to identifying relevant organizations and associations Blewett has gathered together the very best in chronologies bibliographies biographical dictionaries indexes journals abstracts

Moore, 2007-02-28 Reports of NATO's death have been greatly exaggerated Characterizations of NATO as a relic of the past do not square with the fact that the Alliance is busier today than at any time in its history As Europe has become more unified and more democratic NATO has assumed new layers of significance in the global security environment In a post September 11 world the old 1990s debate about what is in area and what is out of area is a luxury that the Alliance can no longer afford Decisions made at the 2004 Istanbul summit aimed at enhancing NATO's partnerships with the states of Central Asia and extending the partnership concept to the Greater Middle East reflect the Alliance's new more global presence as do new military missions in Afghanistan Iraq and Sudan Moore argues that a careful analysis of NATO's new more global focus suggests that it's not the nature of NATO's mission that has changed but rather its scope NATO is approaching its new out of area missions with the political tools developed after the Soviet threat faded in the early 1990s when the Allies agreed that rather than merely defend an old order they would now create a new one grounded in liberal democratic values including individual liberty and the rule of law Indeed the mission of projecting stability eastward was understood to be inextricable from the promotion of these values This new mission required that NATO devote greater attention to its political dimension In fact as the United States turned to promoting democracy around the world in the wake of September 11 it ultimately sought to enlist NATO in its mission of extending democracy beyond Europe to Central Asia and the Middle East As Moore demonstrates in her attempt to provide a full and comprehensive understanding of the new NATO while divisions within the Alliance persist as to just how global NATO should be the post September 11 security environment ensures that NATO's survival depends upon its willingness to project security beyond Europe That mission will be as much political as it is military
