Natofederal Republic Of Yugoslavia:

Post-War Protection of Human Rights in Bosnia and Herzegovina Gregory Gisvold, Michael O'Flaherty, 2021-11-01 The war in Bosnia and Herzegovina was characterized by human rights abuses on a scale not seen in Europe since the Second World War. It is not then surprising that the Dayton Agreement together with related texts and agreements lays out the most ambitious human rights protection regime ever included within an international peace settlement. The peace agreement imports myriad substantive guarantees for the protection of every category of human rights including some through a novel application of the European Convention on Human Rights. The provisions are accompanied by a highly complex system for both monitoring and enforcement of their implementation. These enforcement procedures contain temporary elements such as international field operations and an array of tribunals and institutions intended to be permanent. The present volume is a contribution to the process of interpreting and assessing the post Dayton human rights regime in Bosnia and Herzegovina. The analysis of the contributing human rights scholars and practitioners is located within the contexts of the immediate reality and needs of Bosnia and Herzegovina and the systemic significance of the peace agreement for other post conflict and complex emergency situations worldwide. **US Department of State Dispatch**, 1996 **Former Yugoslavia Through Documents** Snežana Trifunovska, 2024-09-16 From the end of the 1980s and beginning of the 1990s onwards the world's attention has been occupied with the events which eventually led to the dissolution of the Socialist Federal Republic of Yugoslavia and to the creation of five independent and sovereign states. Apart from the humanitarian disaster and the devastated economies of the countries created on the territory of the former Yugoslavia it brought some important issues of international law to the forefront and provided the impetus for some new and rapid developments. The book is an epilogue to the first very successful collection *Yugoslavia through Documents* from its creation to its dissolution published by Martinus Nijhoff Publishers in 1994. However because of the complexity of the issues in the political, military, humanitarian and legal fields its structure is different. The book is divided into an Introduction and nine Parts each of them dealing with specific issues and containing where appropriate the Editor's note, comment or additional information. These two volumes constitute an absolutely essential collection for all research libraries. **Bosnian Peace** United States. Congress. Senate. Committee on Appropriations, 1996 **A Legal Geography of Yugoslavia's Disintegration** Ana S. Trbovich, 2008-02-05 *A Legal Geography of Yugoslavia's Disintegration* explains the violent break up of the former Yugoslavia in early 1990s in the context of two legal principles: sovereignty and the self-determination of peoples. The author recounts Yugoslavia's history with a focus on the country's internal administrative divisions and aspirations of different ethnic groups in order to effectively explain the genesis of the international community's political decision to recognize the right of secession for the largest administrative units of Yugoslavia. Trbovich, a Serbian author writing from the perspective of a disengaged scholar, tackles her subject matter with clarity and detail and offers an intriguing analysis of Kosovo's future status, international recognition

of secession implications of Yugoslavia's disintegration for other conflicts invoking right to self determination and international intervention in ethnic conflicts
